The Romance Of Risk 2008-08-06

dr lynn ponton has devoted her clinical practice to a particular community teenagers in trouble whether these kids are struggling with peers experimenting with drugs stealing cars or having unprotected sex they have something in common they are all involved in unhealthy risk taking and their parents are scared how did my child get involved in this dangerous situation they ask and what can i do their fears are justified today s teens have more opportunities for taking dangerous risks than ever before but in the romance of risk dr ponton refutes the traditional idea that risk taking is primarily an angry power struggle with parents so called teenage rebellion and re defines it as a potentially positive testing process whereby challenge and risk are the primary tools adolescents use to find out who they are and determine who they will become this new perspective is revealed in a series of mesmerizing tales about individual adolescents and their families among others we meet jill a 13 year old thrill seeking runaway hannah a privileged daughter of suburbia who suffers from anorexia and joe a high school senior with a serious drinking problem through these stories we come to understand dr ponton s startling observation that teenagers must confront and experience challenge and risk along the path to self discovery for adolescents the powerful allure of the adult world is equaled only by the fear of failing to find a place in it parents can ease that transition into adulthood however by promoting healthy risk taking so that dangerous options will be avoided in the romance of risk parents will learn how they can begin to understand rather than fear adolescent risk taking and how to communicate with their children about it after all teenagers will always romanticize risk but with the support and guidance of parents and other adults odds are the risks they take will be the right ones

Ariel's Ecology 2013-06-01

what happens if we abandon the assumption that a person is a discrete world making agent who acts on and creates place this monique allewaert contends is precisely what occurred on eighteenth century american plantations where labor practices and ecological particularities threatened the literal and conceptual boundaries that separated persons from the natural world integrating political philosophy and ecocriticism with literary analysis ariel s ecology explores the forms of personhood that developed out of new world plantations from georgia and florida through jamaica to haiti and extending into colonial metropolises such as philadelphia allewaert s examination of the writings of naturalists novelists and poets the oral stories of africans in the diaspora and afro american fetish artifacts shows that persons in american plantation spaces were pulled into a web of environmental stresses ranging from humidity to the demand for sugar this in turn gave rise to modes of personhood explicitly attuned to human beings interrelation with nonhuman forces in a process we might call ecological certainly the possibility that colonial life revokes human agency haunts works from shakespeare s tempest and montesquieu s spirit of the laws to spivak s theories of subalternity in allewaert s interpretation the transformation of colonial subjectivity into ecological personhood is not a nightmare it is rather a mode of existence until now only glimmering in che guevara s dictum that postcolonial resistance is synonymous with perfect knowledge of the ground
