WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 2005

1994-01-01

millions of americans take the bible at its word and turn to like minded local ministers and tv preachers periodicals and paperbacks for help in finding their place in god s prophetic plan for mankind and yet influential as this phenomenon is in the worldview of so many the belief in biblical prophecy remains a popular mystery largely unstudied and little understood when time shall be no more offers for the first time an in depth look at the subtle pervasive ways in which prophecy belief shapes contemporary american thought and culture belief in prophecy dates back to antiquity and there paul boyer begins seeking out the origins of this particular brand of faith in early jewish and christian apocalyptic writings then tracing its development over time against this broad historical overview the effect of prophecy belief on the events and themes of recent decades emerges in clear and striking detail nuclear war the soviet union israel and the middle east the destiny of the united states the rise of a computerized global economic order boyer shows how impressive feats of exegesis have incorporated all of these in the popular imagination in terms of the bible s apocalyptic works reflecting finally on the tenacity of prophecy belief in our supposedly secular age boyer considers the direction such popular conviction might take and the forms it might assume in the post cold war era the product of a four year immersion in the literature and culture of prophecy belief

when time shall be no more serves as a pathbreaking guide to this vast terra incognita of contemporary american popular thought a thorough and thoroughly fascinating index to its sources its implications and its enduring appeal

Licensing Royalty Rates, 2019 Edition (IL) 2014-06-24

from june 1775 to february 1781 during the american war of independence ten patriot generals died as a result of combat wounds their service and deaths spanned most of the wars duration and geographical expanse the generals were a diverse group with six born in america and four in europe three coming from professional military backgrounds and the rest citizen soldiers mostly with limited military experience as the colonists won their independence the fallen generals became martyrs for the revolutionary ideals that would inspire later generations throughout the world libertys fallen generals is the first book to analyze these key military leaders service and the quality of their leadership in light of recent scholarship on the revolutionary war each generals profile provides background on military and political events leading to his emergence assesses the general as a military leader in the war and examines the campaign that culminated in his battle related death a compelling study in leadership and sacrifice libertys fallen generals is essential reading for those interested in learning more about americas earliest heroes

in the first ever book length treatment of david hume s philosophy of action constantine sandis

brings together seemingly disparate aspects of Hume's work to present an understanding of human action that is much richer than previously assumed. Sandis showcases Hume's interconnected views on action and its causes by situating them within a wider vision of our human understanding of personal identity, causation, freedom, historical explanation, and morality. In so doing, he also relates key aspects of the emerging picture to contemporary concerns within the philosophy of action and moral psychology, including debates between Humeans and anti-Humeans about both motivating and normative reasons. Character and causation takes the form of a series of essays which collectively argue that Hume's overall project proceeds by way of a soft conceptual revisionism that emerges from his copy principle. This involves re-calibrating our philosophical ideas of all that agency involves to fit a scheme that more readily matches the range of impressions that human beings actually have on such a reading. Once we rid ourselves of a certain kind of metaphysical ambition, we are left with a perfectly adequate account of how it is that people can act in character freely and for good reasons. The resulting picture is one that both unifies Hume's practical and theoretical philosophy and radically transforms contemporary philosophy of action for the better.

Dr. Davidson's removal from the Professorship of Biblical Literature in the Lancashire Independent College, ... on account of alleged error in doctrine. A statement of facts,

with documents; together with remarks and criticisms *1918*

new england theologian jonathan edwards came to prominence at the culmination of a dramatic paradigm shift in millennialism that had begun in the sixteenth century declaring that a thousand year earthly kingdom would arrive in the future for edwards the land of israel would be the ideal location of the millennial kingdom and the people of israel after their restoration would play critical and decisive roles in the millennium s commencement edwards s millennial vision was also cosmic however and included both europe and china unlike his protestant predecessors and his puritan contemporaries edwards s millennialism de centralized england and new england contrary to what many have argued edwards neither originated nor advocated the notion of the american redeemer nation in america s theologian beyond america victor zhu establishes the coherence of edwards s judeo centric and cosmic vision of the millennial kingdom and argues that this vision is an indispensable part of edwards s theological system he highlights three theological loci in edwards s millennialism the greatness of god s divine sovereignty the magnificence of his glory and the capaciousness of his kingdom zhu demonstrates edwards s conviction of the progressive realization of the kingdom refuting the prevailing misinterpretation that edwards thought the millennium was imminent he explores edwards s cosmic vision of the millennial kingdom which extended from new england and israel to china and other parts of the heathen world in conclusion zhu examines the contemporary relevance of edwards s millennialism in chinese millennial movements

The Christian reformer; or, Unitarian magazine and review **[ed. by R. Aspland]. 1966**

well before television and the internet there were women who sought fame flirted with infamy and actively engaged with their fan base in today's pop culture world it can be hard to understand what the lives of these women were like in their pre suffrage world women who attracted attention were considered scandalous and it was largely uncommon for women to become celebrities women who rose to fame in those times had to put up with societal standards for women on top of the lack of privacy and free speech this book provides the details and context to let us know the women who captured america's heart in the 19th century rather than looking at influential women who strictly avoided notoriety it covers the lives of 18 celebrities like lydia maria child sojourner truth and jane addams

aristocrat catholic patriot founder before his death in 1832 charles carroll of carrollton the last living signer of the declaration of independence was widely regarded as one of the most important founders today carroll's signal contributions to the american founding are overlooked but the fascinating new biography american cicero rescues carroll from unjust neglect drawing on his considerable study of carroll's published and unpublished writings historian bradley j birzer masterfully captures a man of supreme intellect imagination integrity and accomplishment born a

bastard carroll nonetheless became the best educated and wealthiest founder the marylander s insight birzer shows allowed him to recognize the necessity of independence from great britain well before most other founders indeed carroll s analysis of the situation in the colonies in the run up to the revolution was original and brilliant yet almost all historians have ignored it reflecting his classical and liberal education the man who would be called the last of the romans advocated a proper understanding of the american revolution as deeply rooted in the western tradition carroll even left his mark on the u s constitution despite not assuming his elected position to the constitutional convention by inspiring the creation of the u s senate american cicero ably demonstrates how carroll s catholicism was integral to his thought oppressed because of his faith maryland was the most anti catholic of the original thirteen colonies carroll became the only roman catholic to sign the declaration of independence and helped legitimize catholicism in the young american republic what s more birzer brilliantly reassesses the most controversial aspects of charles carroll his aristocratic position and his critiques of democracy as birzer shows carroll s fears of extreme democracy had ancient and noble roots and his arguments about the dangers of democracy influenced alexis de tocqueville s magisterial work democracy in america american cicero reveals why founders such as john adams assumed that charles carroll would one day be considered among the greats and also why history has largely forgotten him
