1973

with contributions from a diverse array of international scholars this edited volume offers a renewed understanding of gender based violence gbv by examining its social and political dimensions in migration contexts this book engages micro meso and macro levels of analysis by foregrounding a conceptualization of gbv that addresses both its interpersonal and structural causes chapters explore how gbv frameworks and migration management intersect bringing to the forefront the specific inequalities these intersections produce for migrant women drawing upon several disciplines the authors engage in co writing a critical engagement which proposes an original understanding of how the concepts of intersectionality vulnerability and precarity speak to each other from a feminist perspective this volume will be of interest to scholars researchers and policymakers in gender studies migration and refugee studies sociology political science trauma studies human rights and socio legal studies

Regional Connector Transit Corridor Project

2015-05-13

over the past years businesses have had to tackle the issues caused by numerous forces from political technological and societal environment the changes in the global market and increasing uncertainty require us to focus on disruptive innovations and to investigate this phenomenon from different perspectives the benefits of innovations are related to lower costs improved efficiency reduced risk and better response to the customers needs due to new products services or processes on the other hand new business models expose various risks such as cyber risks operational risks regulatory risks and others therefore we believe that the entrepreneurial behavior and global mindset of decision makers significantly contribute to the development of innovations which benefit by closing the prevailing gap between developed and developing countries thus this special issue contributes to closing the research gap in the literature by providing a platform for a scientific debate on innovation internationalization and entrepreneurship which would facilitate improving the resilience of businesses to future disruptions

Operations Research/management Science

1970

over two thirds of women in botswana 67 have experienced some form of gender violence in their lifetime including partner and non partner violence a smaller but still high proportion of men admit to perpetrating violence against women inspired by the commonwealth plan of action on gender and development 2005 2015 and southern african development community sadc protocol on gender and development target of halving gbv by 2015 this research project provides the first comprehensive and comparative baseline assessment of the extent effects

and response to gbv in botswana a representative sample of 639 women and 590 men across botswana completed questionnaires in their preferred local language on behaviour and experiences related to gbv researchers asked women about their experience of violence perpetrated by men while men were asked about their perpetration of violence against women

2007

this book offers invaluable insights about the full spectrum of core design course contents systematically and in detail this book is for instructors and students who are involved in teaching and learning of capstone senior design projects in mechanical engineering it consists of 17 chapters over 300 illustrations with many real world student project examples the main project processes are grouped into three phases i e project scoping and specification
environmental science
chapter 2 test answers

conceptual design and detail design and each has dedicated two chapters of process description and report content prescription respectively the basic principles and engineering process flow are well applicable for professional development of mechanical design engineers cad cam cae technologies are commonly used within many project examples thematic chapters also cover student teamwork organization and evaluation project management design standards and regulations and rubrics of course activity grading key criteria of successful course accreditation and graduation attributes are discussed in details in summary it is a handy textbook for the capstone design project course in mechanical engineering and an insightful teaching guidebook for engineering design instructors

Hearings, Reports and Prints of the Senate Committee on Public Works

1994

for the last two decades the united states has been destroying its entire stockpile of chemical agents at the facilities where these agents are being destroyed effluent gas streams pass through large activated carbon filters before venting to ensure that any residual trace vapors of chemical agents and other pollutants do not escape into the atmosphere in exceedance of regulatory limits all the carbon will have to be disposed of for final closure of these facilities to take place in march 2008 the chemical materials agency asked the national research council to study evaluate and recommend the best methods for proper and safe disposal of the used carbon from the operational disposal facilities this volume examines various approaches to handling carbon waste streams from the four operating chemical agent disposal facilities the approaches that will be used at each facility will ultimately be chosen bearing in mind local regulatory practices facility design and operations and the characteristics of agent inventories along with other factors such as public involvement regarding facility operations
