From the Closet to the Altar 2012-09-07 same sex marriage has become one of the most volatile issues in american politics but if most young people support gay marriage and if there are clear indicators that a substantial majority of the population will soon favor it why has the outcry against it been so strong bancroft prize winning historian and legal expert michael klarman offers here an illuminating and engaging account of modern litigation over same sex marriage after looking at the treatment of gays in the decades after world war ii and the birth of the modern gay rights movement with the stonewall rebellion in 1969 klarman describes the key legal cases involving gay marriage and the dramatic political backlashes they ignited he examines the hawaii supreme court s ruling in 1993 which sparked a vast political backlash with more than 35 states and congress enacting defense of marriage acts and the massachusetts decision in goodridge in 2003 which inspired more than 25 states to adopt constitutional bans on same sex marriage klarman traces this same pattern court victory followed by dramatic backlash through cases in vermont california and iowa taking the story right up to the present he also describes some of the collateral political damage caused by court decisions in favor of gay marriage iowa judges losing their jobs senator majority leader tom daschle losing his seat and the possibly dispositive impact of gay marriage on the 2004 presidential election but klarman also notes several ways in which litigation has accelerated the coming of same sex marriage forcing people to discuss the issue raising the hopes and expectations of gay activists and making other reforms like civil unions seem more moderate by comparison in the end klarman discusses how gay marriage is likely to evolve in the future predicts how the u s supreme court might ultimately resolve the issue and assesses the costs and benefits of activists pursuing social reforms such as gay marriage through the courts from the closet to the altar will stand as the definitive one volume history of the tumultuous emergence of same sex marriage in american life as well as a landmark study of litigation social reform and the phenomenon of political backlash to court decisions

The War Lords and the Gallipoli Disaster 2021-02-05 an eye opening interpretation of the infamous gallipoli campaign that sets it in the context of global trade in early 1915 the british government ordered the royal navy to force a passage of the dardanelles straits the most heavily defended waterway in the world after the navy failed to breach turkish defenses british and allied ground forces stormed the gallipoli peninsula but were unable to move off the beaches over the course of the year the allied landed hundreds of thousands of reinforcements but all to no avail the gallipoli campaign has gone down as one of the great disasters in the history of warfare previous works have focused on the battles and sought to explain the reasons for the british failure typically focusing on first lord of the admiralty winston churchill in this bold new account nicholas lambert offers the first fully researched explanation of why prime minister henry asquith and all of his senior advisers the war lords ordered the attacks in the first place in defiance of most professional military opinion peeling back the manipulation of the historical record by those involved with the campaign s inception lambert shows that the original goals were political economic rather than military not to relieve pressure on the western front but to respond to the fall out from the massive disruption of the international grain trade caused by the war by the beginning of 1915 the price of wheat was rising so fast that britain the greatest importer of wheat in the world feared bread riots meanwhile russia the greatest exporter of wheat in the world and britain s ally in the east faced financial collapse lambert demonstrates that the war lords authorized the attacks at the dardanelles to open the straits to the flow of russian wheat seeking to lower the price of grain on the global market and simultaneously to eliminate the need for huge british loans to support russia s war effort carefully reconstructing the perspectives of the individual war lords this book offers an eye opening case study of strategic policy making under pressure in a globalized world economy

Daily Report 1985 in its 114th year billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

Report of the Adjutant General of the State of Indiana ... 1867 the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government

Geological Survey Water-supply Paper 1968 a comprehensive depository of all information relating to the scientific and technological aspects of shale gas and alternative energy conveniently arranged by energy type including shale gas wind geothermal solar and hydropower perfect first stop reference for any scientist engineer or student looking for practical and applied energy information emphasizes practical applications of existing technologies from design and maintenance to operating and troubleshooting of energy systems and equipment features concise yet complete entries making it easy for users to find the required information quickly without the need to search through long articles

United States Government Publications Monthly Catalog 1950 microbes are widely used in large scale industrial processes due to their versatility easy growing cultivation kinetic potential and the ability to generate metabolites with a wide range of potential applications to various commercial sectors such as the food pharmaceutical and cosmetic industries in addition to the potential for agriculture biomedical and several others among the metabolites of greatest commercial interest and many obtained on an industrial scale the wide range of enzymes biofuels organic acids amino acids vitamins biopolymers and many other classes of metabolites this book is intended for bioengineers biologist biochemist biotechnologists microbiologist food technologist enzymologist and related professionals researchers explores recent advances in the valorization of agri food waste provides technical concepts on the production of various bio products of commercial interest discusses the main process conditions to overcome the difficulties of using waste as alternative raw materials introduces technical economic details on the advantages and disadvantages of exploring the waste recovery chain explores the main technological advances in the recovery of residues in functional products

Monthly Catalogue, United States Public Documents 1975 the creation of modern buenos aires examines the impact of civic associations on the culture and the society of buenos aires and their ties to politics in the first decades of the twentieth century the period saw the emergence of the modern political system with true appeals to the voters tremendous urban growth and the solidification of a barrio identity historian joel horowitz examines four types of organizations football clubs bibliotecas populares popular libraries sociedades de fomento development societies that pushed for barrio improvements and universidades populares popular universities that provided practical training beyond the primary school level all four types became important social centers and were connected to the political world the book focuses on the period from the passage of a voting reform law in 1912 which made male citizen voting obligatory and fraud more difficult to the military coup of 1943 the book shows how civic associations helped create the social world of the city focusing especially on the part they played in the development of the sense of barrio it demonstrates how civic associations became vital links in the system of politics that emerged creating spaces for politicians to build connections to different communities

United States Government Publications, a Monthly Catalog 1913 in the definitive history of a twentieth century public health disaster alan derickson recounts how for decades after methods of prevention were known hundreds of thousands of american miners suffered and died from black lung a respiratory illness caused by the inhalation of coal mine dust the combined failure of government medicine and industry to halt the spread of this disease and even to acknowledge its existence

resulted in a national tragedy the effects of which are still being felt the book begins in the late nineteenth century when the disorders brought on by exposure to coal mine dust were first identified as components of a debilitating and distinctive illness for several decades thereafter coal miners dust disease was accepted in both lay and professional circles as a major industrial disease derickson describes how after the turn of the century medical professionals and industry representatives worked to discredit and supplant knowledge about black lung with such success that this disease ceased to be recognized many authorities maintained that breathing coal mine dust was actually beneficial to health derickson shows that activists ultimately forced society to overcome its complacency about this deadly and preventable disease he chronicles the growth of an unprecedented movement from the turn of the century miners union to the social medicine activists in the mid twentieth century and the black lung insurgents of the late sixties which eventually won landmark protections and compensation with the enactment of the federal coal mine health and safety act in 1969 an extraordinary work of scholarship black lung exposes the enormous human cost of producing the energy source responsible for making the united states the world s preeminent industrial nation

Official Gazette of the United States Patent and Trademark Office 2002 a native georgian james hughes callahan 1812 1856 migrated to texas to serve in the texas revolution in exchange for land in seguin texas where he settled he met and married a divorcée sarah medissa day 1822 1856 the lives of these two texas pioneers and their extended family would become so entwined in the events and experiences of the nascent nation and state that their story represents a social history of nineteenth century texas from his arrival as a sergeant with the georgia battalion through the ill fated 1855 expedition that bears his name to his shooting death in a feud with a neighbor callahan was a soldier a texas ranger a rancher and a land developer at every turn making his mark on the evolving guadalupe river basin separately sarah s family s journey reflected the experience of many immigrants to texas after its war of independence thomas o mcdonald traces the pair s respective paths to their meeting then follows as together they contend with conflict troublesome social mores the emergence of new industries and the taming of the land along the way helping to shape the texas culture we know today with a sharp eye for character and detail and with a wealth of material at his command author thomas o mcdonald tells a story as crackling with life as it is steeped in scholarly research in these pages the lives of the callahan and day families become a canvas on which the history of texas from revolution frontier defense and indian wars to anglo settlement and emerging legal and social systems dramatically inexorably unfolds

Official Gazette of the United States Patent and Trademark Office 2002 a treatise on modern bookkeeping accounting and business customs as illustrated in the business transactions which accompany this text
