Eminent Victorians 1978 the four biographical essays that make up eminent victorians created something of a stir when they were first published in the spring of 1918 bringing their author instant fame in his flamboyant collection lytton strachey chose to stray far from the traditional mode of biography those two fat volumes with which it is our custom to commemorate the dead who does not know them with their ill digested masses of material their slipshod style their tone of tedious panegyric their lamentable lack of selection of detachment of design instead he provided impressionistic but acute and some said skewed portraits rarely does strachey explore the details of a subject s daily or family life unless they point directly to an issue of character in short he pioneered a deeply sardonic and often scathingly funny biographical style none of strachey s victorians emerge unscathed in his hands florence nightingale is not a gentle archangel descended from heaven to minister sweetly to wounded soldiers but rather an exacting dictatorial and judgmental crusader her pen in the virulence of its volubility would rush to the denunciation of an incompetent surgeon or the ridicule of a self sufficient nurse her sarcasm searched the ranks of the officials with the deadly and unsparing precision of a machine gun her nicknames were terrible she respected no one dr thomas arnold the man appointed to revamp the very private british public school system fares little better in strachey s acid ink he became the founder of the worship of athletics and the worship of good form in this same vain military hero general gordon is portrayed as a temperamental irascible hermit occasionally drunk and often found in the company of young boys a man who tended to forget and forgo the tenets found in the bible he kept with him always and the powerful and popular cardinal manning who came within a hair s breadth of succeeding pope pius ix belonged strachey writes to that class of eminent ecclesiastics who have been distinguished less for saintliness and learning than for practical ability as he offered up

indelible sketches of his less than fab four strachey was intent on critiquing established mores this effortlessly superior wit knew full well that deep convictions and good deeds often go hand in hand with hypocrisy arrogance and egomania his task was to pique those who pretended they did not
