please provide course information please provide the must read summary of alan cooper s book the inmates are running the asylum why high tech products drive us crazy and how to restore the sanity this complete summary of the ideas from alan cooper s book the inmates are running the asylum shows that computer technology is embedded within almost every product that is manufactured yet all too often these new and improved products are hard to use because the engineers who are developing the interface between the user and the machine don t think like the average man on the street who knows nothing about technology therefore the situation effectively becomes the equivalent of letting the inmates run the asylum in which they are incarcerated better products need to be developed that work in the same way that average people think only then will new products deliver on their implied promise of enhancing the quality of life for their users according to alan cooper designers who are skilled in this specific field should be responsible for designing the interface between the user and the machine this summary asserts that the goal of computer usage should be not to make anyone feel stupid added value of this summary save time understand the key concepts increase your business knowledge to learn more read the inmates are running the asylum and rethink entrenched priorities in software planning

provides an irreverent but honest look at what individuals should do now when long term care requirements threaten the gold in the golden retirement years
