inspiring coming of age story about following his dreams after being diagnosed with type 1 diabetes max you have type 1 diabetes the doctor said my mom and i looked at each other for her time stood still for a second as our entire future as a family shifted but i had no clue what the diagnosis meant so i said the first thing that came to mind can i still play hockey as a kid when max domi was asked what he wanted to be when he grew up he only ever had one answer a hockey player growing up the son of a professional hockey player max saw from an early age what it took to make the nhl grit talent and the support of a team over countless hours in the garage at the rink and in the gym max chased his dream it seemed that max was born to be on the ice but then when he was twelve years old max started getting sick and sicker finally he and his family learned the awful truth max had type 1 diabetes overnight max and his family found their lives upended all max wanted was to be a normal kid but suddenly the simplest things a game of basketball with friends a family meal a school field trip were complicated with a thousand different considerations would people notice or make fun of him if he carried his blood testing kit everywhere would his teammates think he was weak if his blood sugar went low at hockey practice how much insulin did he need after a meal and all the while the fear of what might happen if things went wrong hung over his head max had to grow up quickly as

he struggled to find his new normal max slowly began to realize that overcoming his disease demanded the same qualities that it took to be a hockey player mental and physical toughness maturity and the love and care of family and friends bit by bit he learned sometimes the hard way not just to control his diabetes but to turn it into an advantage if managing his disease was going to demand that
