anne mccaffrey a life with dragons is the biography of a writer who vividly depicted alien creatures and new worlds as the author of the dragonriders of pern series mccaffrey 1926 2011 was one of the most significant writers of science fiction and fantasy she was the first woman to win the hugo and nebula awards and her 1978 novel the white dragon was the first science fiction novel to appear on the new york times hardcover bestseller list this biography reveals a fascinating and complex figure one who created and re created her fiction by drawing on life experiences at various stages mccaffrey was a beautiful young girl who refused to fit into traditional gender roles in high school a restless young mother who wanted to write an american expatriate who became an irish citizen an animal lover who dreamed of fantasy worlds with perfect relationships between humans and beasts and a wife trapped in an unhappy marriage just as the women s movement took hold author robin roberts conducted interviews with mccaffrey her children friends and colleagues and used archival correspondence and contemporary reviews and criticism the biography examines how mccaffrey s early interests in theater slavonic languages and literature and british history mythology and culture all shaped her science fiction the book is a nuanced portrait of a writer whose appeal extends well beyond readers of her chosen genre describes the life and work of science fiction writer anne mccaffrey another great book of puzzle solving challenges at a popular price ripped right from the pages of the los angeles times comes the 19th installment of crosswords from some of the nation s top constructors they re entertaining and a great value not only are the crosswords more mainstream and fun than the ones in the new york times but each book contains a generous 72 puzzles not the mere 50 of competing volumes the stay open lie flat specially reinforced spiral binding makes it easier to work on the puzzles anywhere too for students scholars readers advisors and curious sf readers and fans this guide provides an easy to use launch pad for researching and learning more about science fiction writers and their work emphasizing the best popular and contemporary authors this book covers 100 sf writers providing for each a brief biographical sketch including a quote from the author awards etc a list of the author s major works including editions and other writings research sources biographies criticism research guides and web sites in addition you ll find read alike lists for selected authors for anyone wanting to find information on popular sf authors this should be the first stop when mccaffrey s beloved dragons roar and their riders soar on the beasts mighty backs fans of pern will likely be enthralled publishers weekly for generations the dragonriders had dedicated their lives to fighting thread the dreaded spores that periodically rained from the sky to ravage the land on the backs of their magnificent telepathic dragons they flew to flame the deadly stuff out of the air before it could reach the planet s surface but the greatest dream of the dragonriders was to find a way to eradicate thread completely so that never again would their beloved pern be threatened with destruction now for the first time it looks as if that dream can come true for when the people of pern led by masterharper rointon and f lar and lessa weyrleader and weyrwoman of bendon weyr excavate

the ancient remains of the planet's original settlement they uncover the colonists' voice-activated artificial intelligence system which still functions and the computer has incredible news for them: there is a chance, a good chance that they can at long last annihilate Thread once and for all. This new collection of essays, commissioned from a range of scholars across the world, takes as its theme the reception of Rome's greatest poet in a time of profound cultural change amid the rise of Christianity, the changing status of the city of Rome, and the emergence of new governing classes. Vergil remained a bedrock of Roman education and identity; this volume considers the different ways in which Vergil was read, understood, and appropriated by poets, commentators, church fathers, orators, and historians. The introduction outlines the cultural and historical contexts; twelve chapters, dedicated to individual writers or genres, and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume.

National Bestseller *Captivating* by Anne McCaffrey is well known for their brilliant characterizations and they do not disappoint here. *Booklist* in *Fort Hold* a clutch of fire lizard eggs is about to hatch and Lord Bemis's beautiful young daughter Koriana is determined to impress one of the delightful creatures at the hatching. Apprentice Harper Kindan impresses a fire lizard of his own and wins the heart of Koriana, but Lord Bemis mistrusts Harpers and will not hear of a match between his daughter and the low-born Kindan. Then fate intervenes in the form of a virulent plague as fast spreading as it is deadly, arising suddenly as if out of nowhere. The contagion decimates Hold after Hold, paying no heed to distinctions of birth. In this feverish crucible, friendship and love will be tested to the breaking point and beyond. For with Threadfall scant years away, the dragonriders dare not expose themselves to infection, and it will fall to Kindan and his fellow apprentices to bravely search for a cure and save humanity. Strong storytelling and compelling drama along with memorable characters. *Library Journal* riveting, exciting the writing and characterization, as well as the infusions of Celtic and Inuit lore, remain of high quality. *Booklist* Petaybee is growing up day by day, the feeling planet like any child is learning to recognize and understand the meaning of outside stimuli, to respond to those stimuli, to communicate its own needs and desires, even to use human speech. Yanaba Maddock has appointed herself defender of her adopted planet and has even succeeded in proving its sentience to nonbelievers, but despite her efforts few outsiders truly care for the emotions and intelligence of what they perceive to be a giant hunk of rock. Then Yanaba is kidnapped, the price of her freedom: control of the planet itself, but the only one who can speak for Petaybee is Petaybee, and no one knows what a living planet can do once it finds its voice. Anne McCaffrey and Elizabeth Ann Scarborough collaborate seamlessly to tell a first-rate SF adventure. *Library Journal* on *Power Lines*, the spellbinding sequel to *Powers* that by Hugo and Nebula award-winning authors Anne McCaffrey and Elizabeth Ann Scarborough, the natives of Petaybee claimed their planet was sentient, but the officials of Intergal did not believe them or want to believe them. The planet was rich in valuable ore, and Intergal was determined to mine that ore, no matter what the cost. Yanaba Maddock, once a company spy, was adopted by the planet and its people as one of their own. Now her loyalties are to Petaybee, not Intergal, and she is dedicated to keeping Intergal from killing the world she has come to love. But without proof of the planet's sentience, Intergal will proceed with its mining operations. Can Yana find a way to convince Intergal of Petaybee's sentience before it is too late?

A solid start of a new series. Fast-paced adventure. *Publishers Weekly* Twin brother and sister Ronan and Murel are true children of Petaybee, the sentient planet that is their home, like their father.

they are changelings able to converse telepathically with creatures and to transform into seals the petaybeans wish to protect the twins from curious scientists but no one realizes that ronan and murel hunger to discover the origins of their shape shifting talent and that their search for knowledge will place them in the path of peril meanwhile petaybee is changing to investigate its sudden evolution the twins father heads out to the open water in his seal form and is presumed lost only ronan and murel with their remarkable talents of transformation can hope to find him and bring him home if they dare to risk exposure and face the dangers of the newly unstable sea the story is exciting and generously laced with humor but besides those qualities the characters and their interactions are so well realized as to utterly charm readers booklist when two award winning science fiction masters like anne mccaffrey and elizabeth ann scarborough collaborate the results are astonishing their master creation is petaybee a sentient planet able to guide its own evolution and with some help from its loyal inhabitants defend itself against predation by offworlders now at last mccaffrey and scarborough return to petaybee for the thrilling conclusion of the twins of petaybee trilogy the sixth novel of the amazing self aware world deluge intergal corporation has long desired to exploit the resource rich petaybee but the planet and its guardians led by yana maddock and sean shongili along with their twin children ronan and murel have successfully thwarted every attempt by the corporation to impose its iron fisted dominion until now in a bold two pronged assault the predacious corporation has arrested petaybee s leading off world champion marmion de revers algemeine on trumped up charges while intergal s military arm has dispatched an invading force to subdue the planet once and for all marmion has allies within the corporation who can halt the invasion but if they cannot be found quickly it will be too late for marmion and petaybee while their parents work to foil the invasion of their world ronan and murel are captured and sent to a desolate prison world where an old enemy dr mabo waits to continue her cruel experiments on the shape changing siblings the twins only hope of escape lies in the uncharted seas of the prison planet but in the murky depths something else is waiting the spacefaring barque cats are valued members of every vessel s crew thanks to their special bond with humans then pshaw ra a mysterious cat with highly advanced knowledge gives the felines the power of telepathy when panic over a virulent plague drives the government to exterminate animals pshaw ra guides the cats and humans of the starship ranzo to safety on his home planet mau but pshaw ra has a hidden agenda his ultimate goal mate the barque cats with their godlike counterparts who rule on mau and create a superior race to conquer the universe his plans however may be doomed by his daughters battle royal to become queen by a suspicious barque cat with an equally curious human friend and by something stirring deep beneath the city with a hunger to devour all life and an undying hatred for cats few are better at mixing elements of high fantasy and hard science fiction the new york times book review the crew of shipbred technicians sent to the planet ireta were prepared for a routine mission to catalog flora and fauna and search for new energy sources kai and his beautiful co leader varian the best xenob vet in the business followed all the standard procedures but the result of their investigations was totally unexpected when their rescue ship mysteriously disappears they suddenly find themselves surrounded by giant swamp creatures deadly predators and terrifying dinosaurs and a curious change begins to come over many of the crew members a mutinous change that will lead all of them in one way or another into the primitive darkness of a future world that holds many mysteries yet to be revealed book

at the close of the nineteenth century american youths developed a growing interest in electricity and its applications machines and gadgetry when authors and publishers recognized the extent of this interest in technology they sought to create reading materials that would meet this market need the result was science fiction written especially for young adults while critics tended to neglect young adult science fiction for decades they gradually came to recognize its practical and cultural value science fiction inspired many young adults to study science and

engineering and helped foster technological innovation at the same time these works also explored cultural and social concerns more commonly associated with serious literature nor was young adult science fiction a peculiarly american phenomenon authors in other countries likewise wrote science fiction for young adult readers this book examines young adult science fiction in the u s and several other countries and explores issues central to the genre the first part of the book treats the larger contexts of young adult science fiction and includes chapters on its history and development included are discussions of science fiction for young adults in the u s and in canada great britain germany and australia these chapters are written by expert contributors and chart the history of young adult science fiction from the nineteenth century to the present the second section of the book considers topics of special interest to young adult science fiction some of the chapters look at particular forms and expressions of science fiction such as films and comic books others treat particular topics such as the portrayal of women in robert heinlein s works and representations of war in young adult science fiction yet another chapter studies the young adult science fiction novel as a coming of age story and thus helps distinguish the genre from science fiction written for adult readers all chapters reflect current research and the volume concludes with extensive bibliographies
