## **Lexicography: Reference works across time, space and languages**

2003

in many european languages the national standard variety is converging with spoken informal and socially marked varieties in italian this process is giving rise to a new standard variety called neo standard italian which partly consists of regional features this book contributes to current research on standardization in europe by offering a comprehensive overview of the re standardization dynamics in italian each chapter investigates a specific dynamic shaping the emergence of neo standard italian and regional standard varieties such as the acceptance of previously non standard features the reception of old italian features excluded from the standard variety the changing standard language ideology the retention of features from italo romance dialects the standardization of patterns borrowed from english and the developmental tendencies of standard italian in switzerland the contributions investigate phonetic phonological prosodic morphosyntactic and lexical phenomena addressed by several empirical methodologies and theoretical vantage points this work is of interest to scholars and students working on language variation and change especially those focusing on standard languages and standardization dynamics

## ***The Routledge Introduction to Italian Linguistics***

2023-03-20

linguistic cycles are ever present in language change and involve a phrase or word that gradually disappears and is replaced by a new linguistic item the most well known cycles involve negatives where an initial single negative such as not is reinforced by another negative such as no thing and subjects where full pronouns are reanalyzed as endings on the verb this book presents new data and insights on the well known cyclical changes as well as on less well known ones such as the preposition auxiliary copula modal and complementation cycles part i covers the negative cycle with chapters looking in great detail at the steps that are typical in this cycle part ii focuses on pronouns auxiliaries and the left periphery part iii includes work on modals prepositions and complementation the book ends with a psycholinguistic chapter this book brings together linguists from a variety of theoretical frameworks and contributes to new directions in work on language change
