a concise and timely account of hitler s and fascism s rise to power and ultimate defeat from one of america s most famous journalists american journalist and author william l shirer was a correspondent for six years in nazi

germany and had a front row seat to hitler s mounting influence his most definitive work on the subject the rise and fall of the third reich is a riveting account defined by first person experience interviewing hitler watching his impassioned speeches and living in a country transformed by war and dictatorship shirer was originally commissioned to write the rise and fall of adolf hitler for a young adult audience this account loses none of the immediacy of the rise and fall of the third reich capturing hitler s ascendance from obscurity the horror of nazi germany s mass killings and the paranoia and insanity that marked the führer s downfall this book is by no means simplified and is sure to appeal to adults as well as young people with an interest in world war ii history for nearly 100 years william l shirer has spoken to us of fascism nazis and hitler he tells the unvarnished truth as he experienced it i figured this school type book wasn t going to tell me anything new but when i started reading i realized that i wasn t reading for the facts anymore i listened to his story and heard the urgency in his voice a voice from nearly 60 years ago telling us the truth about today daily kos

topics within the context of this story that are discussed give food for thought why some relationships even those that occur at a young age can lead to life altering decisions how the growth that comes through experience and a consistent positive work ethic can convert a subpar worker into a master craftsman how personal loss not resolved can result in devastating consequences years later how our world s reliance on credit scores and background checks make it nearly impossible for a person to rise up again after a transgression the fairness of the tendency of today s world to completely judge a person based on the single worst event in their life the rise and fall and rise of a man is a worthy read for those who want to be entertained for those who wish to examine some major topics inherent in each person s life and for those who wish to examine the direction in which society is currently headed is there room in our society for the idea of a second chance
