The Nature and Elements of Poetry (Classic Reprint) 2015-07-11

back cover the periodic table of poems is a collection of 93 short poems written to celebrate the chemical elements that make up our universe each poem explores the properties of a different element and is accompanied by a set of explanatory notes peter davern's new book is full of delightful poems about many of the chemical elements that inhabit the periodic table in addition the accompanying text makes meaningful references to the properties of the elements and their compounds and will be of interest to chemistry students as well as their instructors dr eric scerri ucla and author of the periodic table its story and its significance note from the author peter

davern i ve long been fascinated by the periodic table of the elements but have always had difficulty recalling just some of the properties of even the more well known elements so to help me remember some of their more prominent properties and occasionally some of their more quirky ones i decided to compose a short poem for each of the naturally occurring elements up to and including element 92 uranium followed by one additional poem to cover the transuranium elements the running order for the collection reflects the normal sequence of the elements as they appear on the periodic table starting with hydrogen then helium lithium beryllium and so on i hope you find the poems of some use

How Poetry Works *1991*

the universe is a poetic creation and we are the words truth is too much to contain alike honey taken in moderation i have learned in my lifetime that youth is potent with the vital wellspring furthered into growth and maturity we all are potential awaiting to find our purpose in love and in life these early works are more abstract than my later ones which have taken time and challenge to create day to day is structure goals noise and haste yet my true hope is of a universal rediscovery of our similarities which bring love and happiness between all of us we are an earth so brimming in truth and beauty that such may overwhelm ourselves unless taken time and moderate increments art is truly long and the time we have here is precious may you see the music of a sunset in wonder s vast splendor so there is our nature but a revolve from dawn of life to its sunset not a soul is exempt from pain and tragedy in life yet the melody behind our perceptions always is playing toward our greater wellspring of love truth and beauty may creativity bloom aside our now technological advancements for they distance us and humanity need love be at peace and happy
