Up From Liberalism 2016-08-09 because of the triumph of postmodern studies explication of classic poems by great dead white male english poets of preceding centuries has greatly declined in the last several decades even though many of the poems may still be puzzling to interested readers young and old this book is addressed to both audiences in the hope that new explications of twelve classic poems or sections of these poems by blake wordsworth coleridge keats shelley tennyson browning arnold hardy yeats and auden may help sustain interest in the poems although the explication procedure is now unpopular in theory and held to be as subjective as interpretation the procedure is based on the experience that if a puzzling poem is reasoned with it can often be found to make sense on a basic level of understanding a sense perhaps complex ambiguous or ambivalent but not self contradictory in essence then this is a book of poetry explications having esthetic aims but written in an era of unesthetic political and cultural studies the term conservative in the title refers to explicatory rather than political conservatism as well as to critical and literary conservation i e to conserving the practice of explication whether upon literary works old or new and so also conserving esthetic interest in the old works themselves the book also attempts to show that new conservative explications are still possible and can be still useful even in the postmodern era and even on classic poems already much explicated and that therefore explication still has much to do in the work of literary studies in the postmodern era

Jonathan Swift as a Conservative Trimmer 2020-02-02 citizenship has been an ill explored subject within conservative party studies when this subject has been analysed it is usually made by scholars of citizenship more concerned with general overviews than understanding specific conservative approaches to the concept this book intends to fill this gap through a rigorous analysis of sources the author explores how the conservative party contested the welfare model of citizenship and sought to recreate a new relationship between the individual the state and civil society starting from thatcher s idea of active citizenship and going through the analysis of john major s citizen s charter and david cameron s big society project the book sheds new light on how these developments responded to long term problems while dialoguing with specific circumstances and the different conservative leaders ideas from an ideological perspective the author analyses how these leaders echoed and re signified more traditional political ideas and ideologies while negotiating with and borrowing new flourishing concepts during those years far from being a unidimensional citizenship concept in reinterpreting old ideas and utilizing new ones these conservatives elaborated a complex and many times contradictory citizenship model that tried to address both long lasting and more timely issues that overlapped in british society
