**tokyo s urban development successes challenges** Dec 16 2022 tokyo s urbanization and sprawl create

challenges in management and governance despite the megacity's success as an economic and socio-political hub the continuing development of its urban environment presents issues that affect quality of life such as water supply adequacy and sanitation

**problems and solutions tokyo** Nov 14 2022 while tokyo may be a prosperous megacity it still has its fair share of problems one of those problems is tokyo's population density with over 13 million people some parts of tokyo can exceed 20 000 people per square kilometer making tokyo a very crowded city because of this overpopulation tokyo's water supplies may soon be insufficient
