south africans often are deeply polarised in our perspectives of the present and the past our ways of seeing are fraught with division and we fail to understand the complexities when we do not see what lies beneath the surface there is no denying that the jacob zuma presidency took a significant toll on south africa exacerbating tensions and exposing the deep fractures that already exist in our society along the lines of race class and even ethnicity the zuma years were marked by cases of corruption and state capture unprecedented in their brazenness and increased social protests many of which were accompanied by violence aggressive public discourse lack of respect for reason and an often disturbing resistance to meaningful engagement importantly those years also placed enormous pressure on our democratic institutions many of which still bear the scars and challenged the sovereignty of the constitution itself as an analyst and governance specialist at the institute for democracy in south africa idasa for twelve years february has had a unique perch turning and turning is a snapshot of her idasa years and the issues tackled which included work on the arms deal and its corrosive impact on democratic institutions idasa s party funding campaign which february helped lead as well as work on accountability and transparency combining analytical insight with personal observations and experience february highlights the complex process of building a strong democratic society and the difficulties of living in a constitutional democracy marked by soaring levels of inequality there is a need to reflect on and learn from the country s democratic journey if citizens are to shape our democracy effectively and to fulfill the promise of the constitution for all south africans citizens around the world use crowdsourced platforms to hold governments accountable to fill gaps in infrastructural and municipal services and to call attention to issues that impact everyday lives such as sexual violence and environmental injustice crowdsourcing constructing and collaborating brings together individuals and groups engaged in building and sustaining platforms for online collaboration and participation to explore and reflect on the methods challenges and potentials of the technology of crowdsourcing and mapping of social impact it brings together people directly involved in a range of projects from around the world i paid a bribe environmental justice atlas harassmap intolerance tracker visualizing palestine and humanitarian tracker to critically reflect on the tactics methods challenges and opportunities of crowdsourcing and crowd mapping as tools for social environmental and political change in an accessible and visually engaging style it shows how participatory digital media become crucial components of journalistic scholarly and activist practices addressing a range of topical challenges including economic corruption sexual harassment political violence and environmental conflict in diverse geographic contexts revolutionary republicanism provides a history of french republicanism seen through a seminal episode of its creation the 1848 revolution the process of reinventing republicanism in 1848 gave rise to two opposite understandings of republicanism a moderate one that merely adapted the institutions of representative government to popular sovereignty and a more radical social democratic notion of republicanism based on inclusive forms of representation and aiming at the emancipation of the proletariat these two notions of republicanism unfolded over the course of the few critical months between the revolution of february 1848 and the uprising of june 1848 which saw the victory of the moderate one playing devil s advocate to the traditional republican history that casts 1848 as a mere step in the continuous history of french republicanism the book demonstrates that the events of the revolution amounted to a repression of all that the republic had meant up until that point particularly the forms of participation and popular representation hitherto seen as constituting a republican regime the text also sets out to chart the history of the democratic and social republic as the socialist and worker revolutionaries of 1848 called the radical republicanism they dreamed of founding and believed would fulfil the republican promise of emancipation this book will appeal to all those with an interest in the french revolutions and the history of radical ideas in ten years time will antibiotics still work have we let bacteria get the upper hand in the evolutionary arms race in the 1920s the discovery of the antibiotic penicillin started a golden age of medicine however experts warn that the end of that age may be just a decade away in this bwb text microbiologist siouxie wiles explores the looming crisis of antibiotic

resistance and its threat to new zealand wiles concludes that new zealand must do more to protect the public from a future without antibiotics how can you avoid the common pitfalls when navigating the complexities of personal injury limitation periods this is a guide to the law of limitation periods in personal injury actions pitfalls and problems are highlighted and the limitation periods and service rules are clearly explained ensuring that you never issue or serve proceedings outside the legal time limits each chapter is supplemented by summaries of the key cases for that topic and part 2 contains all the relevant legislation new coverage includes landmark cases explaining and analysing their impact on practice collins v secretary of state for business innovation and skills court of appeal 2014 an asbestos related lung cancer case of seminal importance in relation to long tail industrial disease claims platt v brb residuary ltd court of appeal 2014 examination of constructive knowledge in the context of limitation in disease cases re v ge 2015 consideration of the court s discretion conferred by section 33 of the limitation act 1980 in the context of a sexual abuse case abela v baadarani supreme court 2013 highlights an important shift of emphasis away from the traditional approach to service out of the jurisdiction and considerations of national sovereignty and towards a more practical and pragmatic approach barton v wright hassall supreme court 2018 a crucial judgment regarding whether litigants in person should be granted a special status in civil litigation from the winner of the bailie gifford prize the instant sunday times bestseller should be read by anyone who cares about justice humanity and human rights elif shafak an essential account sunday times powerful and persuasive superb abdulrazak gurnah an urgent reminder that britain s colonial rule isn t our past it s our present new statesman an important book observer elegant moving and profoundly informative the scotsman through one woman s fight for justice the award winning author of east west street exposes the shocking events that marked the 1965 establishment of the british indian ocean territory written with sands characteristic expertise insight and thrilling storytelling the last colony lays bare the brutal legacy of colonial rule the devastating impact of britain s grip on its last colony in africa and the ongoing struggle to right a historic wrong the editors have transcribed 2 500 of wilkie collins s letters around 700 of them previously unidentified and have given them all a full scholarly annotation and context the letters shed light on the personal life and business activities of this creative victorian personality the yearbook commercial arbitration continues its longstanding commitment to serving as a primary resource for the international arbitration community with reporting on arbitral awards and court decisions applying the leading arbitration conventions as well as arbitration legislation and rules volume xxxiii includes excerpts of arbitral awards made under the auspices of inter alia the international chamber of commerce icc a biennial update of the digest of investment treaty decisions and awards first published in 2006 notes on new and amended arbitration rules including references to their online publication notes on recent developments in arbitration law and practice in the dubai international financial centre rwanda slovenia syria and ukraine as well as on the opinion of the advocate general of the european court of justice in the west tankers case excerpts of 109 court decisions applying the 1958 new york convention from 23 countries including an update of russian and greek jurisprudence and for the first time decisions from argentina belize the british virgin islands chile and peru all indexed by subject matter and linked to the general editor s published commentaries on the new york convention an extensive bibliography of recent books and journals on arbitration the yearbook is edited by the international council for commercial arbitration icca the world s leading organization representing practitioners and academics in the field with the assistance of the permanent court of arbitration the hague it is an essential tool for lawyers business people and scholars involved in the practice and study of international arbitration a list of all red army rifle regiments 1939 1945 including service dates divisions subordinate to and fate considerable attention has recently been focused on the importance of social networks and business culture in reducing transaction costs both in the pre industrial period and during the nineteenth century this book brings together twelve original contributions by scholars in the united kingdom continental europe and north america which represent important and innovative research on this topic they cover two broad themes first the role of business culture in determining commercial success in particular the importance of familial religious ethnic and associational connections in the working lives of merchants and the impact of business practices on family life second the wider institutional and political framework for business operations in particular the relationship between the political economy of trade and the cultural world of merchants in an era of transition from personal to corporate structures these key themes are developed in three separate sections each with four contributions they

focus in turn on the role of culture in building and preserving businesses the interplay between institutions networks and power in determining commercial success or failure and the significance of faith and the family in influencing business strategies and the direction of merchant enterprise the wider historiographical context of the individual contributions is discussed in an extended introductory chapter which sets out the overall agenda of the book and provides a broader comparative framework for analysing the specific issues covered in each of the three sections taken together the collection offers an important addition to the available literature in this field and will attract a wide readership amongst business cultural maritime economic social and urban historians as well as historical anthropologists sociologists and other social scientists whose research embraces a longer term perspective civil military relations have been a consistent theme of the history of the weimar republic this study focuses on the career of general walther reinhardt the last prussian minister of war and the first head of the army command in the weimar republic though less well known than his great rival hans von seeckt reinhardt s role in forming the young reichswehr and his writings on warfare made him one of the most important and influential military figures in interwar germany contrary to the conventional view that civil military relations were fraught from the outset the author argues reinhardt s contribution to the military politics of the weimar republic shows that opportunities for reform and co operation with civilian leaders existed however although he is primarily seen as a liberal general this study demonstrates that he was motivated by professional military considerations and by the specter of a future war his ideas on modern warfare were amongst the most radical of the time this book discusses the manner in which britain s wars which took place between 2000 and 2015 have interacted with the relevant principles of international law and english law for the purpose primarily of considering legal accountability during a debate in the house of lords in 2005 a former chief of the defence staff commented that the armed forces are under legal siege the book will discuss the major legal issues which have arisen ranging from the various votes in parliament to go to war the constitutional relationship between ministers and senior commanders the right under international law to use force the influence of human rights law the role of the courts in england including the coroners courts to the legal regime applying to the conduct of uk military operations it will assess critically whether the armed forces will now have to accept that operations conducted outside the uk are subject to greater legal scrutiny than previously and whether if this is the case it is likely to hinder their future military activities this book will be of great interest to scholars of international law the law of armed conflict military studies and international relations as well as to those with a professional or other interest in the subject matter a collection of the monthly climatological reports of the states originally issued separately for each state or section similar data was combined in the monthly weather review for july 1909 to dec 1913 also pub separately during that time for each of the 12 districts previous to july 1909 monthly reports were issued for each state or section charles woolverton emigrated from england sometime before 1693 and settled in new jersey he married mary in about 1697 they had nine children descendants and relatives lived mainly in new jersey pennsylvania new york virginia ohio indiana and michigan gorilla pathology and health with a catalogue of preserved materials consists of two cross referenced parts the first the book itself is a review of pathological changes and tissue responses in gorillas gorilla gorilla and g beringei with an emphasis on free living animals but also with reference to those in captivity the comparative aspects are discussed stressing the relevance of research to both gorillas and humans what makes the publication truly unique however is the second part a comprehensive descriptive catalogue of the location and nature of gorilla material in museums and scientific institutions throughout the world this is of great consequence because free living gorillas are strictly conserved with restricted access so the location of a wealth of preserved tissues and other material that has been collected over the decades is a great benefit for research and study this book can and should be used to gain cardinal knowledge regarding the biology and pathology of this genus the combination of book and catalogue in this extensive compilation makes it an invaluable tool for all those concerned with the health welfare and conservation of gorillas one of our nearest living relatives brings together studies data and clinical practice from difficult to access or obscure journals and ngo reports in different languages for all interested parties and practitioners provides perspectives on existing research in gorilla pathology both for those studying conservation practices and those seeking an understanding of comparable diseases in humans includes illustrative figures on gross and microscopic pathological changes museum specimens photos of field necropsy and techniques and examples of laboratory

tests features an extensive list of references and further reading in different languages incorporates a comprehensive descriptive catalogue of gorilla material from around the world the pontificate of clement vii giulio de medici is usually regarded as amongst the most disastrous in history and the pontiff characterized as timid vacillating and avaricious it was during his years as pope 1523 34 that england broke away from the catholic church and relations with the holy roman emperor deteriorated to such a degree that in 1527 an imperial army sacked rome and imprisoned the pontiff given these spectacular political and military failures it is perhaps unsurprising that clement has often elicited the scorn of historians rather than balanced and dispassionate analysis this interdisciplinary volume the first on the subject constitutes a major step forward in our understanding of clement vii s pontificate looking beyond clement s well known failures and anachronistic comparisons with more successful popes it provides a fascinating insight into one of the most pivotal periods of papal and european history drawing on long neglected sources as rich as they are abundant the contributors address a wide variety of important aspects of clement s pontificate re assessing his character familial and personal relations political strategies and cultural patronage as well as exploring broader issues including the impact of the sack of rome and religious renewal and reform in the pre tridentine period taken together the essays collected here provide the most expansive and nuanced portrayal yet offered of clement as pope patron and politician in reconsidering the politics and emphasizing the cultural vitality of the period the collection provides fresh and much needed revision to our understanding of clement vii s pontificate and its critical impact on the history of the papacy and renaissance europe providing a valuable overview of regionalism throughout the entire continent regionalism in modern europe combines both geographical and thematic approaches to examine the origins and development of regional movements and identities in europe from 1890 to the present a wide range of internationally renowned scholars from the usa the uk and mainland europe are brought together here in one volume to examine the historical roots of the current regional movements and to explain why some of them scotland catalonia and flanders among others evolve into nationalist movements and even strive for independence while others brittany bavaria do not they look at how regional identities through regional folklore language crafts dishes beverages and tourist attractions were constructed during the 20th century and explore the relationship between national and subnational identities as well as regional and local identities the book also includes 7 images 7 maps and useful end of chapter further reading lists this is a crucial text for anyone keen to know more about the history of the topical and at times controversial subject of regionalism in modern europe this book comprehensively addresses the economic and social implications of the covid 19 pandemic in each chapter of the book the effects of the pandemic on different economic and financial sectors are discussed the book tackles many topics and issues that are of relevance in the post pandemic world some of these issues are the effects of the pandemic on countries budgets tax systems financial and economic policies and management in addition the evaluation of the pandemic in terms of migration and refugees the historic comparison of its effects with other pandemics the social media reflections of the pandemic and the global governance discussions the book also considers the effects of pandemic on the use of digital currencies and the effects of digitalization of employment and robot employment an alphabetical arrangement of the ships of the continental and united states navies with a historical sketch of each one enhanced cooperation for the eu patent the committee s evidence session with baroness wilcox thirty second report of session 2010 12 report together with formal minutes oral and written evidence german and italian fascist armies in the second world war treated the jews quite differently jews who fell into the hands of the german army ended up in concentration camps none of those taken by the italians suffered the same fate yet the protectors of the jews were no philo semites nor were they often great respecters of human life some of those same officers had sanctioned savage atrocities against ethiopians and arabs in the years before the war jonathan steinberg uses this remarkable and poignant story to unravel the motives and forces underpinning both fascism and nazism as a renowned historian of both germany and italy he is uniquely placed to answer the underlying question why read international current affairs yearly
