for sanctification and glorification I limited atonement is unbiblical and p perseverance of the saints is confirmed in the strongest possible way to the extent it s synonymous with eternal security and the certainty of glorification most other anti calvinist books deal heavily with the moral and philosophical travesties of calvinism for example i highly recommend what love is this by dave hunt but this book tries to provide better expositions of the passages that lead good godly men to accept calvinism in the first place like romans 8 romans 9 john 6 and ephesians 1 by paying attention to the small under appreciated detail that the bible says predestination is to sanctification and glory not to faith if i felt this task was already accomplished i wouldn t have written this book but would have promoted the books that already did it white calvinist there is no meaningful non reformed exegesis of john 6 37 45 available as numerous as the attempts of arminian exegetes to find some way around the testimony of these verses has been not even a plausible solution has been offered that does not require the complete dismantling of the text redefinition of words or the insertion of utterly foreign concepts flowers non calvinist would anyone dare adopt or seek to defend this most troubling doctrine of reprobation if not for the perceived defense offered by the apostle in romans 9 i rejoice in biblical non calvinistic predestination to glory not to faith biblical predestination is about the certainty of god s completion of our salvation through sanctification and glorification predestination shouldn t be a word that conjures up images of calvinistic horrors of reprobation in the minds of those who haven t been indoctrinated to focus on the good fortunes of the elect instead predestination should be a word that gives great joy because it underlies the biblical doctrine of the certainty of our future glorification rom 5 3 having been justified by faith we rejoice in the sure and certain hope of sharing in the glory of god my hope is that this book won t only be a defense against calvinism and its harms and rescue some born again calvinists from calvinism but also that this consideration of the topic of predestination will

*Republic, Lost* 1869 revised and updated for the 2016 election with 75 new material in an era when special interests funnel huge amounts of money into our government driven by shifts in campaign finance rules and brought to new levels by the supreme court in *Citizens United v. Federal Election Commission* trust in our government has reached an all time low more than ever before Americans believe that money buys results in congress and that business interests wield control over our legislature with heartfelt urgency and a keen desire for righting wrongs harvard law professor Lawrence Lessig takes a clear eyed look at how we arrived at this crisis how fundamentally good people with good intentions have allowed our democracy to be co-opted by outside interests and how this exploitation has become entrenched in the system rejecting simple labels and reductive logic and instead using examples that resonate as powerfully on the right as on the left Lessig seeks out the root causes of our situation he plumbs the issues of campaign financing and corporate lobbying revealing the human faces and follies that have allowed corruption to take such a foothold in our system he puts the issues in terms that nonwonks can understand using real world analogies and real human stories and ultimately he calls for widespread mobilization and a new constitutional convention presenting achievable solutions for regaining control of our corrupted but redeemable representational system in this way Lessig plots a roadmap for returning our republic to its intended greatness while America may be divided Lessig vividly champions the idea that we can succeed if we accept that corruption is our common enemy and that we must find a way to fight against it in *Republic Lost* he not only makes this need palpable and clear he gives us the practical and intellectual tools to do something about it
