### Where the Truth Lies 1990-06-29

where the truth lies is an absorbing account of a case of suspected fraud involving the tragic career of the molecular biologist franz moewus that illustrates all that can go wrong in scientific knowledge making jan sapp follows moewus meteoric flight among the greatest scientists of the twentieth century to his denunciation as the perpetrator of one of the most ambitious cases of fraud in the history of science the author reopens the case not to vindicate moewus but to show the lessons that the controversy reveals to the scientist professor sapp demonstrates how what counts as evidence is negotiated in science and reveals the difficulties scientists face in objectively testing the validity of their results the author emphasizes the creative nature of science the rhetorical nature of scientific reports
