Forty Key Questions about Our Foreign Policy 2013-10

this is a new release of the original 1952 edition

Dr. Kissinger's Role in Wiretappings 1974

the book is a memoir of youth experiences and acquaintances that made it possible to become a special agent of the fbi the book includes accounts of my training and experiences in the bureau from 1950 80 described are significant personages that were fundamental to develop the maturity and philosophy necessary to pursue successfully my career there is an in depth description of fbi director j edgar hoover and his associate director clyde tolson and the fbi they created the memoir closes with my assessment of the national interests of the usa

Eyewitness to J. Edgar Hoover's FBI 2014

the federal bureau of investigation was an agency devoted to american ideals professionalism and scientific methods directed by a sage and selfless leader and anyone who said otherwise was a no good subversive bent on discrediting the american way of life that was the official story and how j edgar hoover made it stick running roughshod over those same american ideals is the story this book tells in full for the first time from hoover s first tentative media contacts in the 1930s to the bureau s eponymous television series in the 1960s and 1970s fbi officials labored mightily to control the bureau s image efforts

that put them not so squarely at the forefront of the emerging field of public relations in the face of any journalistic challenges to the fbi s legitimacy and operations hoover was able to create a benign even heroic counter narrative thanks in part to his friends in newsrooms matthew cecil s own prodigious investigation through hundreds of thousands of pages from fbi files reveals the lengths to which hoover and his lackeys went to use the press to hoodwink the american people even more sobering is how much help he got from so many in the press conservative journalists like broadcaster fulton lewis jr and columnist george sokolsky positioned themselves as objective defenders of hoover s fbi and were rewarded with access friendship and other favors some of hoover s friends even became adjunct fbi agents designated as special service contacts who discreetly gathered information for the bureau enemies on the other hand were closely monitored and subjected to operations that disrupted their work or even undermined and ended their careers noted journalists like i f stone george seldes james a wechsler and many others found themselves the subjects of fbi investigations and occasionally named on the bureau s custodial detention index targeted for arrest in the case of a national emergency with experience as a political reporter a press secretary and a scholar and professor of journalism and public relations matthew cecil is uniquely qualified to conduct us through the maze of political intrigue and influence peddling that mark and often mask the history of the fbi his work serves as a cautionary tale about how manipulative government agents and compliant journalists can undermine the very institutions and ideals they are tasked with protecting

Hoover's FBI and the Fourth Estate **2014-02-25**

Hoover's Handbook of Private Companies 2008-12

think that richard nixon lost the 1960 presidential

election because he sweated on tv or that john kerry was swiftboated out of the presidency in 2004 think again in predicting the next president political analyst and historian allan j lichtman presents thirteen historical factors or keys four political seven performance and two personality that determine the outcome of presidential elections in the chronological successful application of these keys to every election since 1860 lichtman dispels much of the mystery behind electoral politics and challenges many traditional assumptions an indispensable resource for political junkies who want to get a head start on calling decision 2012

Oxford IB Diploma Programme: History of the Americas 1880-1981 Course Companion 2015-07-23

hunting down america s public enemies was just one of the fbi s jobs another perhaps more vital and certainly more covert was the job of promoting the importance and power of the fbi a process that matthew cecil unfolds clearly for the first time in this eye opening book the story of the pr men who fashioned the hoover era branding hoover s fbi reveals precisely how the bureau became a monolithic organization of thousands of agents who lived and breathed a well crafted public relations message image and worldview accordingly the book shows how the public was persuaded some would say conned into buying and even bolstering that image just fifteen years after a theater impresario coined the term public relations the fbi under j edgar hoover began practicing a sophisticated version of the activity cecil introduces those agency pr men in washington who put their singular talents to work by enforcing and amplifying hoover s message louis b nichols overseer of

the crime records section for more than twenty years was a master of bend your ear networking milton a jones brought meticulous analysis to bear on the mission fern stukenbroeker a gift for eloquence and cartha deke deloach a singular charm and ambition branding hoover s fbi examines key moments when this dedicated cadre all working under the protective wing of associate director clyde tolson manipulated public perceptions of the bureau was the dillinger triumph really what it seemed in these critical moments the book allows us to understand as never before how america came to see the fbi s law enforcement successes and overlook the dubious accomplishments such as domestic surveillance that truly defined the hoover era

Predicting the Next President

2011-12-16

the access to history series is the most popular and trusted series for as and a level history students this new edition provides accessible and complete coverage of the usa from 1890 1954 from the presidential situation in 1890 and the reasons for entering the first world war to the policies of the new deal and the impacts of the second world war it charts the changing optimism of the time from the apparent economic stability of the 1920s the devastation of the depression to the optimism under roosevelt s presidency throughout the book key dates terms and issues are highlighted and historical interpretations of key debates are outlined summary diagrams are included to consolidate knowledge and understanding of the period and exam style questions and tips written by examiners for each specification provide the opportunity to develop exam skills

Branding Hoover's FBI 2016-09-16

Forty Key Questions about Our Foreign Policy 2009-07

lbj aims to expose vice president johnson s active role in the assassination of president kennedy and how he began planning his takeover of the u s presidency even before being named the vice presidential nominee in 1960 lyndon b johnson s flawed personality and character traits were formed when he was a child and grew unchecked for the rest of his life as he suffered severe bouts of manic depression and bipolar disorder

he successfully hid this disorder from the public as he bartered stole and finessed his way through the corridors of power on capitol hill though records have been uncovered proving some of his aides knew of his mental illness phillip f nelson after years of researching johnson and the jfk assassination concludes that during his vice presidency johnson suffered progressively stronger bouts of mental collapse as he was busy undermining kennedy s domestic and foreign policy initiatives for the purpose of cunningly saving them for his own legacy his involvement with jfk s assassination is conclusively drawn with both text and photographic evidence showing johnson s knowledge of when and where the assassination would take place nelson s careful and meticulous research has led him to uncover secrets from one of the greatest unsolved mysteries in our country s history

Hoover's Billion Dollar Directory 1997

at the fbi the sex deviates program covered a lot of ground literally at its peak j edgar hoover s notorious sex deviates file encompassed nearly 99 cubic feet or more than 330 000 pages of information in 1977 1978 these files were destroyed and it would seem that four decades of the fbi s dirty secrets went up in smoke but in a remarkable feat of investigative research synthesis and scholarly detective work douglas m charles manages to fill in the yawning blanks in the bureau s history of systematic some would say obsessive interest in the lives of gay and lesbian americans in the twentieth century his book hoover s war on gays is the first to fully expose the extraordinary invasion of us citizens privacy perpetrated on a historic scale by an institution tasked with protecting american life for much of the twentieth century when exposure might mean

nothing short of ruin gay american men and women had much to fear from law enforcement of every kind but none so much as the fbi with its inexhaustible federal resources connections and its carefully crafted reputation for ethical by the book operations what hoover s war on gays reveals rather is the fbi s distinctly unethical off the books long term targeting of gay men and women and their organizations under cover of official rationale such as suspicion of criminal activity or vulnerability to blackmail and influence the book offers a wide scale view of this policy and practice from a notorious child kidnapping and murder of the 1930s ostensibly by a sexual predator with homosexual tendencies educating the public about the threat of deviates through wwii s security concerns about homosexuals who might be compromised by the enemy to the cold war s lavender scare when any and all gays working for the us government shared the fate of suspected communist sympathizers charles s work also details paradoxical ways in which these incursions conjured counterefforts like the mattachine society one inc and the daughters of bilitis aimed at protecting and serving the interests of postwar gay culture with its painstaking recovery of a dark chapter in american history and its new insights into seemingly familiar episodes of that story involving noted journalists politicians and celebrities this thorough and deeply engaging book reveals the perils of authority run amok and stands as a reminder of damage done in the name of decency
