control is a rapidly developing field for both  
researchers and industrial practitioners the  
field itself is wide ranging and includes  
engine control vehicle dynamics on board  
diagnosis and vehicle control issues in  
intelligent vehicle highway systems leading  
researchers and industrial practitioners were  
able to discuss and evaluate current  
developments and future research directions at  
the first international ifac workshop on  
automotive control this publication contains  
the papers covering a wide range of topics  
presented at the workshop
