this volume includes selected papers from the 28th language testing research colloquium held at the university of melbourne australia in july 2006 the papers selected for this volume share a common theme that of performance not only do they focus on performance assessments of second or foreign language speaking and writing but they also focus on the performance of the participants the candidate or candidates and the raters and the construction of that performance through the tasks and the assessment criteria

Cognitive Assessment 2009

increased emphasis in many school systems on formal testing to mark student achievement and hold teachers accountable has begun to heighten concern among many educational policy makers assessment specialists and classroom teachers over questions of access and fairness particularly for learners from culturally different backgrounds and those with a history of academic struggles this situation echoes that faced by the russian psychologist l s vygotsky nearly ninety years ago in his efforts to understand processes of development and meet the needs of all learners his famous proposal of the zone of proximal development zpd holds that assessments must take account not only of abilities that have fully formed but also those that are still emerging the diagnostic value of the zpd lies in identifying the underlying source of learner difficulties as well as their future potential since vygotsky s time psychologists and educators have devised a range of practices for engaging with learners in zpd activity that have come to be known as dynamic assessment da in da assessors go beyond observations of independent performance and engage cooperatively with learners to both understand and support their development this process is in full evidence in the papers in this collection which offers a cross section of applications of da with diverse populations including special needs learners immigrant and minority students and second language learners while these papers may be read as cutting edge academic research they also represent a commitment to going beyond manifest difficulties and failures to help individuals construct a more positive future this book was originally published as a special issue of assessment in education principles policy practice

Calculator Skills and Assessment 2014-03-05

the dyscalculia assessment is a tool for investigating pupils numeracy abilities it is designed to inform a personalised teaching programme for individuals or small groups of pupils who have difficulties with numbers the assessment was devised at emerson house a specialist centre in london supporting pupils with difficulties in numeracy and literacy the bestselling first edition of the book written by jane emerson and patricia babbie was the winner of the era best special educational needs resource 2011 this fully revised and updated second edition features a brand new design making the step by step assessment even easier to navigate and use wither by sencos or those with no specific special needs training the suggested script for each stage of the investigation that runs alongside the photocopiable assessment sheets make this book an extremely user friendly accessible teaching and learning resource this book also includes an introduction to dyscalculia and co occurring conditions guidance on how to conduct the assessment including tips on behaviours to look out for information on the equipment you need and how to use it instructions on how to interpret the results of each stage of the assessment and how to produce a personalised teaching plan games and activities to engage the pupils and reinforce numeracy skills the dyscalculia assessment is ideal for use with primary school children but can easily be adapted for older students and is invaluable for sencos tas educational psychologists and mainstream teachers keen to support students with numeracy difficulties in their class

Competence Assessment Tools for Health-System Pharmacies 2014-12-08

self assessment is increasingly used in higher education as a strategy for both student learning and assessment this book examines the full range of concerns about self assessment placing it in the wider context of innovative teaching and learning practices

Tasks and Criteria in Performance Assessment 2013-10-18

Addressing Issues of Access and Fairness in Education through Dynamic Assessment
