in this book we get to read parts and fragments from the author's life everything from the past to the present which many thoughts and feelings jump in between sometimes a bit confusing but with time becomes clear with reflections many years can be seen as missing unexplained and unsolved but believe that these years will appear later on in other books maybe we read how the love for the children and for life defies many obstacles this causes her to seek new paths and how she also finds them this emotional depiction tears us between laughter and tears as well as soothing words that give us a beautiful faith in the future she stands honestly naked and with a sincerity rarely seen in our everyday life about her own impact and how the responsibility of her own choices brings her closer to a collapse sometimes it's an incredibly heavy story to read and it makes you wonder how and why some of the questions we get answers to and some others not inspiring how a person can free oneself from a self-destructive behavior created with the participation of the view of men how she looks down on herself to the grossest level that she loses herself completely the author tells heartily and vividly gives us mental pictures from her life and the patterns she previously lived in

perceptive controversial topical and achingly funny miriam toews's books have earned her a place at the forefront of canadian literature in this first monograph on toews's work sabrina reed examines the interplay of trauma and resilience in the author's fiction reed skillfully demonstrates how toews situates resilience across key themes including the home as both a source of trauma and an inspiration for resilient action the road trip as a search for resolution and redemption and the reframing of the mennonite diaspora as an escape from patriarchal oppression the deaths by suicide of toews's father and sister stand out as the most shocking and tragic of the author's biographical details and reed explores toews's use of autofiction as a reparative gesture in the face of this trauma written in an accessible style that will appeal to both scholars and devotees of toews's work lives lived lives imagined is a timely examination of toews's oeuvre and a celebration of fiction's ability to simultaneously embody compassion and anger joy and sadness and to brave the personal and communal oppressions of politics religion family society and mental illness

The fighting female archetype a self-reliant woman of great physical prowess has become increasingly common in action films and on television however the progressive female identities of these narratives cannot always resist the persistent and problematic framing of male-female relationships as a battle of the sexes or other source of antagonism combining cultural analysis with close readings of key popular American film and television texts since the 1980s this study argues that certain fighting female themes question regressive conventions in male-female relationships those themes reveal potentially progressive ideologies regarding female agency in mass culture that reassure audiences of the desirability of empowered women while also imagining egalitarian intimacies that further empower women overall the fighting female narratives addressed here afford contradictory viewing pleasures that reveal both new expectations for and remaining anxieties about the strong independent woman ideal that emerged in American popular culture post-feminism

since pakistan was founded in 1947 its army has dominated the state the military establishment has locked the country in an enduring rivalry with india with the primary aim of wresting kashmir from it to that end pakistan initiated three wars over kashmir in 1947 1965 and 1999 and failed to win any of them today the army continues to prosecute this dangerous policy by employing non state actors under the security of its ever expanding nuclear umbrella it has sustained a proxy war in kashmir since 1989 using islamist militants as well as supporting non islamist insurgencies throughout india and a country wide islamist terror campaign that have brought the two countries to the brink of war on several occasions in addition to these territorial revisionist goals

the pakistani army has committed itself to resisting india s slow but inevitable rise on the global stage despite pakistan s efforts to coerce india it has achieved only modest successes at best even though india vivisected pakistan in 1971 pakistan continues to see itself as india s equal and demands the world do the same the dangerous methods that the army uses to enforce this self perception have brought international opprobrium upon pakistan and its army and in recent years their erstwhile proxies have turned their guns on the pakistani state itself why does the army persist in pursuing these revisionist policies that have come to imperil the very viability of the state itself from which the army feeds in fighting to the end c christine fair argues that the answer lies at least partially in the strategic culture of the army through an unprecedented analysis of decades worth of the army s own defense publications she concludes that from the army s distorted view of history it is victorious as long as it can resist india s purported drive for regional hegemony as well as the territorial status quo simply put acquiescence means defeat fighting to the end convincingly shows that because the army is unlikely to abandon these preferences pakistan will remain a destabilizing force in world politics for the foreseeable future
