 illustrations the human race is in crisis and very few of us if any are able to
 understand what is wrong with our lives and the world at large how did this happen and
 how did humans become so disconnected with humanity why are psychological disorders
 such as depression anxiety fear and suicide on the increase and why are conventional
 western therapies unable to stem the tide to approach this we must first look inside
 ourselves to explore our own purpose in life and extend that principle to the rest of
 humanity despite the advances of modern western psychology and the development of the theory

the human race is in crisis and very few of us if any are able to understand what is wrong with our lives and the world at large how did this happen and how did humans become so disconnected with humanity why are psychological disorders such as depression anxiety fear and suicide on the increase and why are conventional western therapies unable to stem the tide to approach this we must first look inside ourselves to explore our own purpose in life and extend that principle to the rest of humanity despite the advances of modern western psychology and the development of therapies that do help many one area that is largely unexplored is that of the human spirit and spirituality since it is more convenient to consider the human mind as machine that responds to external stimuli
