a supplemental text for use in introductory survey courses in history like a reliable travel guide this book assists students as they travel through their history courses easy to use and informative a guide to your history coursewalks students through how to study textbooks how to write papers how to avoid plagiarism and even how history as a discipline works

# **Making up Numbers: A History of Invention in Mathematics**

2020-10-23

making up numbers a history of invention in mathematics offers a detailed but accessible account of a wide range of mathematical ideas starting with elementary concepts it leads the reader towards aspects of current mathematical research the book explains how conceptual hurdles in the development of numbers and number systems were overcome in the course of history from babylon to classical greece from the middle ages to the renaissance and so to the nineteenth and twentieth centuries the

narrative moves from the pythagorean insistence on positive multiples to the gradual acceptance of negative numbers irrationals and complex numbers as essential tools in quantitative analysis within this chronological framework chapters are organised thematically covering a variety of topics and contexts writing and solving equations geometric construction coordinates and complex numbers perceptions of infinity and its permissible uses in mathematics number systems and evolving views of the role of axioms through this approach the author demonstrates that changes in our understanding of numbers have often relied on the breaking of long held conventions to make way for new inventions at once providing greater clarity and widening mathematical horizons viewed from this historical perspective mathematical abstraction emerges as neither mysterious nor immutable but as a contingent developing human activity making up numbers will be of great interest to undergraduate and a level students of mathematics as well as secondary school teachers of the subject in virtue of its detailed treatment of mathematical ideas it will be of value to anyone seeking to learn more about the development of the subject

## **East Asia at the Center**

2017-09-29

conventional wisdom holds that the us army in vietnam thrust into an unconventional war where occupying terrain was a meaningless measure of success depended on body counts as its sole measure of military progress in no sure victory army officer and historian gregory daddis looks far deeper into the army's techniques for measuring military success and presents a much more complicated and disturbing account of the american misadventure in indochina daddis shows how the us army which confronted an unfamiliar enemy and an even more unfamiliar form of warfare adopted a massive and eventually unmanageable system of measurements and formulas to track the progress of military operations that

ranged from pacification efforts to search and destroy missions the army's monthly measurement of progress reports covered innumerable aspects of the fighting in vietnam force ratios vietcong north vietnamese army incidents tactical air sorties weapons losses security of base areas and roads population control area control and hamlet defenses concentrating more on data collection and less on data analysis these indiscriminate attempts to gauge success may actually have hindered the army's ability to evaluate the true outcome of the fight at hand a roadblock that daddis believes significantly contributed to the many failures that american forces suffered in vietnam filled with incisive analysis and rich historical detail no sure victory is not only a valuable case study in unconventional warfare but a cautionary tale that offers important perspectives on how to measure performance in current and future armed conflict given america's ongoing counterinsurgency efforts in iraq and afghanistan no sure victory provides valuable historical perspective on how to measure and mismeasure military success

and knox thoroughly covers principles and concepts in information ethics as well as the history of ethics in the information professions examines human rights information access privacy discourse intellectual property censorship data and cybersecurity ethics intercultural information ethics and global digital citizenship and responsibility synthesizes the philosophical underpinnings of these key subjects with abundant primary source material to provide historical context along with timely and relevant case studies features contributions from john m budd paul t jaeger rachel fischer margaret zimmerman kathrine a henderson peter darch michael zimmer and masooda bashir among others and offers a special concluding chapter by amelia gibson that explores emerging issues in information ethics including discussions ranging from the ethics of social media and social movements to ai decision making this important survey will be a key text for lis students and an essential reference work for practitioners

## ***The Nation, Europe, and the World***

2000-02-08

this book provides a detailed analysis of

mutual fund regulations and governance in the uk from the investor protection perspective it comprehensively describes mutual funds by their function social utility and legal attributes examining the level of protection provided to retail investors under existing regulations mutual funds are externally managed with fund ownership separated out from their management which carries a potential conflict of interest between the self interests of the fund management and each fund's investors the book provides an in depth analysis of this agency problem in the mutual fund industry comparing the competing governance models in the uk and the us and the supervision of management activities in the uk it investigates the main governance mechanisms including disclosure the effectiveness of voting rights and the role of the financial conduct authority in protecting investors it also considers the role of prudential regulations in protecting mutual fund investors with a particular focus on risk management and mutual fund liquidity crisis the book further investigates the impact of the withdrawal of the uk from the european union brexit on the industry and what this means for the future of the undertakings for collective investment in transferable securities ucits in the uk the concept of mutual funds is still not clearly understood

so this book will clearly define the different legal and practical aspects of mutual funds it will be the first substantial study of mutual fund governance mechanisms under the existing mutual fund laws and regulations in the uk

## ***The Spanish Missionary Heritage of the United States***

2014-07-11

this book will identify the top dermatological conditions for patients with skin of color and provide essential features which contrast these conditions in darker skin types the reader will be able to formulate informed treatment regimens for patients with skin of color the book will also provide clinical pearls to guide decision making as well as important cultural beliefs that must be considered in order to provide optimal care to patients with skin of color clinical cases are a key component in modern medical education assisting the trainee or recertifying clinician to work through unusual cases using best practice techniques dermatology is an important discipline in this regard since it is a highly visual subject requiring the reader to describe often very subtle differences in the presentation of patients and define accurately the diagnostic and

management criteria to base their clinical decision making on by the year 2050 people with skin of color including africans african americans asians native americans and hispanics will represent more than half of the u s population there is now an increasing demand for dermatologic treatments in patients with skin of color as well as an accompanying need for education and training in this quickly expanding market skin of color is a key topic within dermatology as specific conditions can be harder to diagnose effectively in darker skin and their treatment can be compromised by this conditions such as psoriasis eczema and atopic dermatitis may be more difficult to diagnose in darker skin there are various other conditions that can provide a challenge in management including postinflammatory hyperpigmentation melasma scarring alopecias and pseudofolliculitis barbae if these skin disorders are not diagnosed and treated properly the initial lesions can become darker as they heal and the darker spots can last for years in some cases

## **Themes and Issues in Judaism**

2020

in recent years the peasant household has become a central focal point of social history

this is true not only because the peasant represents the major element of european society through the nineteenth century but also because many of the main issues in modern historical debate can be studied within the sphere of the peasant family this book deals with the european peasant family during the period of transformation from agrarian to industrial society the time called by some the period of protoindustrialization the essays in this volume explore some of the major issues concerning the influence of the economy society and institutions on the peasant household and conversely the influence of the peasant household on the outside world themes dealt with include the ways in which the physical environment and the economy may make for very different family structures and even affect intra family relationships the effects of inheritance marriage and kinship strategies as well as social pressure on peasant family structure and demography the debate about changing gender roles and status the debate over the manner and effects of class formation questions of social and political agency the nature of gender and parent child relations the validity of protoindustrial theory and the role of peasants in initiating industrialization as consumers producers and as a labor force in examining these themes the essays provide both case studies and

innovative analysis by preeminent  
international scholars in the fields of family  
and women s history economic history and  
demography
