a dissertation guide for professional learners doctoral education has changed dramatically over the last three decades traditionally pursuit of a doctoral or research credential involved intense study at a large traditional research university and was reserved for those seeking careers in academia or research the process of completing doctoral level work at traditional universities usually required a commitment to full time study varied tremendously between institutions and was often somewhat mysterious today all this has changed the emergence and growth of online education has led to a proliferation of doctoral learning possibilities for busy professionals individuals in the industry nonprofit and education are sectors are pursuing doctoral study as a means to advance their careers increase their market value in the workplace and establish their professional stature if this sounds like you then you have come to the right place recipes for success is the book that will launch you on a successful quest for the doctoral degree dissertations are very personal endeavors and accomplishments originating with problems and issues that are meaningful and important to the doctoral learner these professionals are deeply grounded in their understanding of the issues and needs of their profession recipes build on this this understanding helping learners to discover and frame issues they are passionate about and construct a credible and influential research study around this passion while most dissertation guides focus largely or exclusively on the mechanics of writing and organization recipes approaches dissertation development as an iterative process of thinking and self reflection that leads learners to discover what matters most to them and to their professions and enables them to frame this meaning into a research problem and purpose and to organize and execute a study design to fit and thus solve the problem and achieve the purpose from the very beginning of your doctoral journey to the ultimate achievement of degree completion this book is your guide to the process and content of dissertation and research creation in recipes for success we articulate a process by which you can build the pieces of a successful and influential dissertation using a workbook approach rich in tools templates frameworks examples web integration and hard won lessons from experience recipes provides a friendly easy to navigate process crafting issues and ideas into research and results based on our 40 years of collective experience in the online educational setting mentoring over 300 professional learners to success in completing their doctorates including numerous award winners we identify the most important factors for success and the traps to avoid whether you are considering doctoral study are already in a doctoral program or are working to develop and complete your dissertation you will find recipes for success a key ingredient in your success as a doctoral learner our graduates tell us that recipes is the book that made a difference in their doctoral career and success you can do it too good luck on your doctoral journey

## **How to Prepare a Scientific Doctoral Dissertation Based on Research Articles**

2017-09-20

what do i need to do to write a literature context or systematic review how do i explain my research methods and write up my findings help how do i prepare for a viva this essential handbook carefully guides the student through the entire dissertation process from start to finish offering clear straightforward and practical advice biggam uses clear illustrations of what students should do or not do to reach their full potential helping them to succeed with their dissertation and avoid common pitfalls along the way thoroughly updated this popular book takes the student from research proposal through literature reviews research methods and writing up referencing and avoiding plagiarism through to submission and marking featuring new chapter on introducing the master's dissertation focusing on the skills you need to succeed new material on contextual review for computer science art and performance art students updated material on the benefits of using university library databases and social media in research expanded advice on the emotional journey and where to find assistance and support new research

methods chapter for art drama and computer science students this is key reading for any social science business humanities or healthcare student required to complete a dissertation as part of their studies it will also prove useful for undergraduate students considering postgraduate studies and for supervisors facilitating dissertation supervision this book is a really excellent and friendly guide through the master s dissertation process it is clearly and engagingly written and easily understandable to a student it also guides students gently from a general understanding in the first chapter down to a significant level of detail in each subsequent chapter with worked examples and relevant practical tips it also usefully highlights common mistakes the book presents a realistic view of undertaking a master s degree presenting the generic skills needed for success and acknowledging that life outside the dissertation is complex messy and can sometimes get in the way it is particularly useful and relevant to my students as unlike many other books on this topic it does not ignore practice based forms of research in fact the book includes a substantial chapter on practice as research in the creative disciplines this chapter includes software alongside creative arts and is therefore particularly suitable for inter or multi disciplinary postgraduates using technology to enhance their existing understanding of a subject or their practice through research i also really like the fact that the chapter on abstracts is at the end where it belongs and that students are explicitly told to write it last no matter how many times i tell my students this it is a common and recurring mistake daisy abbott school of simulation and visualisation the glasgow school of art uk the dissertation component of a master s programme can be very daunting for students in this book john biggam demystifies both the concept and process of a dissertation biggam clearly explains the different parts of a dissertation and offers a pragmatic structure which can be used by students to help frame their ideas also the guidance given in the book is written in a reassuring tone which is never patronising the summary on good practise in dissertation writing should be particularly useful during the planning stage and as a final check for students dr donna murray sfhea head of taught student development institute for academic development the university of edinburgh uk
