pocket sized and portable instant work ups a clinical guide to medicine offers all of the critical information physicians need to know in order to evaluate and diagnose a patient the content is uniquely presented as a patient would present his or her case with symptoms and abnormalities as opposed to a diagnosis practical and easy to use it provides clear work up plans for the most commonly encountered medical conditions providing quick focused guidance with the flexibility to adapt to each unique patient covers approximately 80 of the most commonly encountered medical conditions chapters are alphabetically organized by topic for easy reference topics are presented as a sign symptom or abnormal lab reading as a patient would present his or her case every topic includes a brief background discussion a list of important related materials and a detailed list of the next lab or radiographic tests describes each diagnostic test and includes algorithms for each topic to help guide diagnosis program development and grant writing in occupational therapy making the connection is a practical guide to program development and grant writing this text describes the process of developing a good idea into a sustainable and meaningful program related to occupational therapy principles and client needs readers will learn how to conduct a needs and asset assessment develop strategies for writing a grant proposal that maximizes funding learn where to find data and tips on how to garner support from stakeholders this essential text contains process worksheets at the end of each chapter to help readers process and apply the chapter concepts these worksheets can be used by instructors as learning activities in courses related to community practice program development and grant writing program development and grant writing in occupational therapy making the connection features learning objectives key terms process worksheets case studies review questions grant samples and more trauma informed placemaking offers an introduction to understanding trauma and healing in place it offers insights that researchers and practitioners can apply to their place based practice learning from a global cohort of place leaders and communities the book introduces the ethos and application of the trauma informed approach to working in place with references to historical and contemporary trauma including trauma caused by placemakers it introduces the potential of place and of place practitioners to heal offering 20 original frameworks toolkits and learning exercises across 33 first and third person chapters multi disciplinary insights are presented throughout these are organised into four sections that lead the reader to an awareness of how trauma and healing operate in place the book offers a first gathering of the current praxis in the field how we can move from trauma in place to healing in place and concludes with calls to action for the trauma informed placemaking approach to be adopted this book will be essential reading for students researchers and practitioners interested in people and places from artists and architects policy makers and planners community development workers and organisations placemakers to local and national governments it will appeal to the disciplines of human geography sociology politics cultural studies psychology and to placemakers planners and policymakers and those working in community development new extensively updated content reflects the most current quantitative and qualitative approaches to nursing research as well as the most current research tools and techniques used in the digital era new updated research examples throughout incorporate the best examples of current literature with increased emphasis on international examples to reflect the increasingly global nature of nursing research new increased use of visuals includes the addition of more illustrations tables and boxes to help break up long passages of text for today s more visually oriented learners of all levels new revised chapters offer improved clarity and usability in the areas of research problems and purpose quantitative research design quantitative methodology and qualitative methodology new increased emphasis on hospital magnet status reflects the effect this status has on improving nursing competency and quality outcomes updated coverage of certain qualitative research content has been de emphasized to reflect the decreased use of certain methodologies e g historical research and to allow the introduction of additional methodologies that are growing in use developing persuasive clear authoritative writing for academic and professional work can be a real challenge for many this book guides the reader through the writing process for a dissertation thesis or essay practical strategies and tips for each stage of the process are offered throughout from critical reading through to preparing the final piece of work for submission the author pays particular attention to an understanding of the english language and how it is best used in academic work key features of the book are real examples from postgraduate work which show the strengths and weaknesses of different approaches glossaries of terms case studies of published research which demonstrate good practice in writing checklists of tasks to complete whilst working on a writing project it will be essential reading for all those writing dissertations essays and theses at post registration and postgraduate level in health and nursing lists publications cataloged by teachers college columbia university supplemented by the research libraries of the new york publica library a world list of books in the english language the world guide to special libraries lists about 35 000 libraries world wide categorized by more than 800 key words including libraries of departments institutes hospitals schools companies administrative bodies foundations associations and religious communities it provides complete details of the libraries and their holdings and alphabetical indexes of subjects and institutions the physiological effects of ageing is a comprehensive resource for all nurses working with older people enabling them to apply their knowledge of the ageing process to their practice and in doing so enhance care delivery this book emphasizes the normal ageing changes before considering possible effects of ageing on body systems using as its framework roper logan and tierney s activities of living although problems associated with ageing are identified nursing assessment and interventions are considered which can help reduce the impact these changes have on a person s functional ability special features explores current theories of ageing makes use of reflective points and points of

practice looks at key topics of maintaining a safe environment and communication discusses error theory free radical theory and the immune theory a highly accessible text which encourages holistic patient centred care teap4 aw! introverts may feel powerless in a world where extroverts seem to rule but there s more than one way to have some sway jennifer kahnweiler proves introverts can be highly effective influencers when instead of trying to act like extroverts they use their natural strengths to make a difference kahnweiler identifies six unique strengths of introverts and includes a quiet influence quotient qiq quiz to measure how well you re using these six strengths now then through questions tools exercises and powerful real world examples you will increase your mastery of these strengths in nine cohesive chapters success in school covers the essential skills and strategies that are prerequisites to student success how to promote a positive attitude how to organize a work space how to manage time how to heighten reading comprehension how to take notes how to study for exams how to approach and complete writing assignments and how to refine language skills the content unfolds in a consistent format of numbered steps and bullet points enhanced by real student samples examples and illustrations printed in large format full color and with spiral binding this book is not only informative but also eye catching and easy to use the writing is aimed primarily toward parents and other adults who are helping children of various ages and abilities with their schoolwork but older students can also use this book independently success in school is a teaching tool how to guide and reference manual that will support students throughout their school careers check us out on facebook facebook com successinschool instagram instagram com succeedinschool twitter twitter com schoolsuccess20 from the worldocos leading authorities in nursing research this thoroughly updated 2nd edition of the encyclopedia of nursing research presents key terms and concepts in nursing research comprehensively explained by over 200 expert contributors important notice the digital edition of this book is missing some of the images or content found in the physical edition grant writing tips for nurses is a reader friendly primer that acknowledges that grant writing is an essential skill for today s nurse the text follows a logical path moving from the reasons for seeking grant funding the types of grants available and the structure and content for a typical grant proposal to the transit of grant proposals through internal institutional processes deadlines and signatures and progress through review by the funding agency final chapters take a glance foward to future funding ethical dilemmas related to grants and life after grants an essential resource for your course shows how autocrats structure interaction between citizens and leaders to manage information dilemmas and build regime legitimacy uses interviews original surveys and text analysis to highlight the tools used by russian president vladimir putin to reinforce his now twenty year rule and how these tools may backfire against the regime
