geography encompasses everything from the local where human beings live work and travel to metageographies like nations and regions james a tyner s inventive and multidisciplinary ideas on geography similarly range from the personal his father s experience in the military during the vietnam war to a broad discussion of how the united states has come to exercise power through the production of

geographic knowledge in this case in southeast asia since the end of the second world war southeast asia has served as a surrogate space to further american imperial interests which are economic political territorial and moral in scope america s strategy in southeast asia contends that the construction of southeast asia as a geographic entity has been a crucial component in the creation of the american empire for example america s most blatant experience of colonial rule occurred the philippines america s longest war was fought in vietnam and most recently some american policymakers have identified southeast asia as the second front in the war on terror yet america s overriding strategy in southeast asia and the region itself remains something of a mystery for the american populace a black box in america s geographical imagination this clear and innovative book educates readers about southeast asia s importance in american foreign policy

american society may be hostile to the thought of ideologies but it possesses a sophisticated but little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate

derivatives of american history and development the study asks how this occurs how the sources traditions and usages of core ideas and their derivative compounds animate political discourse and structure the basis of political conflict and how it is possible to sustain a high incidence of competitive value laden argument and principled political conflict within a stable political order the fundamental aim of this study is to examine the traditions and usages of american political ideas within the arena of practical politics by locating them in their respective contexts it will be possible to assess both their changing meanings and their shifting relationships to one another in surveying america s core ideas both in isolation and in combination the book facilitates an informed awareness of their political and cultural leverage as forms of persuasion and sources of legitimacy american credo roots the examination of american political ideas firmly in the milieu of social drives political movements and contemporary issues within which the ideas themselves are embedded this not only allows the study to investigate the interior properties and traditional priorities of america s key values but permits the theoretical implications and practical consequences of these ideas to be traced and evaluated by marshalling a wide variety of evidence from different disciplines and perspectives and by employing innovative principles of organisation the study offers clarity and depth in support of an inventive explanatory scheme it concludes with a review of the current and likely future challenges to the protocols and conventions surrounding the matrix of ideational coexistence

stewardship is one of the essential means the church utilizes to roll up its sleeves and engage in the ministry it is challenged to do. William Powell Tuck, Jesus said in his sermon on the mountain, blessed are Matthew 5:1-12. James said, faith without works is dead. James 2:14-26. Dr. Bill Tuck shares his heart and his teachings on stewardship that will bring the reader into a greater appreciation of how God wants to use our time, talent, and finances to build His church, as well as draw us into a deeper relationship with Him. You will find each chapter begins with a scriptural notation that will lend itself to further study and meditation on God's word. May we be found to not only be readers of God's word but also doers of His word.

## The Forgotten Beatitude

2023-10-20

This book argues that the nature of counterproliferation strengthens the effect of cultural factors in policy choices and illustrates this by focusing on US and Israeli policy toward the Iranian nuclear program. The United States and Israel have been the two states most active in opposing Iran's nuclear ambitions. However, the respective strategies of each of these states have changed repeatedly. This book explores how competing cultural schools of thought on grand strategy within each state inform and shape the key policy decisions in their attempts to prevent a nuclear Iran. Drawing on numerous interviews conducted with former high-level officials in each country, as well as published memoirs, this book first describes in detail the belief systems of the competing schools and then analyzes the internal debates and key decisions on policy toward the Iranian nuclear program while critically assessing the extent to which these beliefs influenced policy in the face of material structural pressures. This in-depth analysis of the internal debates and

dilemmas within the national leadership of the two states most prominent in the effort to prevent a nuclear iran constitutes an indispensable guide for scholars and policymakers who will inevitably face similar dilemmas in dealing with this ongoing challenge and additional cases of nuclear proliferation around the world this book will be of much interest to students of nuclear proliferation us and israeli foreign policy middle eastern politics and ir in general

the old adage never discuss religion and politics is roundly rejected in this incisive exploration of presidential history and religious faith this newly updated 2016 edition of the presidents their faith is a fascinating and informative look at how all u s presidents exercised their personal faith exerted presidential power and led a religiously diverse nation has there ever been a stranger prayer than truman s offered upon america s successful development of the atom bomb we pray that he may guide us to use it in his ways and for his purposes at the nation s founding northeast presbyterians demanded explicit mention of jesus in the constitution george washington refuted them saying that religious piety was a matter best left between an individual and his god religious instruction was the responsibility of religious societies not the civil state what drove washington to make that argument and what if he had lost who wouldn t feel like the exasperated fdr when he said i can do almost everything in the goldfish bowl of the president s life but i ll be hanged if i can say my prayers in it it bothers me to feel like something in the zoo being looked at by all the tourists in washington when i go to church no privacy in that kind of going to church and by the time i have gotten into that pew and settled down with everybody looking at me i don t feel like saying my prayers at all but even more importantly what s real what s a show and why does it matter

when it comes to faith and politics these questions and more are unpacked and examined leading to a whole new understanding of how religion and politics interfaced through america s history and how they will play out in our future in this climate of religious and political tensions the presidents their faith casts a civil entertaining and insightful spotlight on the unique mix and frequent mix ups of politics and religion in america

the modern pilgrimage to sites ranging from graceland to the veterans annual ride to the vietnam veterans memorial to jim morrison s paris grave is intertwined with man s existential uncertainties in the face of a rapidly changing world in a climate that reproduces the religious quest in seemingly secular places it s no longer clear exactly what the term pilgrimage infers and shrines and pilgrimage in the modern world critiques our notions of the secular and the sacred while commenting on the modern media s multiplication of images that renders the

modern pilgrimage a quest without an object using new ethnographical and theoretical approaches this volume offers a surprising new vision on the non secularity of the secular pilgrimage this book will be sure to stoke our intellectual fire and heat up the discussion over the highly charged topic of secular pilgrimage

the fall of capitalism and the rise of islam provides a critical analysis of the current financial crisis in the us and the world at large it concludes that the current crisis could very well be a sign of failure of the underlying system of capitalism the book shows that the system of capitalism contains serious faults and defects at the core theory level economic and financial crisis periodically occur whenever these defects are triggered by various conditions and political decisions during the life of

capitalism the collapse of financial institutions the crash of the housing market the evaporation of trillions of dollars the creation of virtual unreal wealth and the decline of productivity are symptoms of the potential failure of the ideology of capitalism this failure has serious impact on the life quality of billions of people around the world who suffer from poverty hunger health insecurity lack of education and serious inhuman conditions the world order under capitalism witnessed multiple world wars political and economic instability colonialism absence of peace deprivation of justice and polarization of wealth and power this book predicts a potential crash and collapse of the world order under the pressure of a failing capitalism concurrent to the decline and potential collapse of capitalism the book makes an account of another global phenomenon namely the second rise of islam the rise of islam similar to the first one that lasted for thirteen hundred years is a comprehensive rise that brings up the economic system together with the political system and the moral system together with the legal system it is much needed and sought to introduce to the world a system full of justice fairness and geared toward productivity and human righteousness the new rise of islam is argued to be in the best interest of the human societies around the world and that the propagated fear of this rise is unfounded the book provides a detailed description of the economic system and the political economy of islam it provides compelling evidence that the islamic political economy characterized by sustained productivity and wealth distribution guarantees the satisfaction of the basic needs of a human the islamic political economy integrates several mechanisms for natural distribution of wealth while it maintains a high level of productivity through the inhibition of usury hoarding and exploitation the fall of capitalism and the rise of islam makes extensive references to a score of historians scholars and scientists who provide a fair testimony of the islamic

civilization and the ideology of islam

american politics is at a breaking point this became obvious when a mob of american citizens upset with the results of the 2020 presidential election stormed the capitol building in washington d c to stop congress from tabulating the election results in order to work democracies require citizens who respect the rights of individuals defer to the outcomes of elections and abide by the rule of law but today s toxic political culture has caused many americans to abandon these vital norms ideological tribalism and partisan hatred have become so rampant that frightening numbers of american citizens countenance violence against their political opponents to get their way

## **Resurrection and Responsibility**

2012-07-12

tom waldman s lively and sweeping assessment of the state of american liberalism begins with the political turbulence of 1968 and culminates with the 2006 takeover of congress by the democratic party not much left the fate of liberalism in america vividly demonstrates how the progressive and liberal wing of the democratic party helped end a war won the civil rights battle and paved the way for blacks women gays and other minorities to achieve full citizenship through reportage anecdotes and analysis particularly of the disastrous defeat of democrat george mcgovern in 1972 waldman chronicles how the grand coalition that achieved so much in the 1960s began to self destruct in the early 1970s citing the republican recovery from barry goldwater s 1964 defeat waldman demonstrates how the two parties very different reactions to electoral debacle account for recent republican dominance and democratic impotence assessing liberalism s fate through the carter and reagan presidencies the defeat of michael dukakis in the

1988 presidential election and the on again off again liberalism of the clinton years  
waldman then brings the discussion up to date with analysis of the 2008  
presidential campaign

most observers explain evangelical christians bedrock support for israel as  
stemming from the apocalyptic belief that the jews must return to the holy land as  
a precondition for the second coming of christ but the real reasons argues  
stephen spector are far more complicated in evangelicals and israel spector  
delves deeply into the christian Zionist movement mining information from original  
interviews web sites publications news reports survey research worship services  
and interfaith conferences to provide a surprising look at the sources of  
evangelical support for israel israel is god s prophetic clock for many evangelicals  
irrefutable proof that prophecy is true and coming to pass in our lifetime but  
spector goes beyond end times theology to find a complex set of motivations  
behind israel evangelical relations these include the promise of god s blessing for  
those who bless the jews gratitude to jews for establishing the foundations of  
christianity remorse for the chu

the impotent giant has nothing to do with being a democrat or republican it has everything to do with what it means to be an american alarmed about who and what the united states of america represents author dr h john lyke articulates how

citizens can help to regain the moral and political leadership using psychological principles he provides a discussion of why our country is in the fix it s in and how to return it to its former greatness dr lyke s research on the issues began with a re examination of the lives of outstanding leaders especially george washington and abraham lincoln two men who led the united states toward the attainment of american ideals studying the principles courage and actions of these men offers a model for effective leadership and rekindles one s pride in being an american a pride that for many has shrunk drastically during the past ten years the impotent giant examines where the country stands among other nations and how the citizens of the united states and those of the rest of the world perceive its leaders it encourages citizens to elect the right leaders discuss the right issues and act for the right reasons

## **Everybody Hurts**

2009-03-31

genocide has been called a problem from hell and despite vehement declarations of never again it s a problem that continues to plague the world from the beginning of history to the most recent massacres in bosnia rwanda and darfur genocide defies resolution and given today s worldwide access to highly lethal weapons and advanced communications technology facilitating incitement to hate we can expect to see this problem grow it is often claimed that genocide occurs without warning taking both local and global communities by surprise yet as david hamburg convincingly shows we have had long term advance knowledge of most modern genocides dating back to the early 20th century armenian tragedy in turkey and before in this book dr hamburg applies a groundbreaking new

perspective the medical model of prevention to the scourge of genocide in the world preventing genocide is not only possible dr hamburg contends but essential given its high cost in lives human rights and international security here he maps out numerous practical steps to recognise genocidal conflicts early and stem their tides of violence before they become acute he also outlines several institutions in place and programs underway at the un eu and nato devoted to preventing future genocides before they erupt he draws lessons both from missed opportunities and successful experiences and makes many constructive suggestions about strengthening international institutions governments and ngos for this purpose
