The book characterizes social behaviors by their agency, how dominant they are, and by their communion, how relational and nurturing they are. It argues that these interpersonal dimensions align closely with the traditional structure of leader behaviors, both task-related and relationship-oriented behaviors, and uses those frameworks to orient trait theory for both normal range personality traits and subclinical dark side traits. After overviewing the history of leadership theory, reviewing normal range personality traits (extraversion, neuroticism, conscientiousness, agreeableness, and openness) and subclinical traits such as the dark triad (narcissism, Machiavellianism, and psychopathy), the book moves on to thoroughly bring the perspective of interpersonal psychology to bear on questions of personality and leadership, and ends by narrowing in on how the dark side of personality affects the leadership process, for better and for worse. It discusses the role of

i jumped at the chance to shepherd this collection this was personal for me in the past when i had prepared to teach courses on political leadership i had come up with a dearth of recent scholarly attention to the topic perhaps my perspective on politics and leadership exacerbated the difficulty of my search i had in mind a politics that touched all aspects of power and authority in our lives not just government encouraged the moral imagination and affirmed human agency that could make the future better than the present i searched with limited success for material that would explain how all of us shape and are shaped by politics my perspective on leadership may have also hindered my search i had in mind the simple notion of taking initiative on behalf of shared values i found too little material about leadership that extended beyond the spectacle of authority and its assumption of hierarchy i wanted to explain that each of us regardless of our place in a hierarchy has a calling to lead to act on behalf of our moral imagination editing this volume permitted me the chance to develop the material i sought i as well as other teachers no longer have a shortage of material relating politics and leadership with each other from the introduction
