should i get a dsi or dsi xl reddit

Mar 12 2023

there is no definitive answer it is mostly personal preference even image quality is not clear cut as the dsi has sharper image and most games were designed to be played on similar sized screens while dsi xl offer bigger and dual ips displays same with comfort while playing

dsi is a handheld video game console developed and manufactured by Nintendo as the successor to the Game Boy Advance. It was first announced in 2008 and released in 2009. The console is designed to be more compact and portable than the Game Boy Advance, and features a touch screen and a camera. The console is compatible with Game Boy Advance games, as well as its own proprietary DSiWare titles.
