~~presented at the second international symposium on~~
foundations of information and knowledge systems
foiks 2002 which was held in schloß salzau germany
from february 20th to 23rd 2002 foiks is a biennial
event focusing on theoretical foundations of
information and knowledge systems it aims to bring
together researchers working on the theoretical
foundations of information and knowledge systems
and to attract researchers working in mathematical
elds such as discrete mathematics combinatorics logics
and finite model theory who are interested in applying
their theories to research on database and knowledge
base theory foiks took up the tradition of the
conference series mathematical fundamentals of
database systems mfdbs which enabled east west
collaboration in the field of database theory the first
foiks symposium was held in burg spreewald germany
in 2000 former mfdbs conferences were held in
dresden germany in 1987 visegrád hungary in 1989
and in rostock germany in 1991 proceedings of these
previous events were published by springer verlag as
volumes 305 364 495 and 1762 of the lncs series in
addition the foiks symposium is intended to be a
forum for intensive discussions for this reason the time
slot of long and short contributions is 60 and 30
minutes respectively followed by 30 and 15 minutes
for discussions respectively furthermore participants
are asked in advance to prepare as correspondents to
a contribution of another author there are also special
sessions for the presentation and discussion of open
research problems
