Geological Survey Water-supply Paper 1941-07 exactly when matisse and picasso first met is open to debate their earliest encounter may have taken place during the matisse retrospective at galerie druet right before the 1906 salon des indépendants the latter marked the first time all the fauves exhibited together the centerpiece was matisse s monumental le bonheur de vivre leo stein bought the painting while the salon was still running regarding it as the most important work of our time this opinion undoubtedly annoyed picasso jealousy of the other man s success goaded him to greater innovations in his view the new art would have to match the sense of endless discovery that science and technology were offering the 1900 exposition universelle had already shown the latest marvels in engineering if painting wanted to keep the public s attention instead of merely reproducing what the eye saw it had to generate its own reality on the surface of the canvas a reality more vivid than and bearing only the most cursory resemblance to anything found in nature matisse was also a catalyst in that he was the one who introduced picasso to african sculptures max jacob recalls matisse took a black wooden statuette from a table and showed it to picasso it was the first piece of negro wooden art picasso held onto it all evening the next morning when i arrived at the studio the floor was strewn with sheets of paper and on each sheet was drawn the head of a woman all of them were more or less the same one eye an oversized nose attached to the mouth and a lock of hair on the shoulders cubism was thus born cited in janine warnod washboat days new york grossman publishers warnod 1972 p 128

Calendar of State Papers, Preserved in the State Paper Department of Her Majesty's Public Record Office 1936 existing studies of the vietnam war have been written mostly from an american perspective using western sources and viewing the conflict through western eyes this book based on extensive original research including vietnamese chinese and former soviet sources presents a history of the war from the perspective of the vietnamese communists it charts relations with moscow and beijing showing how the involvement of the two major communist powers changed over time and how the vietnamese despite their huge dependence on the chinese and the soviets were most definitely in charge of their own decision making overall it provides an important corrective to the many one sided studies of the war and presents a very interesting new perspective
