this is volume 2 of 4 volumes see volume 1 for a complete book description thomas de quincey 1785 1859 is considered one of the most important english prose writers of the early 19th century this is the first part of a 21 volume set presenting de quincey s work also including previously unpublished material the interwoven biographies of virginia woolf and vanessa bell and the houses they lived in what can we learn from a commemorative house what biographical narratives emerge as we travel through the spaces of another s home this new study unveils the revelatory potential of the house museum to inform and enrich our understanding of the lived past of its former inhabitants it focuses on the emotionally textured interiors of charleston and monk s house the literary artistic house museums of virginia woolf and vanessa bell seeking out traces of their shared biography fresh perspectives unfold on woolf s and bell s sisterhood and their continuous artistic exchange as we shadow their daily lives through the richly painted rooms and atmospheric gardens of their former sussex homes discover these celebrated artists in a different light animated moving handling the tools of their related arts and brought vividly to life through the tangible fabric of their past living following the normal practice in benedictine monasteries the obedientiaris of westminster abbey kept two quite different kinds of record and for distinct purposes their charters together with the cartularies and registers where these documents were so often copied made it possible for them to defend the abbey s properties and privileges when these were challenged by lay or ecclesiastical opponents their financial records the subject matter of this book assisted good housekeeping within their several departments and enabled them to survive the audit which each faced once a year at the hands of fellow monks only the abbot and prior were tacitly exempted from this testing experience the core of the collection of financial records consists of the so called final accounts prepared each year by obedientiaris other than the abbot and prior for scrutiny at the audit nearly 2 000 of these survive not counting second copies in the course of the year however obedientiaris made use of many other forms of financial record without these subsidiary records it would have been difficult or impossible to compile the final accounts and we can be confident that many were on the table at the audit and owe their survival to this circumstance reprint of the original first published in 1872 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public distinguished historians this is an authoritative account of daily life in westminster abbey one of medieval england s greatest monastic communities it is also a wide ranging exploration of some major themes in the social history of the middle ages and early sixteenth century by one of its most distinguished historians barbara harvey exploits the exceptionally rich archives of the benedictine foundation of westminster to the full offering numerous vivid insights into the lives of the westminster monks their dependants and their benefactors she examines the charitable practices of the monks their food and drink their illnesses and their deaths the number and conditions of employment of their servants and their controversial practice of granting corrodies pensions made up in large measure of benefits in kind all these topics miss harvey considers in the context both of religious institutions in general and of the secular world full of colour and interest living and dying in england is an original and highly readable contribution to medieval history and that of the early sixteenth century by one of the greatest authorities on the subject just five weeks after its publication in january 1836 awful disclosures of the hotel dieu nunnery billed as an escaped nun s shocking exposé of convent life had already sold more than 20 000 copies the book detailed gothic style horror stories

of licentious priests and abusive mothers superior tortured nuns and novices and infanticide by the time the book was revealed to be a fiction and the author maria monk an imposter it had already become one of the nineteenth century s best selling books in antebellum america only one book uncle tom s cabin outsold it the success of monk s book was no fluke but rather a part of a larger phenomenon of anti catholic propaganda riots and nativist politics the secrecy of convents stood as an oblique justification for suspicion of catholics and the campaigns against them which were intimately connected with cultural concerns regarding reform religion immigration and in particular the role of women in the republic at a time when the term female virtue pervaded popular rhetoric the image of the veiled nun represented a threat to the established american ideal of womanhood unable to marry she was instead a captive of a foreign foe a fallen woman a white slave and a foolish virgin in the first half of the nineteenth century ministers vigilantes politicians and writers male and female forged this image of the nun locking arms against convents the result was a far reaching antebellum movement that would shape perceptions of nuns and women more broadly in america throughout history rivers have been a hub for human settlement and have long been a key part of local livelihoods history and culture as well as still playing a present day role in providing services and leisure to people who live around them it is no coincidence that all four of the earliest human civilizations were formed on great rivers the Nile Euphrates Indus and Yellow Rivers all saw great human aggregation along them the most ancient and vital architectural structures linked to the use of rivers are bridges there are a wide range of medieval bridge structures some very simple in their construction to amazing triumphs of design and engineering comparable with the great churches of the period they stand today as proof of the great importance of transport networks in the middle ages and of the size and sophistication of the medieval economy these bridges were built in some of the most difficult places across broad flood plains deep tidal waters and steep upland valleys and they withstood all but the most catastrophic floods yet their beauty from simplistic to ornate remains for us to appreciate medieval bridges of middle England has been organized geographically into tours and covers the governmental regions of East of England East Midlands and West Midlands there are 62 bridges included and beautiful full color photographs of each bridge are included a brief history is incorporated with each bridge additionally information about the construction materials used and unique features are related as well as historically relevant documents and images directions to each bridge and local attractions are also given there are literally hundreds of bridges in England that meet the criteria for inclusion in this roll of honor for senior bridges they vary vastly in size style and materials most are stone and a very few are brick we have lost many of our older bridges to the ravages of time and the modern practice of culvertisation and urban development a few of our older bridges remain though and their beauty and pivotal role in our history is starting to be recognized this book argues that gothic writing of the romantic period is queer using a variety of texts it argues that contemporary queer theory can help us to read the obliqueness and invisibility of same sex desire in a culture of vigilance Fincher shows how the gothic s ambivalent gender politics destabilize heteronormative narratives the book tells the story of Malmesbury Abbey in Wiltshire from the time of Aldhelm in the late seventh century to the dissolution in 1539 using the particularly rich sources that survive for the abbey from throughout the middle ages it is an institution which has in different ways a national significance the community produced two eminent writers Aldhelm and William of Malmesbury the abbey was chosen as the mausoleum of Æthelstan first king of all England it was the setting for the marriage in 1015 of Edmund Ironside in defiance of his father Æthelred the unready after the conquest Malmesbury was patronised by Queen Matilda of Scotland wife of Henry I the future Henry II was present in 1153 when a massacre of monks and townsfolk took place in the abbey church although royal patronage dried up after the twelfth century the abbey remained an important institution for the remainder of the middle ages the community took the side of the king and the dispensers during the violent conflict between Edward II and his baronial opponents largely unexamined sources will be used to shed light on abbots such as William of Colerne who transformed the economic fortunes of the abbey and John of Tintern who was accused by Wiltshire juries of *Nelken Carnations* 1982 *Arien Arias* 1985 and *Vollmond Full Moon* 2006 beginning with her approach as one avenue of dance dramaturgy the author connects the content expressed in these pieces with theoretical conversations works from other artists inspired by Bausch and her own experiences providing an examination that is both academic and personally insightful Arendell reads all of these theatrical and film approaches into Bausch s work to highlight how the time frame involves a cross pollination between Bausch and the other artists that looks both backward and forward in its
