Disability Rights 2004

intellectual property rights conventionally seen as quite distinct are increasingly overlapping with one another there are several reasons for this the expansion of iprs beyond their traditional borders the creation of new iprs especially at eu level the exploitation of gaps in the law by shrewd lawyers and the use of unfair competition as an alternative when iprs are either not available at all or expired the convergence of several iprs on the same subject matter poses problems as they are normally envisaged as water tight categories there are very few rules which cater for the sort of regime clash that any overlap of iprs necessarily entails this book's aim is to find appropriate rules to regulate overlaps and thereby avoid regime conflicts and undue unstructured expansion of iprs the book studies the practical consequences of each overlap at the international european and national levels where the laws of france the uk and germany are reviewed it then analyses the reasons for the prohibition or authorisation of overlaps this analysis enables the determination of criteria and principles that can be used to re map the overlaps to achieve appropriateness and legitimacy

since 2002 the roman catholic church has been in crisis over the sexual abuse of minors by priests and the cover up of those crimes by bishops over 11 000 alleged victims have reported their experiences to the church and more than 4 700 priests since 1950 have been credibly accused of sexually victimizing minors the church has paid over one billion dollars to adults who claim to have been sexually abused by priests and there is no end in sight to these lawsuits celibacy homosexuality in the priesthood the infiltration into the priesthood of secular moral relativism too much liberalism in the church since vatican ii damaging rollback of vatican ii reforms by conservative prelates all have been suggested as causes for the crisis this book however begins with the premise that because the pattern of abuse and cover up was so similar across the world there is something fundamentally awry with church traditions and power structures in relationship to sexuality and sexual abuse specifically in chapters on suffering and sadomasochism bodies and gender desire and sexuality celibacy and homosexuality the author concludes that aspects of the catholic theology of sexuality set the stage for the abuse of minors and its cover up frauley o dea also analyzes the american bishops lack of pastoral care and tendency towards clerical narcissism the belief that the needs of the hierarchy represent the needs of the wider

church as central factors in the scandal she balances this criticism with a discussion of the backgrounds of the bishops presiding over the crisis and the challenges they faced in their relationships with the pope and vatican officials drawing on twenty years of clinical experience she imagines the dynamics of sexual abuse both from the victim s point of view and from the priest s and she probes why the church hierarchy fellow priests and lay people were silent for so long finally fraley o dea examines factors internal to the church and outside of it that drew this scandal into the public square and kept it there
