## **Doctors 2011-10-19**

from the author of how we die the extraordinary story of the development of modern medicine told through the lives of the physician scientists who paved the way how does medical science advance popular historians would have us believe that a few heroic individuals possessing superhuman talents lead an unselfish quest to better the human condition but as renowned yale surgeon and medical historian sherwin b nuland shows in this brilliant collection of linked life portraits the theory bears little resemblance to the truth through the centuries the men and women who have shaped the world of medicine have been not only very human but also very much the products of their own times and places presenting compelling studies of great medical innovators and pioneers doctors gives us a fascinating history of modern medicine ranging from the legendary father of medicine hippocrates to andreas vesalius whose renaissance masterwork on anatomy offered invaluable new insight into the human body to helen taussig founder of pediatric cardiology and co inventor of the original blue baby operation here is a volume filled with the spirit of ideas and the thrill of discovery

## **The Art of Aging 2007-02-27**

in his landmark book how we die sherwin b nuland profoundly altered our perception of the end of life now in the art of aging dr nuland steps back to explore the impact of aging on our minds and bodies strivings and relationships melding a scientist s passion for truth with a humanist s understanding of the heart and soul nuland has created a wise frank and inspiring book about the ultimate stage of life s journey the onset of aging can be so gradual that we are often surprised to find that one day it is fully upon us the changes to the senses appearance reflexes physical endurance and sexual appetites are undeniable and rarely welcome and yet as nuland shows getting older has its surprising blessings age concentrates not only the mind but the body s energies leading many to new sources of creativity perception and spiritual intensity growing old nuland teaches us is not a disease but an art and for those who practice it well it can bring extraordinary rewards i m taking the journey even while i describe it writes nuland now in his mid seventies and a veteran of nearly four decades of medical practice drawing on his own life and work as well as the lives of friends

both famous and not noland portrays the astonishing variability of the aging experience faith and inner strength the deepening of personal relationships the realization that career does not define identity the acceptance that some goals will remain unaccomplished these are among the secrets of those who age well will scientists one day fulfill the dream of eternal youth noland examines the latest research into extending life and the scientists who are pursuing it but ultimately what compels him most is what happens to the mind and spirit as life reaches its culminating decades reflecting the wisdom of a long lifetime the art of aging is a work of luminous insight unflinching candor and profound compassion

## **The Mysteries Within *2001-03-06***

studies how current knowledge of human s inner organs has emerged from a rich history of imaginative speculation about how the body works and what role the major organs play

## **How We Live *1998-05-26***

having won the national book award for how we die his best selling inquiry into the causes and modes of death sherwin noland now turns his attention to the miraculous resiliency of human life for this lucid wonderful and wonder filled new book explores the body s mysterious capacity to marshal disparate organs and processes in the interests of survival like its predecessor how we live is filled with gripping medical case histories a woman is pulled back from the brink of death from inexplicable internal bleeding another patient triumphs over breast cancer the routine removal of a polyp triggers a nearly lethal medical crisis for noland each of these cases serves to

illustrate the extraordinary responsiveness and adaptability of the human organism we learn how the aorta's baroreceptors monitor blood pressure and respond to its minutest fluctuations we follow the intricate chain of electrochemical command that makes us leap out of the path of a speeding car we discover why the stomach which is capable of breaking down everything from porridge to pizza refrains from digesting itself informed by sympathy for human suffering and an erudition that includes poetry and the talmud as well as the medical canon how we live is science writing of the rarest kind lucid poetic and genuinely uplifting

## **Maimonides 2008-08-26**

part of the jewish encounter series moises maimonides was a renaissance man before there was a renaissance a great physician who served a sultan a dazzling torah scholar a community leader a daring philosopher whose greatest work the guide for the perplexed attempted to reconcile scientific knowledge with faith in god he was a jew living in a muslim world a rationalist living in a time of superstition eight hundred years after his death his notions about god faith the afterlife and the messiah still stir debate his life as a physician still inspires and the enigmas of his character still fascinate sherwin b nulan best selling author of how we die focuses his surgeon's eye and writer's pen on this greatest of rabbis most intriguing of jewish philosophers and most honored of jewish doctors he gives us a portrait of maimonides that makes his life his times and his thought accessible to the general reader as they have never been before

## **Lost in America 2007-12-18**

a writer renowned for his insight into the mysteries of the body now gives us a lambent and profoundly moving book about the mysteries of family at its center lies sherwin nulan's rembrandtesque portrait of his father meyer nudelman a jewish garment worker who came to america in the early years of the last century but remained an eternal outsider awkward in speech and movement broken by the premature deaths of a wife and child meyer ruled his youngest son with a regime of rage dependency and helpless love that outlasted his death in evoking their relationship nulan also summons up the warmth and claustrophobia of a vanished immigrant new york a world that impelled its children toward success yet made them feel like traitors for leaving it behind full of feeling and unwavering observation lost in america deserves a place

## ***How We Die 2010-11-16***

what happens to us as we die discover the answers in this exclusive 25th anniversary edition of sherwin b noland s seminal book with a foreword by paul kalanithi bestselling author of when breath becomes air there are many books intended to help people deal with the trauma of bereavement but few which explore the reality of death itself sherwin b noland with over thirty years experience as a surgeon explains in detail the processes which take place in the body and strips away many illusions about death the result is a unique and compelling book addressing the one final fact that all of us must confront i don t know of any writer or scientist who has shown us the face of death as clearly honestly and compassionately as sherwin noland does here james gleick author of chaos

## ***The Uncertain Art 2008-05-20***

life is short and the art so long the occasion fleeting experience fallacious and judgment difficult the physician must not only be prepared to do what is right himself but also to make the patient the attendants and the externals cooperate attributed to hippocrates c 400 b c e the award winning author of how we die and the art of aging venerated physician sherwin b noland has now written his most thoughtful and engaging book the uncertain art is a superb collection of essays about the vital mix of expertise intuition sound judgment and pure chance that plays a part in a doctor s practice and life drawing from history the recent past and his own life noland weaves a tapestry of compelling stories in which doctors have had to make decisions in the face of uncertainty topics include the primitive and sometimes illegal procedures doctors once practiced with good intentions such as grave robbing and prescribing cocaine as an anesthetic which resulted in a physician becoming america s first cocaine addict the curious cures for irregularity touted by people from the ancient egyptians to the cereal titan john harvey kellogg and bodybuilder charles atlas and healers grappling with today s complex moral and ethical quandaries from cloning to gene therapy to the adoption of eastern practices like acupuncture noland also recounts his most dramatic experiences in a forty year medical career the time he was called out of the audience of a Broadway play to help a man having a heart attack when no other

doctor there would respond and how he formed a profound friendship with an unforgettable and doomed heart patient behind these inspiring accounts always lie the mysteries of the human body and human nature the manner in which the ill can will themselves back to health and the odd and essential interactions between a body's own healing mechanisms and a doctor's prescriptions riveting and wise amusing and heartrending the uncertain art is sherwin noland's best work gems from a man who has spent his professional life acting in the face of ambiguity and sharing what he has learned

## ***How We Die 1995-01-15***

attempting to demythologize the process of dying noland explores how we shall die each of us in a way that will be unique through particular stories of dying of patients and of his own family he examines the seven most common roads to death old age cancer aids alzheimer's accidents heart disease and strokes revealing the facets of death's multiplicity it's impossible to read how we die without realizing how earnestly we have avoided this most unavoidable of subjects how we have protected ourselves by building a cultural wall of myths and lies i don't know of any writer or scientist who has shown us the face of death as clearly honestly and compassionately as sherwin noland does here james gleick

## ***Medicine 1992***

the 48 splendid colorplates in this book illustrate how the progress of medicine has been recorded in art with works from illuminated manuscripts and tapestries of the twelfth through the fifteenth centuries anatomical drawings from renowned renaissance satirical drawings of the great eighteenth and nineteenth century caricaturists and more each of the superb illustrations is accompanied by an enlightening commentary by the medical historian sherwin b noland the historical scientific and social significance of medical breakthroughs and procedures along with the personalities of both the physicians and artists are vividly described in relating the healing arts to the visual arts

## ***Doctors 2005***

the author of the acclaimed national book award winning *How We Die* now presents an inspiring search within the interior of our bodies for the biologically elusive quality of life that defines us the wisdom of the body offers a mesmerizing portrait of the tumultuous universe within us and shows how amazingly the stability of health rides on these tempests 8 drawings

## **How We Live 1998**

in his landmark book *How We Die* Sherwin B. Nuland profoundly altered our perception of the end of life now in *The Art of Aging* Dr. Nuland steps back to explore the impact of aging on our minds and bodies strivings and relationships combining a scientist's passion for truth with a humanist's understanding of the heart and soul Nuland has created a wise frank and inspiring book about the ultimate stage of life's journey the onset of ageing can be so gradual that we are often surprised to find that one day it is fully upon us growing old Nuland teaches us is not a disease but an art and for those who practice it well it can bring extraordinary rewards leading many to new sources of creativity perception and spiritual intensity

## ***The Wisdom of the Body 1998-12-15***

the best selling author of the national book award winning *How We Die* chronicles the history of medicine through profiles of important physicians and research scientists and reviews key medical theories and pioneering advances with portraits of Galen Andreas Vesalius William Harvey Joseph Lister and other medical pioneers

## The Art of Ageing *2007*

the life and work of the great italian renaissance artist and scientist leonardo da vinci 1452 1519 have proved endlessly fascinating for generations in leonardo da vinci sherwin noland completes his twenty year quest to understand an unlettered man who was a painter architect engineer philosopher mathematician and scientist what was it that propelled leonardo s insatiable curiosity noland finds clues in his subject s art relationships and scientific studies as well as in a vast quantity of notes that became widely known in the twentieth century scholarly and passionate noland s leonardo da vinci takes us deep into the first truly modern empirical mind one that was centuries ahead of its time

## Doctors *2008*

leonardo da vinci 1452 1519 is the italian painter draftsman sculptor architect and engineer whose genius perhaps more than that of any figure epitomized the renaissance humanist ideal his last supper 1495 97 and mona lisa 1503 06 are among the most widely popular and influential paintings of the renaissance while his notebooks reveal a spirit of scientific inquiry and a mechanical inventiveness that were centuries ahead of their time what was it that propelled leonardo s insatiable curiosity how could the same person in the same moment appear to be as naive as a child yet as profound as a sage what was it that was truly modern about this mind and work noland finds clues in leonardo s art his scientific research his famous notebooks and in his relationships with his family patrons and lovers
