faye the middle child was the scapegoat for her familys frustrations she was physically and mentally abused but despite their feelings towards her she loved them unconditionally fayes first boyfriend raped her that night she broke down sobbing to her mother she was unexpectedly kind and gave fave a cuddle the next day she had a change of heart sex was never discussed and cleverly her mother diverted responsibility by calling faye a dirty slut a couple of years later faye met john he was regarded as a superhero by her birth family for marrying the likes of faye blessed with a girl then a boy faye thought she was in heaven it went wrong when fayes perfect husband started drinking most weekends it was after a night out faye s husband and liz their best friend passionately embraced in front of their partners and johns father who was waiting to drive them home they laughed at faye saying it was only a bit of fun and she was being ridiculous to john it was nothing however it meant everything to faye he continued to drink but faye remained grateful he was weak natured and sided with faye s bullying family only a few months later it left his wife exposed and vulnerable faye tried desperately to hold on to her dreams determined to keep her precious family together circumstances forced john and faye to separate faye made countless sacrifices whilst john demoralised intimidated and controlled her for eighteen years it is after recovering from breast cancer faye realises how selfish to think so little of herself when others hadnt survived when her existence became threatened her life increased in value perhaps not to her family but to her almost all her family rejected her except one man he never let her down

an important aspect of the russian civil war were the several allied expeditions immediately following world war i in support of the disunited russian white armies resisting the bolshevik revolution although they ended in failure these ventures were long resented and were the origin of the 70 year long soviet suspicion of the western allies british and us expeditionary forces operated in north russia and siberia in support of general yudenich and admiral kolchak respectively and a french and greek expeditionary force plus romanian and polish elements operated in crimea and south western ukraine in support of general denikin the situation was further complicated by the presence of strong imperial german elements still under arms and by war between various factions in the ukraine this southern theatre of the allied interventions is far less well known than that of the british and americans in the north and east featuring rare photos and new colour plates this fascinating new book describes this major allied intervention in the russian civil war dr phoebus athanassiou writes a compelling account of how the french and greeks alongside white russians were greatly outnumbered by pro bolshevik forces and were relentlessly pushed back by the ukrainian forces in just over 4 months on 28 april 1919 the last of their forces were evacuated by allied navies from sevastopol in crimea
