1974

the single most influential culinary trend of our time is fast food it has spawned an industry that has changed eating the most fundamental of human activities from the first flipping of burgers in tiny shacks in the western united states to the forging of neon signs that spell out pizza hut in cyrillic or arabic scripts the fast food industry has exploded into dominance becoming one of the leading examples of global corporate success and with this success it has become one of the largest targets of political criticism blamed for widespread obesity cultural erasure oppressive labor practices and environmental destruction on massive scales in this book expert culinary historian andrew f smith explores why the fast food industry has been so successful and examines the myriad ethical lines it has crossed to become so as he shows fast food plain and simple devised a perfect retail model one that works everywhere providing highly flavored calories with speed economy and convenience but there is no such thing as a free lunch they say and the costs with fast food have been enormous an assault on proper nutrition a minimum wage labor standard and a powerful pressure on farmers and ranchers to deploy some of the worst agricultural practices in history as smith shows we have long known about these problems and the fast food industry for nearly all of its existence has been beset with scathing exposés boycotts protests and government interventions which it has sometimes met with real changes but more often with token gestures blame passing and an unrelenting gauntlet of lawyers and lobbyists fast food ultimately looks at food as a business an examination of the industry s options and those of consumers

and a serious inquiry into what society can do to ameliorate the problems this cheap and tasty product has created

The Need for a National Materials Policy

1994

essay from the year 2023 in the subject business economics business ethics corporate ethics grade a language english abstract this research paper examines the major ethical challenges within the fast food industry in kenya focusing on employee treatment promotion of unhealthy habits environmental degradation and hygiene standards the literature review reveals that employees in the fast food industry often face unfavorable working conditions and inadequate extrinsic motivation such as fair wages and positive working environments unhealthy habits are promoted through aggressive marketing campaigns leading to the consumption of nutritionally deficient fast foods even at the expense of healthier alternatives moreover the industry s reliance on home delivery services further exacerbates the problem by encouraging sedentary lifestyles

from blank page to final draft this is your straightforward guide to research papers you're sitting at your desk in a classroom or in an airless cubicle wondering how many minutes are left in a seemingly endless day when suddenly your teacher or supervisor lowers the boom she wants a research paper complete with footnotes and a list of sources she wants accuracy originality and good grammar and gasp she wants ten pages you may be 16 years old or 60 years old but your reaction is the same help take heart a research paper may seem daunting but it's a far from impossible project to accomplish turning research into writing is actually quite easy as long as you follow a few proven techniques and that's where research papers for dummies steps in to help in this easy to understand guide you find out how to search for information using both traditional printed sources and the electronic treasure troves of the internet you also discover how to take all those bits of information discarding the irrelevant ones and put them into a form that illustrates your point with clarity and originality here's just a sampling of the topics you'll find in research papers for dummies types of research papers from business reports to dissertations the basic ingredients of a paper introduction body conclusion footnotes and bibliography note taking methods while doing research avoiding plagiarism and other research paper pitfalls defining your thesis statement and choosing a structure for your paper supporting your argument and drawing an insightful conclusion revising and polishing your prose top ten lists on the best ways to begin your research online and in print research papers for dummies also includes an appendix that's full of research paper ideas if you're stuck if you're tasked with writing a research paper chances are you already have a lot of demands on your time you don't need another huge pile of papers to read this book can actually save you time in the long run because it gives you the easiest fastest and most successful methods for completing your paper

Your Planet Needs You!: An everyday guide to saving the earth

2008-02-28

although the title of this book is paper chemistry it should be considered as a text about the chemistry of the formation of paper from aqueous suspensions of fibre and other additives rather than as a book about the chemistry of the raw material itself it is the subject of what papermakers call wet end chemistry there are many other excellent texts on the chemistry of cellulose and apart from one chapter on the accessibility of cellulose the subject is not addressed here neither does the book deal with the chemistry of pulp preparation from wood from other plant sources or from recycled fibres for there are also many excellent texts on this subject the first edition of this book was a great success and soon became established as one of the bibles of the industry its achievement then was to collect the considerable advances in understanding which had been made in the chemistry of papermaking in previous years and provide for the first time a sound physico-chemical basis of the subject this new edition has been thoroughly updated with much new material added the formation of paper is a continuous filtration process in which cellulosic fibres are formed into a network which is then pressed and dried the important chemistry involved in this process is firstly the retention of colloidal material during filtration and secondly the modification of fibre and sheet properties so as to widen the scope for the use of paper and board products

Business Research using Basic Research Tools

2022-05-11

this is a print on demand edition of a hard to find publication this study includes estimates of how each child's consumption of food away from home food from school and caloric sweetened beverages affects that child's diet quality and calorie consumption compared with meals and snacks prepared at home food prepared away from home increases caloric intake of children esp older children each food away from home meal adds 108 more calories to daily total intake among children ages 13 18 than a snack or meal from home both food away from home and all food from school also lower the daily diet quality of older children among younger children the effect of food from school on caloric intake and diet quality does not differ significantly from that of food from home charts and tables
