since more than 26 states have passed laws requiring training for concealed carrying of firearms citizens and police have a duty to teach the safe and responsible use of the weapons in eight other states that permit concealed carry with no training required men and women have a moral obligation to learn how to carry and use their firearms safely and responsibly this handy little book contains everything a novice gun owner needs to know to start learning the basics of competent and safe pistol use as well as the essentials of using a gun in a potentially violent confrontation with a criminal it is an ideal textbook for state courses required for concealed carry permits while there are many excellent books on handguns marksmanship and self defense all are designed for those who want to be expert in those subjects there are no other books which address the specific concerns of someone who simply wants to carry a concealed firearm safely and responsibly until now bill clede serves on the connecticut state police firearms advisory committee which determines what training in his state will and will not include a fruitless search for a suitable text is what prompted him to develop this book one of clede's primary goals is teaching how to avoid discharging the firearm in the first place defusing aggressive behavior without resorting to shooting someone the practical pistol manual brings all these concerns together safety competent shooting and how to deal with violent behavior in one concise and affordable book this is the only book that fills the need of a text for novices that covers safety competent shooting and how to deal with potentially violent encounters the most current up to date full color manual anywhere on the dshk machine gun system authored by coaching clay and skeet shooting teams so he knows his shotguns and how to impart tips and tricks acquiring the ability to accurately shoot a pistol is no simple matter one should not assume that the art of advanced pistol marksmanship is fully realized immediately upon reading a training manual on the fundamentals and techniques of pistol shooting nor completely understood after having received a few hours of advice and instruction from a qualified coach or expert shooter to become a top pistol shooter and able to produce consistently high scores one must learn to perform all the fundamentals of shooting acquire certain definite habits achieve flawless coordination and above all have a capacity for the intense concentration essential to exercising a high degree of mental control for this one must train it is difficult if not impossible to establish a universal system of training in pistol marksmanship which will cover all cases one that can be adapted to each shooter's technique or special need training pistol shooters requires an individual approach there is no single pattern or system for the organization of training that will entirely meet the individual requirements of all competitors nor can one ever be expected this is the reason knowledgeable coaches take the peculiarities of an individual such as experience degree of preparation and fitness and other items into account they use these and by relying on their own experience devise a training program which allows special consideration for each shooter's capabilities in spite of the difference in details technique or method there is much that is common to the training of advanced marksmen that in the opinion of leading coaches and shooters applies to everyone without exception this manual endeavors to present in a detailed comprehensive manner these universal applications advanced pistol marksmanship training must of necessity avoid the involved and exceedingly complex because it is an activity whose participants form a great cross section of our nation the powerful stechkin 9mm pistol is capable of semi and full automatic fire at ranges up to 200 metres has a high capacity magazine and can
