Bravo! 2005

concept this algebra workbook has a creative twist a picture of a cuddly bear is used in place of a boring old x for the unknown the idea behind adding this artistic touch to the equations is to help make algebra seem a little more fun and enjoyable students don t need to draw bears in their solutions though they can write x if they want however there is an opportunity for students to be creative for example they could draw smiley faces instead of x s instruction the staff at al bear einstein developed a concise one page introduction to each chapter that explains what to do in simple terms and provides an instructive example to serve as a guide the description emphasizes the underlying concept like dividing both sides by the same number the material is presented in stages a new technique is introduced in each stage allowing students to focus on and master one idea at a time review sections help to reinforce the older material and force students to learn when to apply the various techniques the cuddly bears drawn by artist bearlyn help to engage student interest and make the learning process fun structure this workbook offers plenty of practice applying basic algebra skills to solve equations the problems start out
