Paula Porter has been writing since the seventh grade when Mr. Kirk named her editor of the Minden Iowa Junior High newspaper. She has an AA in Journalism from Iowa Western Community College, a BA in Journalism from the University of Nebraska at Omaha, a BA in Elementary Education from Buena Vista University, a MA in English Creative Writing from Iowa State University, and is completing her dissertation for a PhD in Instructional Design for Online Learning from Capella University. Porter is a published poet and essayist as well as a technical editor and internet senior editor. When not teaching in the classroom or online at several colleges, Porter can be found cleaning stalls and tacking or riding her horses, Odie and Tucker. Writing a research paper is easy once students understand the process. The focus of this text is to help students learn not only how to format an APA research paper but how to research smart, not hard. Not only does this book provide step-by-step instructions in creating APA templates for Microsoft Word 2003 and 2007 but helps students avoid intimidation by citations and references. Once they learn the mnemonics for both, by following a few simple steps, the dreaded research paper can be tamed. After teaching freshman English for sixteen years, I was delighted to use Paula Porter's 7 Steps to Researching and Writing an APA Formatted Research Paper for my composition I and II classes. This book provides instruction in database and internet research as well as all the stages of the writing process. The most daunting task for college writers, Porter has combined higher-level thinking skills of analysis, synthesis, and evaluation with well-explained strategies in steps that lead to success for those who follow them. Dr. Diane Strauser Alvarez Porter has broken down a dense set of information into carefully constructed units designed to facilitate students' easy application of the requirements for APA format and essay writing. Her concise and methodical approach to the material is a boon for any writing course, and her approach utilizes her experience both as a student required to write in this citation style and as an instructor who has encountered the front lines with her students. Simple in its diction, it is not simplistic in what it affords for student success. Annemarie Fowler, English and Literature Faculty
