Civil War Monuments and Memory

2022-09-06

the american civil war left indelible marks on the country in the century and a half since the war americans have remembered the war in different ways veterans placed monuments to commemorate their deeds on the battlefield in doing so they often set in stone and bronze specific images in specific places that may have conflicted with the factual historical record erecting monuments and memorials became a way to commemorate the past but they also became important tools for remembering that past in particular ways monuments honor but they also embody the very real tension between history and the way we remember that

history what we now today call memory civil war monuments and memory favorite stories and fresh perspectives from the historians at emerging civil war explores some of the ways people monumented and memorialized the war and how those markers have impacted our understanding of it this collection of essays brings together the best scholarship from emerging civil war s blog symposia and podcast all of it revised and updated coupled with original pieces designed to shed new light and insight on the monuments and memorials that give us some of our most iconic and powerful connections to the battlefields and the men who fought there

monuments in the eastern part of that county in its preparation the commission's staff have examined 1250 buildings and 900 possible earthworks the appearance of the volume was delayed by the war and by changes in staff the decision to divide the inventory for the county into three volumes was taken in 1949 when it became clear that the material would be too bulky for a single volume much of the work done before that date lies in the area assigned to the remaining volumes of these volume ii will cover arfon and eifionydd and volume iii lleyn volume iii will also contain appendices dealing with the general archaeology and history of the whole county

it was an enigma of the vietnam war american troops kept killing the viet cong and being killed in the process and yet their ranks continued to grow when cia analyst sam adams

uncovered documents suggesting a viet cong army more than twice as large as previously reckoned another war erupted this time within the ranks of america s intelligence community although originally clandestine this conflict involving the highest levels of the u s government burst into public view during the acrimonious lawsuit westmoreland v cbs the central issue in the suit as in the war itself was the calamitous failure of u s intelligence agencies to ascertain the strength of the viet cong and get that information to troops in a timely fashion the legacy of this failure whether caused by institutional inertia misguided politics or individual hubris haunts our nation in the era of chelsea manning julian assange and edward snowden sam adams tireless crusade for honest intelligence resonates strongly today
