### *Fables of the Law*

2016-10-24

the latest development concerning the metaphorical use of the fairy tale is the legal perspective the law had and has recourse to fairy tales in order to speak of the nomos and its subversion of the politically correct and of the various means that have been used to enforce the law fairy tales are a fundamental tool to examine legal procedures and structures in their many failings and errors therefore we have privileged the term fables of the law just to stress the ethical perspective they are moral parables that often speak of justice miscarried and

justice sought law and jurists are creators of fables on the view that law is born out of the facts *ex facto ius oritur* so that there is a need for narrative coherence both on the level of the case and the level of legislation or turned the other way around what does it mean if no such coherence is found this is especially of interest given the influx of all kinds of new technologies that are fabulous in themselves and hard to incorporate in traditional doctrinal schemes and thus in the construction of a new reality

2011-09-01

this title explores the creative works of famous novelist j k rowling books analyzed include harry potter and the sorcerer s stone harry potter and the goblet of fire harry potter and the half blood prince and harry potter and the deathly hallows clear comprehensive text gives background biographical information of rowling you critique it feature invites readers to analyze other creative works on their own a table of contents timeline list of works resources source notes glossary and an index are also included essential critiques is a series in essential library an imprint of abdo publishing company

## **Monsters and Monstrosity**

2019-06-17

every culture knows the phenomenon of monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm in latin and greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans the identification of something as monstrous denotes its place outside and beyond social norms and values the monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture the topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself in the process of analysis there are three theoretical approaches psychoanalytical representational ontological the volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity today s globalized world is shaped in the unprecedented phenomenon of international migration the resistance to this phenomenon causes the demonization of the other seen as the antagonist and the monster the monster becomes therefore the ethnic other the alien to reach this new perspective on monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the roman and classical viewpoint from the renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence

third agents secret protagonists of the modern imagination brings together a varied and fascinating range of contributions to explore the role of third agents in the post enlightenment literary imagination including modern narratives such as film it centres on the figure of the third conceived imaginatively as a liminal agent transgressing social cultural and spatio temporal boundaries and conceptually as the vital yet often problematic element in theories of discourse that seek to operate beyond binary codes of meaning this figure is revealed to be a secret protagonist of modernity neglected by and eluding the scope of existing intellectual and literary histories contributors to this volume are drawn from diverse theoretical backgrounds encompassing work in dialectics psychoanalysis and systems theory through their focus on literature and media they seek to understand how those conceptions of the third relate to imaginative figurations this volume offers the first comprehensive account of third agency in modern literature and its intellectual and imaginative pre history it provides an accessible combination of close readings and theoretical reflection presenting figures who inhabit in between territories such as the adventurer the bastard the priest the angel the adulterer the poet and the outcast these figures are read as protagonists in a genealogy of modernity that has not yet been written the essays here also provide fascinating answers as to why these secret protagonists often became major figures in

modern philosophy and literary theory and give new insights into such writers as benjamin barthes and derrida

## **Third Agents**

2020-11-24

taking up the various conceptions of heroism that are conjured in the harry potter series this collection examines the ways fictional heroism in the twenty first century challenges the idealized forms of a somewhat simplistic masculinity associated with genres like the epic romance and classic adventure story the collection s three sections address broad issues related to genre harry potter s development as the central heroic character and the question of who qualifies as a hero in the harry potter series among the topics are harry potter as both epic and postmodern hero the series as a modern day example of psychomachia the series indebtedness to the gothic tradition harry s development in the first six film adaptations harry potter and the idea of the english gentleman hermione granger s explicitly female version of heroism adult role models in harry potter and the complex depictions of heroism exhibited by the series minor characters together the essays suggest that the harry potter novels rely on established generic moral and popular codes to develop new and genuine ways of expressing what a globalized world has applauded as ethically exemplary models of heroism based on responsibility courage humility and kindness

ever wonder what it was like to grow up on the set of the world's most popular movie series or how Daniel Radcliffe flew on a broomstick and Emma Watson cast all those spells now you can find out this book includes behind the scenes photos from all eight Harry Potter films plus the inside scoop from the movies producer directors and stars on how they brought the magical world of Harry Potter to life

## Harry Potter Collector's Handbook

2007

the scope and tragedy of the thing the structure of the series more things in heaven and earth going beyond the normal as if a man were author of himself good against evil be absolute for death life and death power is made perfect in weakness power and weakness to lay down one's life for one's friends love and sacrifice it is essential that you understand this freedom and determination a pretty boring life the hidden and the ostentatious telling it like it is the struggle for truth they will see God purity of heart and purity of blood

## Harry Potter Handbook, Movie Magic

2022-04-19

provides a Christian interpretation of Harry Potter arguing that the series supports biblical teaching as opposed to the practice of the occult and offers insights into character names imagery and themes

## **Baptizing Harry Potter**

2011-11-15

In her follow up to *The Ivory Tower and Harry Potter* Lana A. Whited has compiled a new collection of essays analyzing the books films and other media by J.K. Rowling this includes pieces on the Harry Potter books and movies *Fantastic Beasts* and where to find them films *The Cursed Child* play as well as her writing outside the wizarding universe such as *The Ickabog* *The Casual Vacancy* and the *Cormorant Strike* series many of the chapters explore works that influenced the Harry Potter series including classical epic Shakespearean comedy and tragedy and Arthurian myth in addition to literary comparison the volume delves into topics like political authoritarianism distrust of the media racial and social justice and developments in fandom it's fair to say that much has changed in regard to Harry Potter and J.K. Rowling scholarship in the twenty years since the first volume's publication while it was once considered a universally beloved book series the relationship between HP and its fans has grown more complicated in recent years as its readers have grown older and Rowling's reputation has wavered in the public eye Whited and her contributors consider the complicated legacy of Harry Potter and its author and explore how the series will evolve in the next twenty years

## **Harry Potter and History**

2017-03-06

the astonishing success of j k rowling and other contemporary children s authors has demonstrated how

passionately children can commit to the books they love but this kind of devotion is not new this timely volume takes up the challenge of assessing the complex interplay of forces that have created the popularity of children's books both today and in the past the essays collected here ask about the meanings and values that have been ascribed to the term popular they consider whether popularity can be imposed or if it must always emerge from children's preferences and they investigate how the harry potter phenomenon fits into a repeated cycle of success and decline within the publishing industry whether examining eighteenth century chapbooks fairy tales science schoolbooks victorian adventures waif novels or school stories these essays show how historical and publishing contexts are vital in determining which books will succeed and which will fail which bestsellers will endure and which will fade quickly into obscurity as they considering the fiction of angela brazil enid blyton roald dahl and j k rowling the contributors carefully analyse how authorial talent and cultural contexts combine in often unpredictable ways to generate and sometimes even sustain literary success

## Booktalks and Beyond
