seventy five years after the publication of orwell s satirical fable
it s story time again so welcome to the free world where
everyone will live happily ever after right synopsis a team of
future scientists is determined to find out what caused a previous
mass extinction of species when they discover evidence of
mysterious creatures that may provide an answer to what caused
the event the ancient finds include several scriptures among
them a story called animal farm which tells the tale of a farm on
which animals decide to overthrow their evil human master but
soon after doing so the farm s pigs take over and turn malignant
too this story is continued in another scripture titled animal
farming which is told from the perspective of the donkey
benjamin who escapes the farm in fear of persecution by the pigs
at first benjamin is impressed by the high living standards on his
new host farm but soon starts developing ethical concerns when
a huge hen cage is installed benjamin meets a series of
characters representing renowned western philosophers who
have shaped the basis of today s moral justification for intensive
animal farming methods from aristotle to kant they all try their
best to convince benjamin of its legitimacy and not without
success it is only after a personal tragedy that benjamin realises
he should have listened to his gut feeling besides challenging the
popular reasoning in favour of intensive farming methods a
donkey s diary explores arguments concerning animal welfare

~~animal rights and environmental protection in the context of the~~
ongoing climate crisis and mass extinction event in a sarcastic tone the story questions the popular assumption that humans are not to be considered animals due to their allegedly superior intellect in doing so the donkey benjamin reveals what truly lies beneath their apparent need for eternal growth despite its fatal consequences that currently threaten to destroy their own livelihoods similar to its prequel a donkey s diary is a satirical fable about humans and other animals the story represents how food production and with it the human animal relationship has changed over the course of the past three industrial revolutions and highlights which ancient arguments were and still are used to justify intensive farming practices it invites the reader to ponder animals food money work intelligence and much more
