Montana in Force July 1, 1895

North American Tunneling: 2014 Proceedings 2014-06-17 the north american tunneling conference is the premier forum to discuss new trends and developments in underground construction in north america with every conference the number of attendees and breadth of topics grows north american tunneling 2014 proceedings reflects the theme for the 2014 conference mission possible the authors share new theories novel innovations and the latest tools that make what once may have been perceived as impossible now possible the authors of 128 papers share the latest case histories expertise lessons learned and real world applications from around the globe on a wide range of topics they cover the successes and failures of challenging construction projects read about challenging design issues fresh approaches on performance future projects and industry trends as well as ground movement and support structure analysis risk and cost management rock tunnels caverns and shafts tbm technology and selection and water and wastewater conveyance

Taylor's 7th Teaching and Learning Conference 2014 Proceedings 2015-06-01 these conference proceedings showcase a rich and practical exchange of approaches and vital evidence based practices taking place around the world they clarify the complex challenges involved in bringing about a holistic educational environment in schools and institutes of higher learning that fosters greater understanding and offer valuable insights on how to avoid the pitfalls that come with rolling out holistic approaches to education to do so the proceedings focus on the subthemes support and development mobility and diversity and networking and collaboration in holistic education

7th International Conference on University Learning and Teaching (InCULT 2014) Proceedings 2015-12-30 the book comprises papers presented at the 7th international conference on university learning and teaching incult 2014 which was hosted by the asian centre for research on university learning and teaching acruet located at the faculty of education universiti teknologi mara shah alam malaysia it was co hosted by the university of hertfordshire uk the university of south australia the university of ohio usa taylor s university malaysia and the training academy for higher education akept ministry of education malaysia a total of 165 papers were presented by speakers from around the world based on the theme educate to innovate in the 21st century the papers in this timely book cover the latest developments issues and concerns in the field of teaching and learning and provide a valuable reference resource on university teaching and learning for lecturers educators researchers and policy makers

Industrial Engineering, Machine Design And Automation (Iemda 2014) - Proceedings Of The 2014

Congress & Computer Science And Application (Ccsa 2014) - Proceedings Of The 2nd Congress
2015-03-30 this proceedings put together 68 selected articles from the joint conferences of 2014 congress on industrial engineering machine design and automation iemda2014 and the 2nd congress on computer science and application ccsa2014 held in sanya china during december 12 14 2014 the conference program of iemda 2014 focused on areas of industrial engineering machine design and automation while the ccsa 2014 program provided the platform for computer science and applications collected together the latest research results and applications on industrial engineering machine design automation and computer science and other related engineering topics all submitted papers to this proceedings were subjected to strict peer reviewing by 2 4 expert referees to ensure that all articles selected are of highest standard and are relevance to the conference

China Satellite Navigation Conference (CSNC) 2014 Proceedings: Volume I 2014-04-22 china satellite navigation conference csnc 2014 proceedings presents selected research papers from csnc2014 held on 21 23 may in nanjing china the theme of csnc2014 is bds application innovation integration and sharing these papers discuss the technologies and applications of the global navigation satellite system gnss and the latest progress made in the china beidou system bds especially they are divided into 9 topics to match the corresponding sessions in csnc2014 which broadly covered key topics in gnss readers can learn about the bds and keep abreast of the latest advances in gnss techniques and applications sun jiadong is the chief designer of the compass bds and the academician of chinese academy of sciences cas jiao wenhai is a researcher at china satellite navigation office wu Haitao is a professor at navigation headquarters cas lu mingquan is a professor at department of electronic engineering of tsinghua university

China Satellite Navigation Conference (CSNC) 2014 Proceedings: Volume III 2014-04-22 china satellite navigation conference csnc 2014 proceedings presents selected research papers from csnc2014 held on 21 23 may in nanjing china the theme of csnc2014 is bds application innovation integration and sharing these papers discuss the technologies and applications of the global navigation satellite system gnss and the latest progress made in the china beidou system bds especially they are divided into 9 topics to match the corresponding sessions in csnc2014 which broadly covered key topics in gnss readers can learn about the bds and keep abreast of the latest advances in gnss techniques and applications sun jiadong is the chief designer of the compass bds and the academician of chinese academy of sciences cas jiao wenhai

is a researcher at china satellite navigation office wu haitao is a professor at navigation headquarters cas lu mingquan is a professor at department of electronic engineering of tsinghua university

Nuclear Structure In China 2014 - Proceedings Of The 15th National Conference On Nuclear Structure In China 2016-03-11 this volume is a collection of the contributions to the 15th national conference on nuclear structure in china nsc2014 held on october 25 28 2014 in guilin china and hosted by guangxi normal university it provides an important updated resource in the nuclear physics literature for researchers and graduate students studying nuclear structure and related topics recent progress made in the study of nuclear spectroscopy of high spin states nuclear mass and half life nuclear astrophysics super heavy nuclei unstable nuclei density functional theory neutron star and symmetry energy nuclear matter and nuclear shell model are covered

COOP 2014 - Proceedings of the 11th International Conference on the Design of Cooperative Systems, 27-30 May 2014, Nice (France) 2014-06-02 this volume presents the proceedings of the 11th international conference on the design of cooperative systems coop 2014 the conference is a venue for multidisciplinary research contributing to the design assessment and analysis of cooperative systems and their integration in organizations public venues and everyday life coop emerged from the european tradition of computer supported cooperative work cscw and cognitive ergonomics as practiced in france these proceedings are a collection of 28 papers reflecting the variety of research activities in the field as well as an increasing interest in investigating the use and design of ict in all aspects of everyday life and society and not merely in the workplace the papers represent a variety of research topics from healthcare to sustainable mobility to disaster response in settings from all over the world for the first time the proceedings include papers presented in an early career researchers track which was organized in order to give young researchers the opportunity to discuss their work with an international community this collection of papers provides a picture of new developments and classic topics of research around cooperative systems based on the principle that a deep knowledge of cooperative practices is a key to understanding technology impacts and producing quality designs the articles presented will appeal to researchers and practitioners alike as they combine an understanding of the nature of work with the possibilities offered by novel digital technologies

Advances in Information and Computer Security 2014-08-19 this book constitutes the refereed

proceedings of the 9th international workshop on security iwsec 2014 held in hirosaki japan in august 2014 the 13 regular papers presented together with 8 short papers in this volume were carefully reviewed and selected from 55 submissions the focus of the workshop was on the following topics system security threshold cryptography hardware security foundation and encryption

LISS 2014 2015-04-20 the proceedings of the 2014 international conference on logistics informatics and services sciences liss 2014 gather 259 papers on the latest fundamental advances in the state of the art and practice of logistics informatics service operations and service science the books is divided into four main sections focusing on different aspects service management logistics management information management and engineering management it also covers ten special sessions advanced management decision making techniques and application freight transportation and information technology free trade zone ftz and supply chain management innovation in service science comprehensive service international trade and investment of service industries theories and practices trends and strategies supply chain management industrial economy and urban logistics management process optimization modeling data analysis logistics management iot technology application and digital publishing media the papers in each section describe state of art research works that are often oriented towards real world applications and highlight the benefits of related methods and techniques for developing the emerging field of service science logistics and informatics

China Satellite Navigation Conference (CSNC) 2017 Proceedings: Volume III 2017-05-02 these proceedings present selected research papers from csnc2017 held during 23th 25th may in shanghai china the theme of csnc2017 is positioning connecting all these papers discuss the technologies and applications of the global navigation satellite system gnss and the latest progress made in the china beidou system bds especially they are divided into 12 topics to match the corresponding sessions in csnc2017 which broadly covered key topics in gnss readers can learn about the bds and keep abreast of the latest advances in gnss techniques and applications

2014 International Conference on Power System Technology (POWERCON 2014) 2014 this seven volume set lncs 14054 14060 constitutes the proceedings of the 25th international conference hci international 2023 in copenhagen denmark in july 2023 for the hccii 2023 proceedings a total of 1578 papers and 396 posters was carefully reviewed and selected from 7472 submissions additionally 267 papers and 133 posters are included in the volumes of the proceedings

published after the conference as late breaking work these papers were organized in the following topical sections hci design and user experience cognitive engineering and augmented cognition cultural issues in design technologies for the aging population accessibility and design for all designing for health and wellbeing information design visualization decision making and collaboration social media creative industries and cultural digital experiences digital human modeling ergonomics and safety hci in automated vehicles and intelligent transportation sustainable green smart cities and smart industry extended reality interactions gaming and gamification experiences interacting with artificial intelligence security privacy trust and ethics learning technologies and learning experiences ecommerce digital marketing and efinance

HCI International 2023 - Late Breaking Papers 2023-11-24 in this volume different aspects of logics for dependence and independence are discussed including both the logical and computational aspects of dependence logic and also applications in a number of areas such as statistics social choice theory databases and computer security the contributing authors represent leading experts in this relatively new field each of whom was invited to write a chapter based on talks given at seminars held at the schloss dagstuhl leibniz center for informatics in wadern germany in february 2013 and june 2015 and an academy colloquium at the royal netherlands academy of arts and sciences march 2014 altogether these chapters provide the most up to date look at this developing and highly interdisciplinary field and will be of interest to a broad group of logicians mathematicians statisticians philosophers and scientists topics covered include a comprehensive survey of many propositional modal and first order variants of dependence logic new results concerning expressive power of several variants of dependence logic with different sets of logical connectives and generalized dependence atoms connections between inclusion logic and the least fixed point logic an overview of dependencies in databases by addressing the relationships between implication problems for fragments of statistical conditional independencies embedded multivalued dependencies and propositional logic various markovian models used to characterize dependencies and causality among variables in multivariate systems applications of dependence logic in social choice theory and an introduction to the theory of secret sharing pointing out connections to dependence and independence logic

Dependence Logic 2016-06-29 this study allows readers to get to grips with the conceptual tools and practical techniques for building robust machine learning in the face of adversaries

Adversarial Machine Learning 2019-02-21 this seven volume set lncs 14054 14060 constitutes the proceedings of the 25th international conference hci international 2023 in copenhagen denmark in july 2023 for the hccii 2023 proceedings a total of 1578 papers and 396 posters were carefully reviewed and selected from 7472 submissions additionally 267 papers and 133 posters are included in the volumes of the proceedings published after the conference as late breaking work these papers were organized in the following topical sections hci design and user experience cognitive engineering and augmented cognition cultural issues in design technologies for the aging population accessibility and design for all designing for health and wellbeing information design visualization decision making and collaboration social media creative industries and cultural digital experiences digital human modeling ergonomics and safety hci in automated vehicles and intelligent transportation sustainable green smart cities and smart industry extended reality interactions gaming and gamification experiences interacting with artificial intelligence security privacy trust and ethics learning technologies and learning experiences ecommerce digital marketing and efinance

HCI International 2023 - Late Breaking Papers 2023-12-01 this book constitutes late breaking papers from the 23rd international conference on human computer interaction hci 2021 which was held in july 2021 the conference was planned to take place in washington dc usa but had to change to a virtual conference mode due to the covid 19 pandemic a total of 5222 individuals from academia research institutes industry and governmental agencies from 81 countries submitted contributions and 1276 papers and 241 posters were included in the volumes of the proceedings that were published before the start of the conference additionally 174 papers and 146 posters are included in the volumes of the proceedings published after the conference as late breaking work papers and posters the contributions thoroughly cover the entire field of hci addressing major advances in knowledge and effective use of computers in a variety of application areas

HCI International 2021 - Late Breaking Papers: Design and User Experience 2021-11-19 this proceedings lncs 13516 constitutes the refereed proceedings of the 24th international conference on human computer interaction hci 2022 which was held virtually as part of the 24th international conference hci 2022 during june 26 to july 1 2022 hci 2022 received a total of 5583 submissions from academia research institutes industry and governmental agencies from 88 countries submitted contributions and 1276 papers and 275 posters were included in the proceedings that were published just before the start of the conference additionally 296

papers and 181 posters are included in the volumes of the proceedings published after the conference as late breaking work papers and posters the contributions thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas

HCI International 2022 - Late Breaking Papers: HCI for Today's Community and Economy
2022-10-21 this book constitutes the refereed proceedings from the 15th international conference on formal aspects of component software facts 2018 held in pohang south korea in october 2018 the 14 full papers presented together with an invited abstract and an invited paper were carefully reviewed and selected from 32 submissions facts 2016 is concerned with how formal methods can be used to make component based and service oriented software development succeed formal methods have provided a foundation for component based software by successfully addressing challenging issues such as mathematical models for components composition and adaptation or rigorous approaches to verification deployment testing and certification

JADT 2014 : Proceedings, 12th International Conference on Textual Data Statistical Analysis, June 3-6, 2014
2018-10-06 analytics and artificial intelligence ai what are they good for the bandwagon keeps answering absolutely everything analytics and artificial intelligence have captured the attention of everyone from top executives to the person in the street while these disciplines have a relatively long history within the last ten or so years they have exploded into corporate business and public consciousness organizations have rushed to embrace data driven decision making companies everywhere are turning out products boasting that artificial intelligence is included we are indeed living in exciting times the question we need to ask is do we really know how to get business value from these exciting tools unfortunately both the analytics and ai communities have not done a great job in collaborating and communicating with each other to build the necessary synergies this book bridges the gap between these two critical fields the book begins by explaining the commonalities and differences in the fields of data science artificial intelligence and autonomy by giving a historical perspective for each of these fields followed by exploration of common technologies and current trends in each field the book also readers introduces to applications of deep learning in industry with an overview of deep learning and its key architectures as well as a survey and discussion of the main applications of deep learning the book also presents case studies to illustrate applications of ai and analytics these include a case study from the healthcare industry and an investigation of a digital transformation enabled by ai and analytics transforming a

product oriented company into one delivering solutions and services the book concludes with a proposed ai informed data analytics life cycle to be applied to unstructured data

Formal Aspects of Component Software 2020-08-06 human language technology is the study of the methods by which computer programs or electronic devices can analyze produce modify or respond to human texts and speech it consists of natural language processing and computational linguistics on the one hand and speech technology on the other this book presents the proceedings of the 9th international conference human language technologies the baltic perspective baltic hlt 2020 organised in kaunas lithuania on 22 and 23 september 2020 this biennial conference offers researchers a platform to share knowledge on recent advances in human language processing for the baltic languages as well as promoting interdisciplinary and international cooperation in human language technology research within and beyond the baltic states in addition to the traditional topics of natural language processing and language technologies this year s conference featured a special session on resource and tool development for teaching and learning the less resourced baltic languages this year 42 submissions were received each of which was evaluated by two reviewers resulting in a total of 34 papers being accepted for presentation and publication the book is divided into four sections speech and text analysis 9 papers machine translation and natural understanding 6 papers tools and resources 14 papers and language learning resources 5 papers providing a fascinating overview of current research in the field from a primarily baltic perspective the book will be of interest to all those whose work involves human language technology

Data Analytics and AI 2020-09-30 this book considers logical proof systems from the point of view of their space complexity after an introduction to propositional proof complexity the author structures the book into three main parts part i contains two chapters on resolution one containing results already known in the literature before this work and one focused on space in resolution and the author then moves on to polynomial calculus and its space complexity with a focus on the combinatorial technique to prove monomial space lower bounds the first chapter in part ii addresses the proof complexity and space complexity of the pigeon principles then there is an interlude on a new type of game defined on bipartite graphs essentially independent from the rest of the book collecting some results on graph theory finally part iii analyzes the size of resolution proofs in connection with the strong exponential time hypothesis seth in complexity theory the book is appropriate for researchers in theoretical computer science in particular computational complexity

Human Language Technologies - The Baltic Perspective 2018-01-11 this two volume set lncs 12918 12919 constitutes the refereed proceedings of the 23rd international conference on information and communications security icics 2021 held in chongqing china in september 2021 the 49 revised full papers presented in the book were carefully selected from 182 submissions the papers in part i are organized in the following thematic blocks blockchain and federated learning malware analysis and detection iot security software security internet security data driven cybersecurity

Space in Weak Propositional Proof Systems 2021-09-17 this book constitutes the thoroughly refereed proceedings of the 10th international conference on design science research in information systems and technology desrist 2015 held in dublin ireland in may 2015 the 22 full papers 11 short papers and 10 short papers describing prototypes and products were carefully reviewed and selected from 111 submissions the papers are organized in topical sections on design science research in action meta perspectives data mining and analytics emerging themes design practice and design thinking and prototypes

Information and Communications Security 2015-04-30 this book includes selected papers from the icgsc 2014 with focus on the current trends of global resources used to meet the growing demands to improve life style coupled with environmental and social problems related to the resource consumption with emphasize to move towards sustainable development it provides a platform for scientists and academicians from local and international universities and industries to promote share and discuss various new issues and developments in different areas of chemical engineering with respect to global sustainability under the sustainability umbrella the topics covered are alternative energy sources alternative feedstock for energy and chemicals alternative raw materials for household commodity green process with minimal environmental impact process intensification waste minimization recycling of wastes and providing quality water food and medicines other topics covered include 1 oil and gas biofuel fuel cell renewable energy 2 green technology sustainability environmental carbon sequestration carbon footprint natural resources 3 chemical processes separation technology biotechnology nanotechnology food technology particle technology corrosion pharmaceutical phytochemical oleochemical 4 process modeling process simulation process control 5 advanced material polymer catalyst enzyme 6 policy regulations strategy and implementation safety management of science engineering education 7 process safety and loss prevention environmental and chemical risk assessment transportation risk analysis inherent safety

New Horizons in Design Science: Broadening the Research Agenda 2015 this book constitutes the refereed proceedings of the 5th international conference on information technology in bio and medical informatics itbam 2014 held in munich germany in september 2014 in conjunction with dexa 2014 the 9 revised long papers presented together with 3 short papers were carefully reviewed and selected from numerous submissions the papers address the following topics clustering and bioinformatics medical image and data processing and knowledge discovery and machine learning in medicine

ICGSCCE 2014 2015-07-13 these proceedings represent the work of contributors to the 22nd european conference on e learning ecel 2023 hosted by university of south africa pretoria south africa on 26 27 october 2023 the conference co chairs associate professor sarah jane johnston and associate professor shawren singh both from university of south africa pretoria south africa ecel is now a well established event on the academic research calendar and now in its 22nd year the key aim remains the opportunity for participants to share ideas and meet the people who hold them the scope of papers will ensure an interesting two days the subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research it is especially relevant that the conference is being hosted by unisa this year as the university celebrates its 150th anniversary unisa has been a pioneer in first distance and now e learning the conference will also host the final round of the 9th e learning excellence awards where innovate case histories will be presented the opening keynote presentation is given by professor thenjiwe meyiwa vice principal for the research postgraduate studies innovation and commercialisation at university of south africa who will speak on the role of african feminisms in shaping a sustainable future of being and learning an afternoon keynote on thursday will be made by dr zolile martin mguda university of south africa on the topic of chatgpt the first year the second day of the conference will open with an address by dr isabel tarling md limina south africa with the title developing digital standards for learning and teaching in south africa s schools with an initial submission of 100 abstracts after the double blind peer review process there are 45 academic research papers 3 phd research papers and 1 masters research paper published in these conference proceedings these papers represent research from belgium canada chile czech republic france germany ghana greece hong kong ireland japan malaysia mozambique norway oman peru poland portugal romania singapore south africa sri lanka sweden switzerland turkey and the united kingdom

Information Technology in Bio- and Medical Informatics 2023-10-26 this book constitutes the

proceedings of 26th international conference on advanced information systems engineering caise 2014 held in thessaloniki greece in june 2014 the 41 papers and 3 keynotes presented were carefully reviewed and selected from 226 submissions the accepted papers were presented in 13 sessions clouds and services requirements product lines requirements elicitation processes risk and security process models data mining and streaming process mining models mining event logs databases software engineering

22nd European Conference on e-Learning 2014 this book offers a helpful starting point in the scattered rich and complex body of literature on mobile information retrieval mobile ir reviewing more than 200 papers in nine chapters highlighting the most interesting and influential contributions that have appeared in recent years it particularly focuses on both user interaction and techniques for the perception and use of context which taken together shape much of today s research on mobile ir the book starts by addressing the differences between ir and mobile ir while also reviewing the foundations of mobile ir research it then examines the different kinds of documents users and information needs that can be found in mobile ir and which set it apart from standard ir next it discusses the two important issues of user interfaces and context awareness in closing it covers issues related to the evaluation of mobile ir applications overall the book offers a valuable tool helping new and veteran researchers alike to navigate this exciting and highly dynamic area of research

Memoirs of the Faculty of Engineering, Miyazaki University 2014-08-01 clients have been identified as critical for building delivery but have been under researched with only a few studies about them this book seeks to address this gap a deeper look into the nature of construction clients and their relation to building users exposes more fundamental questions related to the activity of building and the activity in the building these fundamental questions include how do clients get what they want how do clients cope with the building process and how are clients being shaped by building s this book on clients and users is structured around three main themes agency is concerned with the classical agency structure dichotomy on actions roles and responsibilities or put differently whether actors can act freely or are bound by structural constraints governance is related to the interplay between clients and the supply system clients govern the supply system but are at the same time governed by the supply system through different processes and mechanisms innovation deals with construction innovation and what part clients and users play in this struggle between change and stability the book includes theoretical and conceptual frameworks on what constitutes

clients and users as well as case studies on r d themes of relevance to practice
Advanced Information Systems Engineering 2017-07-19 icse 14 36th international conference on software engineering may 31 2014 jun 07 2014 hyderabad india you can view more information about this proceeding and all of acm s other published conference proceedings from the acm digital library acm org dl
