dangerous quest to locate documents written by the cardinal that denounce the churchs stance on volatile issues an endeavor that pits him against his corrupt politician brother drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary italian fiction providing a fresh perspective on this rich and fast developing debate and on the study of the italian literary language the book brings together a number of complementary approaches to orality from the fields of linguistics literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades ranging from internationally acclaimed writers such as celati duranti and tabucchi through de luca and baricco to the latest generation of writers such as campo ballestra and nove by exploring the complementary facets of italian orality and its diachronical developments since the seventies this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible cross modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations this volume in the series documentary

history of the jews in italy illustrates the history of the jews in sicily from 1458 to 1477 it is the sequel to the first five volumes and covers the events during the rule of king john although john continued the policies of his father alphonso towards the jews of the island there is a distinct deterioration in their position during his times after years of incitement by the members of the mendicant orders anti jewish riots broke out in various parts of the sicily the worst of them was the massacre in modica in 1474 during that period the jewish minority of sicily continued to flourish economically and socially nearly a thousand documents many of them published here for the first time record the fortunes of the jews and their relationships with the authorities and their christian neighbours much new information has come to light and many facets of jewish life in sicily have been uncovered the abundance of historical records in the archives of the crown and of local authorities compares favourably with the relative scarcity of surviving documentation in earlier centuries therefore again many documents had to be reported in summary form the volume is provided with additional bibliography and indexes while the introduction has been relegated to the end of the series on the jews of the island this volume offers unparalleled coverage of all aspects of art and architecture from medieval western europe from the 6th century to the early 16th century drawing upon the expansive scholarship in the celebrated grove dictionary of art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of western history and international art and architecture this descriptive catalogue of the western manuscripts dating to 1800 housed in the libraries of the university of pennsylvania was begun in 1960 and was printed in six issues of the library chronicle actual use of the catalogue led to the revision of some of the entries additions and corrections which are incorporated in the present volume one hundred and seventeen manuscripts are described here for the first time the manuscripts are described in the order in which they were placed on the shelves a common but not a logical arrangement the compilers therefore have prepared an extensive index listing title entries names of authors scribes and owners persons referred to in the text names of places and countries as well as other entries deemed useful the catalogue includes the manuscripts of the rare book collection henry c lea library edgar f smith collection and the veterinary library greatly facilitating access to the resources of the university libraries the catalogue also provides an intriguing description of bibliographical riches il presente lavoro è incentrato sulla ricerca e sull individuazione dell esistenza di tracce arabe sia formali che sostanziali all interno delle opere di andrea da barberino l analisi critica si è basata sull elaborazione di un esaustivo regesto dei termini di origine araba condotto sui sei romanzi attribuiti con certezza all autore l indagine ha evidenziato la sostanziale assenza di un rapporto diretto tra il barberino e il mondo arabo sia dal punto di vista lessicale che per quanto riguarda gli aspetti mitografici this book examines the alternation between accusative dative and dative accusative order in old florentine clitic clusters and its decline in favor of the latter based on an exhaustive analysis of data collected from medieval florentine and tuscan texts we offer a novel analysis of the rise of the variable order the transition from one order to the other and the demise of the alternation that relies primarily on iconicity and analogy the book employs exophoric pragmatic iconicity a language external iconic relationship based on similarity between linguistic structure and the speaker writer s conceptualization of reality and endophoric iconicity a language internal iconic relationship where the iconic ground is construed between linguistic signs and structures analogy is viewed as a productive process that generalizes patterns or extends grammatical rules to formally similar structures and obtains the form of the analogical relationship between the masculine singular definite article and the third person singular accusative clitic which shared the same phonotactically constrained distribution patterns the data indicate that exophoric pragmatic iconicity exploits and maintains the alternation whereas endophoric iconicity and analogy conspire to end it this volume in the series documentary history of the jews in italy illustrates the history of the jews in sicily from 1440 to 1457 it is the sequel to the first four volumes and covers the events during the second half of the rule of king alphonso the magnanimous the king continued to take a personal interest in the affairs of the jewish communities but abolished the office of dienechelele chief justice instead the jewish communities were again governed by their local leaders lay and spiritual during that period the jewish minority of sicily continued to flourish economically and socially although the first ominous signs of change began to appear some 800 documents many of them published here for the first time record the fortunes of the jews and their relationships with the authorities and their christian neighbours much new information has come to light and many facets of jewish life in sicily have been uncovered the abundance of historical records in the archives of the crown and of local authorities compares favourably with the relative scarcity of surviving island sussurri e vibrazioni poi rumori e scosse violente agitano le fondamenta del dream hotel propagandosi nelle sue stanze vuote e buie l'intera struttura sembra pervasa da una forza oscura abitata da un gigante che si muove si agita e corre veloce sotto il pavimento costretto sotto strati di terra e cemento affamato d'aria e di luce ma c'è un progetto su quell'albergo anzi di più c'è un sogno proprio come è scritto nel suo nome e nulla può fermare il giovane adolf dal realizzarlo mette su una squadra pochissime persone di estrema fiducia determinato a riaprire le porte del dream hotel e farne un piccolo capolavoro gli eventi sinistri però non si placano anzi più si avvicina il momento dell'inaugurazione più il mistero s'infittisce un horror penserà il lettore forse in questo romanzo nulla è come sembra pagine ricche di suspense per giungere a un finale sorprendente dove riflettere sui reali pericoli che quotidianamente minacciano il quieto vivere egoismo ambizione arrivismo sono loro i veri giganti affamati d'aria e luce andrea de nuzzo è nato a brindisi il 9 marzo 1985 subito dopo aver conseguito il diploma inizia a lavorare come informatico dedicando il suo tempo libero alla stesura di testi musicali seguendo un'altra sua passione appunto la musica dream hotel è la sua prima pubblicazione starting from an inventory and other documents ann roberts has identified some 30 works of art that originated from the convent of san domenico of pisa she here examines those objects commissioned for and made by the nuns during the fifteenth century some of the objects included have never before been published one of her goals in this study is to bring into the discussion of renaissance art a body of images that have been previously overlooked because they come from a non florentine context and because they do not fit modern notions of the development of renaissance style she also analyzes the function of the images social as well as religious within the context of a female dominican convent finally she offers descriptions of and documentation for the process of patronage as it was practiced by cloistered women and the making of art in such enclosures the author presents a catalogue of works which gives basic data and bibliography for the objects described in the text roberts offers other valuable resources in the appendices including unpublished c19th inventories of the objects in the convent at various moments documents regarding the commission of works of art for the convent letters written by the nuns a list of the prioresses of san domenico lists of nuns at different points in the fifteenth and early sixteenth century and a list of the relics owned by the convent in the sixteenth century roberts firmly grounds her interpretation in the values of the order to which the nuns belonged and in the political and social concerns of their city in dynamics of morphological productivity francesco gardani explores the evolution of the productivity of the noun inflectional classes of latin and old italian covering a span of almost 2 000 years an absolute novelty for the theory of diachrony and for latin and italo romance linguistics by providing an original set of criteria for measuring productivity based on the investigation of loanword integration conversions and class shift gardani provides a substantial contribution to the theory of inflection as well as to the study of the morphological integration of loanwords the result is a wealth of empirical facts including data from the contact languages etruscan ancient greek germanic arabic byzantine greek old french and provençal accompanied by brilliant and groundbreaking analyses this volume represents a long overdue reassessment of the neapolitan painter paolo de matteis an artist largely overlooked in english language scholarly publications but one who merits our attention for the quality of his work and the originality of its iconography as well as for his remarkable ability to respond creatively to his patrons aesthetic ideals and agendas following a meticulous examination of the ways in which posterity's impression of de matteis has been conditioned by a biased biographical and literary tradition livio pestilli devotes rich detailed analyses to the artist's most significant paintings and drawings more than just a novel approach to de matteis and the neapolitan baroque however the book makes a significant contribution to the study and understanding of early eighteenth century european art and cultural history in general not only in naples but in other major european centers including paris vienna genoa and rome scholarship on pre university education in italy before 1500 has been dominated by studies of individual towns or by general syntheses this work offers not only an archival study of a region but also attempts to discern crucial local variations an exploration of the many depictions of charlemagne in the italian tradition of chivalric narratives in verse and prose chivalric tales and narratives concerning charlemagne were composed and circulated in italy from the early fourteenth to the mid sixteenth century and indeed subsequently flourished in forms of popular theatre which continue today but are they history or fiction myth or fact cultural memory or deliberate appropriation elite culture or popular entertainment oral or written performed or read this book explores the many depictions of the emperor in the italian tradition of chivalric narratives in verse and prose beginning in the age of dante with the earliest tales

composed for italians in the hybrid language of franco italian which draw inspiration from the french tradition of charlemagne narratives the volume considers the compositions of anonymous reciters of cantari and the prose versions of the florentine andrea da barberino before discussing the major literary contributions to the genre by luigi pulci matteo maria boiardo and ludovico ariosto the focus throughout is on the ways in which the portrait of charlemagne seen as both emperor and king of france is persistently ambiguous affected by the contemporary political situation and historical events such as invasion and warfare he emerges through these texts in myriad guises from positive and admirable to negative and despised the great renaissance artist andrea del sarto 1486 1530 rivals leonardo da vinci as one of history s most accomplished draftsmen moving beyond the graceful elegance of his contemporaries such as raphael and fra bartolommeo he brought unprecedented realism to his drawings through the rough and rustic use of chalk in his powerfully rendered life and compositional studies with an immediacy few other renaissance artists possess del sarto s work has proven to be inspirational and compelling to later audiences with admirers such as degas and redon this lavishly illustrated book reveals del sarto s dazzling inventiveness and creative process presenting fifty core drawings on paper together with a handful of paintings the first publication to look to del sarto s working practice through a close examination of his art from across all the world s major collections this volume analyzes new studies of his panel underdrawings as well the depth and breadth of its research make this book an important contribution to the study of del sarto and florentine renaissance workshop practice this volume is published to accompany an exhibition on view at the j paul getty museum from june 23 through september 13 2015 and at the frick collection in new york from october 6 2015 through january 10 2016 based on a range of medieval commercial documents the author comes to the conclusion that the cotton traffic was one of the motors mobilizing human and material resources on a large scale in the maritime commerce in the mediterranean in the later middle ages
