2016-06-07

the current obesity epidemic has been at the top of the national and increasingly global public agenda for the last decade the subject of extensive and intensive concern scrutiny and corrective efforts from various quarters in the

united states much of this attention is predicated on the official discourse or story of obesity that it is a matter of personal responsibility specifically to the end of monitoring and ensuring appropriate caloric balance however even though it continues to have cultural presumption that discourse does not resonate with the populace which may explain why efforts of redress have been notoriously ineffective in this book helene shugart places obesity in cultural political and economic context arguing that current anxieties regarding obesity reflect the contemporary crisis in neoliberalism and that the failure of the official discourse of obesity mirrors the failure of neoliberalism more broadly specifically to account for authenticity a powerfully resonant cultural concept today she chronicles a number of competing discourses of obesity that have arisen in response to the failed official discourse examining and evaluating each in relation to the idea of authenticity assessing the practical and behavioral implications of each discourse for both obesity incidence and redress and establishing the significance of each discourse for negotiating neoliberalism in crisis more broadly

Electric Vehicle Business Models

2014-12-27

this contributed volume collects insights from industry professionals policy makers and researchers on new and profitable business models in the field of electric vehicles ev for the mass

market this book includes approaches that address the optimization of total cost of ownership moreover it presents alternative models of ownership financing and leasing the editors present state of the art insights from international experts including real world case studies the volume has been edited in the framework of the international energy agency s implementing agreement for cooperation on hybrid and electric vehicles ia hev the target audience primarily comprises practitioners and decision makers but the book may also be beneficial for research experts and graduate students

The Christian Right in Europe

2023-11-30

inspired by the success of the us christian right and the rise of the global far right ultraconservative christians in europe are joining forces and seek to reshape europe by assembling in anti gender movements and sharing anti muslim narratives they actively influence the political landscape and shape government policies the contributors offer new perspectives on the protagonists and the entangled networks that work to abolish liberal democracy in europe behind the scenes this anthology is the first to bring together case studies on the christian right in over 20 european countries providing a transnational perspective and an accessible insight for clergy politicians and academics alike

beyond slacktivism examines how routine social media use shapes political participation many commentators have argued that activism has been compromised by slacktivism a pejorative term that refers to supposedly inauthentic low threshold forms of engagement online dennis argues that this critique has an overly narrow focus he offers a novel theoretical framework the continuum of participation to help illuminate how and why citizens use social networking sites to consume news discuss civic matters and engage in politics this idea is explored in two interrelated settings firstly in an activist context through an ethnography of the campaigning organisation 38 degrees secondly within day to day life by combining evidence of behaviour online with reflective diaries drawing on this rich data on individual level attitudes and behaviours dennis challenges slacktivism as a judgement on contemporary political action beyond slacktivism provides an account of how the seemingly mundane everyday use of social media can be beneficial to democracy

lies and inaccurate information are as old as humanity but never before have they been so easy

to spread each moment of every day the internet and broadcast media purvey misinformation either deliberately or accidentally to a mass audience on subjects ranging from politics to consumer goods to science and medicine among many others because misinformation now has the potential to affect behavior on a massive scale it is urgently important to understand how it works and what can be done to mitigate its harmful effects

misinformation and mass audiences brings together evidence and ideas from communication research public health psychology political science environmental studies and information science to investigate what constitutes misinformation how it spreads and how best to counter it the expert contributors cover such topics as whether and to what extent audiences consciously notice misinformation the possibilities for audience deception the ethics of satire in journalism and public affairs programming the diffusion of rumors the role of internet search behavior and the evolving efforts to counteract misinformation such as fact checking programs the first comprehensive social science volume exploring the prevalence and consequences of and remedies for misinformation as a mass communication phenomenon misinformation and mass audiences will be a crucial resource for students and faculty researching misinformation policymakers grappling with questions of regulation and prevention and anyone concerned about this troubling yet perhaps unavoidable dimension of current media systems

a critical examination of efforts by social media companies including facebook twitter snapchat and instagram to rein in cyberbullying by young users high profile cyberbullying cases often trigger exaggerated public concern about children s use of social media large companies like facebook respond by pointing to their existing anti bullying mechanisms or coordinate with nongovernmental organizations to organize anti cyberbullying efforts do these attempts at self regulation work in this book tijana milosevic examines the effectiveness of efforts by social media companies including facebook twitter youtube snapchat and instagram to rein in cyberbullying by young users milosevic analyzes the anti bullying policies of fourteen major social media companies as recorded in companies corporate documents draws on interviews with company representatives and e safety experts and details the roles of nongovernmental organizations examining their ability to provide critical independent advice she draws attention to lack of transparency in how companies handle bullying cases emphasizing the need for a continuous independent evaluation of effectiveness of companies mechanisms especially from children s perspective milosevic argues that cyberbullying should be viewed in the context of children s rights and as part of the larger social problem of the culture of humiliation milosevic looks into five digital bullying cases related to

suicides examining the pressures on the social media companies involved the nature of the public discussion and subsequent government regulation that did not necessarily address the problem in a way that benefits children she emphasizes the need not only for protection but also for participation and empowerment for finding a way to protect the vulnerable while ensuring the child's right to participate in digital spaces

this book explores the detrimental effects on global peace of populism's tendency to present complex social issues in simplistic good versus evil terms analyzing the civilizational discourse of ukrainian president volodymyr zelensky with respect to the ongoing war between russia and ukraine with his division of the world into civilized us versus barbarian them the book argues that such a one dimensional representation of complex social reality leaves no space for understanding the conflict and has little if any potential to bring about peace to deconstruct the civilization versus barbarism discourse propagated by zelensky the book incorporates into its analysis alternative articulations of the crisis by oppositional voices the author looks at the writing of several popular ukrainian journalists and bloggers who have been excluded from the field of political representation within ukraine where all oppositional media are currently banned drawing on the discourse theory of ernesto laclau and chantal mouffe the author argues that the incorporation of alternative perspectives and silenced voices is vitally important for understanding the complexity of all international conflicts including the current one between russia and ukraine this timely and important study will be relevant for all students and scholars of media

and communication studies populist rhetoric
political communication journalism area studies
