DeLong's Guide to Bicycles & Bicycling 1978 excerpt from spalding s official

bicycle guide for 1896 containing portraits of all the leading american riders and valuable instructions to cyclists cycling in view of its recent developments cannot be excluded from a comprehensive list of athletic sports but at the same time it must at once be admitted that it differs in many points from all other branches of athletics thus the runner the jumper and all other votaries of pedestrian sport find their alpha and omega in public competitions on the cinder path or the grass plot and their exercise for the development of their powers in one direction or another are engaged in solely with a view to complete their preparation for some forthcoming contest although these exercises undoubtedly conduce to a healthy habit of body sound mind and strong muscular limbs yet beyond this very great gain athletics as such fulfil no purpose of value to the community at large and least of all an economic one the cycling sport on the other hand has an economic side which in real value in its relation to every day life far exceeds the merely competitive developments of the pursuit and were cycle racing in all its branches utterly abolished tomorrow the interest in and more particularly the practical value of the sport would still continue unabated owing to the fact that it possesses certain solid advantages which really constitute the life and soul of its particularly vigorous and healthy existence the economic side of the sport so much insisted on may be found in the practical use of the wheel in daily life its hygienic value as a means primarily of healthy exercise is recognized and proved by the personal and practical experience of millions of people throughout the world to whom a little exercise combined as it is with a little pleasurable and stimulating excitement is of the very greatest value from a medical point of view last but not least must be considered its great convenience to the stern business of life whether as a means of economy in time or money about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
