intellectual dialogue between the two regions and in turn explores contemporary cross regional discourses both inside and outside of the official frameworks of the european union eu and the asia europe meetings asem drawing on extensive case studies based on many of his own teaching experiences georg wiessala addresses key questions such as the nature and construction of the european studies in asia curriculum aspects of values co constructed learning and adult pedagogy in the discipline of european studies in asia the politics of asian host cultures the internationalization of asian higher education and the experiences and expectations of tertiary sector students of this subject in asia australia and new zealand in doing so the author articulates a range of outcomes for the further development of higher education cooperation agendas between asia and europe in the discipline of european studies and in related fields such as international relations this case study led book makes an original and novel contribution to our understanding of european studies in asia as such it will be of great interest to students and scholars of asian education comparative education european studies and international relations the story of the dramatic struggle to define collective memory in chile during the violent repressive dictatorship of general augusto pinochet an astounding history of the accomplishments of the society of jesus from painting and poetry to cartography and physics from europe to new france to china in an age of slick computer generated type and photoshopped perfection hand drawn packing is enjoying a global resurgence as shorthand for something more authentic homegrown handmade or crafted hand drawn packaging is found on everything from supermarket eggs to chipotle drink cups in this exhaustive and lavishly illustrated survey organized by four types diy art craft and artisanal gail anderson pulls back the curtain on the working processes and inspirations of forty letterers illustrators and designers from all around the world through insightful interviews process sketches and her infectious love of the medium list of publications v 1 132 in v 132 ruth ben ghia provides the first in depth study of feature and documentary films produced under the auspices of mussolini s government that took as their

subjects or settings italy s african and balkan colonies these empire films were italy s entry into an international market for the exotic the films engaged its most experienced and cosmopolitan directors augusto genina mario camerini as well as new filmmakers roberto rossellini who would make their marks in the postwar years ben ghia sees these films as part of the aesthetic development that would lead to neo realism shot in libya somalia and ethiopia these movies reinforced fascist racial and labor policies and were largely forgotten after the war ben ghia restores them to italian and international film history in this gripping account of empire war and the cinema of dictatorship t u v w z the context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of the fines for noncompliance have increased dramatically in parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people this change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal in this more complex environment to transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition while each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain this book is a source of information that connects yesterday with today the author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves the book covers theories of ethics but with an eye focused on practical application risks ethics and compliance are

analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or in technical and regulatory details ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations thus due to the importance of risk management in the business world and the necessary involvement of the ceo and the board of directors it seems appropriate that executives get access to a book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader this book is a wake up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law if they do they can better prevent and react to the difficult obstacle course of risks dangers and threats that organizations face and that may jeopardize the sustainability resilience and survival of companies the has become the world s largest database with search being the main tool that allows organizations and individuals to exploit its huge amount of information search on the has been traditionally based on textual and structural similarities ignoring to a large degree the semantic dimension i e understanding the meaning of the query and of the document content combining search and semantics gives birth to the idea of semantic search traditional search engines have already advertised some semantic dimensions some of them for instance can enhance their generated result sets with documents that are semantically related to the query terms even though they may not include these terms nevertheless the exploitation of the semantic search has not yet reached its full potential in this book roberto de virgilio francesco guerra and yannis velegrakis present an extensive overview of the work done in semantic search and other related areas they explore different technologies and solutions in depth making their collection a valuable and stimulating reading for both academic and industrial researchers the book is divided into three parts the first introduces the readers to the basic notions of the of data it describes the different kinds of data that exist their topology and their storing and indexing techniques the second

part is dedicated to search it presents different types of search like the exploratory or the path oriented alongside methods for their efficient and effective implementation other related topics included in this part are the use of uncertainty in query answering the exploitation of ontologies and the use of semantics in mashup design and operation the focus of the third part is on linked data and more specifically on applying ideas originating in recommender systems on linked data management and on techniques for the efficiently querying answering on linked data a climate defined by wet and dry seasons a mostly mountainous terrain a biota prone to disturbances a human geography characterized by a diversity of peoples all of whom rely on burning in one form or another mexico has ideal circumstances for fire and those fires provide a unique perspective on its complex history narrating mexico s evolution of fire through five eras historian stephen j pyne describes the pre human pre hispanic colonial industrializing 1880 1980 and contemporary 1980 2015 fire biography of this diverse and dynamic country creatively deploying the aztec new fire ceremony and the five suns that it birthed pyne addresses the question why does fire appear in mexico the way it does five suns tells the saga through a pyric prism mexico has become one of the top ten firepowers in the world today through its fire suppression capabilities fire research and industrial combustion but also by those continuing customary practices that have become increasingly significant to a world that suffers too much combustion and too little fire five suns completes a north american fire history trilogy written by pyne over the past 40 years complementing his histories of canada and the united states this book collects fifteen essays and book sections written over thirty years about the jesuits in india the volume looks back into this long missionary history but asks as well how ought interreligious learning take place in the 21st century this important new book on the yaqui people of the north mexican state of sonora examines the history of yaqui spanish interactions from first contact in 1533 through mexican independence in 1821 the yaquis and the empire is the first major publication to deal with the colonial history of the yaqui people in more than thirty years and
