among the numerous introductions to lacan published to date in english philippe julien s work is certainly outstanding beyond its conceptual clarity the book constitutes an excellent guide to lacanian psychoanalytic practice andr patsalides psychoanalyst and president lacanian school of psychoanalysis from 1953 to 1980 jacques lacan sought to accomplish a return to freud beyond post freudianism he defined this return as a new covenant with the meaning to the freudian discovery each year through his teaching he brought about this return what was at stake in this renewal philippe julien who joined lacan s ecole freudienne de paris in 1968 attempts to answer this question situated in the period after lacan julien shows that lacan s return to freud was neither a closing of the freudian text by responding to questions left unanswered nor a reopening of the text by giving endless new interpretations neither dogmatic nor hermeneutic lacan s return to freud was the return of an inevitable discordance between our experience of the unconscious and any attempt to give an account of it for the unconscious by its very nature disappears at the same moment as it is discovered it is in this sense that the author can claim that lacan s return to freud will have been freudian constantly challenging the reader to submit to the rigors of lacan s sinuous thinking this penetrating work goes far beyond being a mere introduction rendered into elegant english by the american translator who added numerous footnotes and scholarly references to the french original this study brings lacanian scholarship among english readers to a new level of sophistication neither dogmatic nor hermeneutic lacan s return to freud was the return of an inevitable discordance between our experience of the unconscious and any attempt to give an account of it for the unconscious by its very nature disappears at the same moment as it is discovered it is in this sense that the author can claim that lacan s return to freud was freudian

a chance meeting of a sewing machine and an umbrella the impossible face off between a whale and a polar bear one was devised by lautréamont the other punctuated by freud both are memorable why so they certainly tickle something in us lacan says what it is it's about man and woman there is neither accord nor harmony between man and woman there's no programme nothing has been predetermined every move is a shot in the dark which in modal logic is called contingency there's no way out of it why is it so inexorable that is so necessary it really has to be reckoned that this stems from an impossibility hence the theorem there is no sexual relation the formula has become famous in the place of what thereby punctures a hole in the real there is a plethora of luring and enchanting images and there are discourses that prescribe what this relation must be these discourses are mere semblance the artifice of which psychoanalysis has made apparent to all in the twenty first century this is beyond dispute who still believes that marriage has a natural foundation since it's a fact of culture one devotes oneself to inventing one cobbles together different constructions from whatever one can it may be better or worse there is oneness at the heart of the present seminar this aphorism which hitherto went unnoticed complements the there is no of sexual relation stating what there is it should be heard as one all alone alone in jouissance which is fundamentally auto erotic and alone in significance outside any semantics here begins lacan's late teaching everything he has already taught you is here and yet everything is new overhauled topsy turvy lacan had taught the primacy of the other in the order of truth and the order of desire here he teaches the primacy of the one in its real dimension he rejects the two of sexual relation and that of signifying articulation he rejects the big other the fulcrum of the dialectic of the subject disputing its existence which he consigns to fiction he depreciates desire and promotes jouissance he rejects being which is mere semblance henology the doctrine of the one here outclasses ontology the theory of being what about the symbolic order nothing more than the reiteration of the one in the real hence the abandoning of graphs and topological surfaces in favour of knots made of rings of string each of which is an unlinked one recall that seminar xviii sighed for a discourse that would not be semblance well with seminar xix we have an attempt at a discourse that would take its point of departure in the real the radical thought of modern individualism jacques alain miller

The Later Lacan 2012-02-01

this book is a close reading of jacques lacan s seminal essay the agency of the letter in the unconscious or reason since freud selected for the particular light it casts on lacan s complex relation to linguistics psychoanalysis and philosophy it clarifies the way lacan renews or transforms the psychoanalytic field through his diversion of saussure s theory of the sign his radicalization of freud s fundamental concepts and his subversion of dominant philosophical values the authors argue however that lacan s discourse is marked by a deep ambiguity while he invents a new language he nonetheless maintains the traditional metaphysical motifs of systemacity foundation and truth
