Postmodern Imperialism 2011-06-09

eric walberg s postmodern imperialism geopolitics and the great game is a riveting and radically new analysis of the imperialist onslaught which first engulfed the world in successive waves in the 19th 20th centuries and is today hurtling into its endgame the term great game

was coined in the nineteenth century reflecting the flippancy of statesmen and historians personally untouched by the havoc that they wreaked what it purported to describe was the rivalry between russia and britain over interests in india but britain was playing its deadly game across all of eurasia from the balkans and palestine to china and southeast asia alternately undermining and carving up premodern states disrupting the lives of hundreds of millions with consequences that endure today with roots in the european enlightenment shaped by christian and jewish cultures and given economic rationale by industrial capitalism the inter imperialist competition turned the entire world into a conflict zone leaving no territory neutral the first game was brought to a close by the cataclysm of world war i but that did not mark the end of it walberg resurrects the forbidden i word to scrutinize an imperialism now in denial but following the same logic and with equally horrendous human costs what he terms great game ii then began with america eventually uniting its former imperial rivals in an even more deadly game to destroy their common revolutionary antagonist and potential nemesis communism having won this game america and the new player israel offspring of the early games have sought to entrench what walberg terms empire and a half on a now global playing field using a neoliberal agenda backed by shock and awe with swift sure strokes walberg paints the struggle between domination and resistance on a global canvas as imperialism engages its two great challengers communism and islam its secular and religious antidotes paul atwood war and empire the american way of life calls it an epic corrective it is a carefully argued and most of all cliché smashing road map according to pepe escobar journalist asia times rigorously documented it is a valuable resource for all those interested in how imperialism works and sure to spark discussion about the theory of imperialism according to john bell capitalism and the dialectic

The Circle of Knowledge: A Classified, Simplified, Visualized Book of Answers 2022-06-02

the circle of knowledge is an informative book that was designed in 1917 to be both inspiring and entertaining the book represents the modern progressive spirit which fits that time in its forms of expression and its editorship the purpose of this work is to answer the why who what when where how of the wide majority of curious minds both young and adult and encourage them to raise further questions special measures were taken in creating this work to isolate essentials from non essentials to differentiate human interest subjects of universal significance from those of little concern to deliver living truths instead of dead vocabulary and finally to bring the whole within the knowledge of the intermediate reader without regard to age in an acceptable and exciting form the use of visual outlines and tables maps drawings and diagrams the illustrated works of great painters sculptors and architects all are used to give the reader the valuable and cultural knowledge of past and present

Monsters by Trade 2014-06-11

transatlantic studies have begun to explore the lasting influence of spain on its former colonies and the surviving ties between the american nations and spain in monsters by trade lisa surwillo takes a different approach explaining how modern spain was literally made by its cuban colony long after the transatlantic slave trade had been abolished spain continued to smuggle thousands of africans annually to cuba to work the sugar plantations nearly a third of the royal income came from cuban sugar and these profits underwrote spain s modernization even as they damaged its international standing surwillo analyzes a sampling of nineteenth century spanish literary works that reflected metropolitan fears of the hold that slave traders and the slave economy more generally had over the political cultural and

financial networks of power she also examines how the nineteenth century empire and the role of the slave trader are commemorated in contemporary tourism and literature in various regions in northern spain this is the first book to demonstrate the centrality of not just cuba but the illicit transatlantic slave trade to the cultural life of modern spain

An Answer to Lord Sheffield's Pamphlet, on the Subject of the Navigation System 1817

this packet provides a detailed and richly illustrated overview of the trials of europeans in the new world and specifically the french and indian war challenging review questions encourage meaningful reflection and historical analysis test maps answer key and extensive bibliography are included

Jesuits' Estates, Answer to a Communication in the "Montreal Star" of the 19th May, 1888

the history of colonial copyright is most often told from the perspective of the colonizers reversing the trend this study of the early roots of copyright in the british empire provides a sophisticated theoretical framework contextualizing early copyright law as a form of globalization and examining its impact on colonial affairs and modern law

Cambridge University Examination Papers 1879

if the origin of the colonial period was accidental the ending was not the representatives of the thirteen colonies who approved the declaration of independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking the events that led to their decision took place over a period of nearly 300 years looking back the wonder is that it culminated so quickly for a century after its discovery the new world was little more than a lode to be mined by adventurers seeking profits it wasn't until the end of the sixteenth century that serious efforts were made to establish permanent colonies even then the perils of the journey and threats of starvation inhibited settlement but settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land they were a mixed lot english separatists from leiden french huguenots dutch burghers mennonite peasants from the rhine valley and a few gentleman anglicans but they shared a quality of toughness here is their story from award winning historian louis b wright

Emancipate your Colonies. Canada. Emancipate your Colonies! An unpublished argument. The editor's preface signed: Philo-Bentham 1838

presents subject review full length practice tests with answer explanations and test taking strategies to help readers prepare for and score higher on the high school equivalency test

Wars in the Colonies 2002-09-01

an invigorating history of the arguments and cooperation between america and britain as they divided up the world and an illuminating exploration of their underlying alliance throughout modern history british and american rivalry has gone hand in hand with common interests in this book kathleen burk brilliantly examines the different kinds of power the two empires have projected and the means they have used to do it what the two empires have shared is a mixture of pragmatism ruthless commercial drive a self righteous foreign policy and plenty of naked aggression these have been aimed against each other more than once yet their underlying alliance against common enemies has been historically unique and a defining force throughout the twentieth century this is a global and epic history of the rise and fall of empires it ranges from america s futile attempts to conquer canada to her success in opening up japan but rapid loss of leadership to britain from britain s success in forcing open china to her loss of the middle east to the us and from the american conquest of the philippines to her destruction of the british empire the pax americana replaced the pax britannica but now the american world order is fading threatening britain s belief in her own world role

West India Colonies and Mauritius: British Guiana, Jamaica, Trinidad 1859

in this fresh and original analysis brian j mcveigh argues persuasively that far from being unique japanese nationalism becomes demystified once management and mysticism the same processes and practices that operate in other national states are taken into account stripping away orientalist inspired misconceptions the author stresses the variety and relative intensity of nationalisms ranging from economic ethnic and educational to cultural gendered and religious highlighting the legacy of renovationism pluralism and of identity among japanese this book will be an invaluable corrective to recent works that glibly proclaim the emergence of globalization internationalization and convergence visit our website for sample chapters
