**another crack theory the nucleus is the oeg nameless** Nov 13 2022 what i think  
the nucleus might be i think it is possible the nucleus is a kakouhou from the  
original oeg that works like noro detach that takes control of a host but is a  
lot more advanced as in it might contain the memories of the original oeg who  
wanted to preserve himself kind of like horcruxes in harry potter

**what is nucleus in tokyo ghoul r tokyoghoul reddit** Oct 13 2022 the nucleus he  
got from furuta was probably remains of rize or parts of her original kakohou  
this resulted in rize being somewhat reborn into a new being similar to the  
dragon orphans we see but on a much more advanced scale furuta calls rize  
dragon and calls kaneki a sacrifice leading me to believe the nucleus is the  
reason dragon is what it is thus why rize s body was the main body for it
