this book discusses the american short story
composite or short story cycle a neglected form of
writing consisting of autonomous stories
interlocking into a whole the critical work done
on this genre has so far focused on the closural
strategies of the composites on how unity is
accomplished in these texts this study takes into
consideration to a greater degree than earlier
criticism the short story composite as an open
work emphasizing the tension between the
independent stories and the unified work between
the discontinuity and fragmentation on the one
hand and the totalizing strategies on the other
the discussion of the genre is illustrated with
references to numerous american short story
