Wiley CMAexcel Learning System Exam Review 2015 + Test Bank 2014-08-04

we live in the age of the suicide bomber the suicide bomb itself takes more lives than any other type of explosive weapon moreover in the last 5 years more people have been killed by suicide attacks than at any other time in history how has this descent deep into the heart of terror escalated in such a way what drives people to blow themselves up and what are the consequences more importantly perhaps what can be done to combat the rising spread of this form of violence investigative journalist iain overton addresses the fundamental drivers of modern day suicide attacks in this fascinating and important book showing how the suicide bomber has played a pivotal role in the evolution of some of the most defining forces of the modern age from communism and the cold war to the modern day war on terror interviewing russian anarchists japanese kamikazes hezbollah militants survivors of suicide bombings and countless other sources of valuable information while travelling to places such as iran irak and pakistan overton skilfully combines historical narrative travelogue interviews and testimonies and brings his research alive thanks to potent facts and visceral storytelling the result is a powerful and unforgettable read the first non academic attempt to chart the rise and rise of this weapon

Books in Print 1994

existing literature on energy audits consists almost exclusively of practical guides this book looks at energy auditing from a scientific perspective it discusses the nature of energy audits and provides a universally applicable data model as a basis for automatic processing of a large number of energy audits qualitative aspects of auditing are discussed in detail the modeling enables an improved evaluation of subsidy programs for energy audits but also a systematic and teamwork oriented creation of energy audits
